

# Evidence for/against reinforcement learning

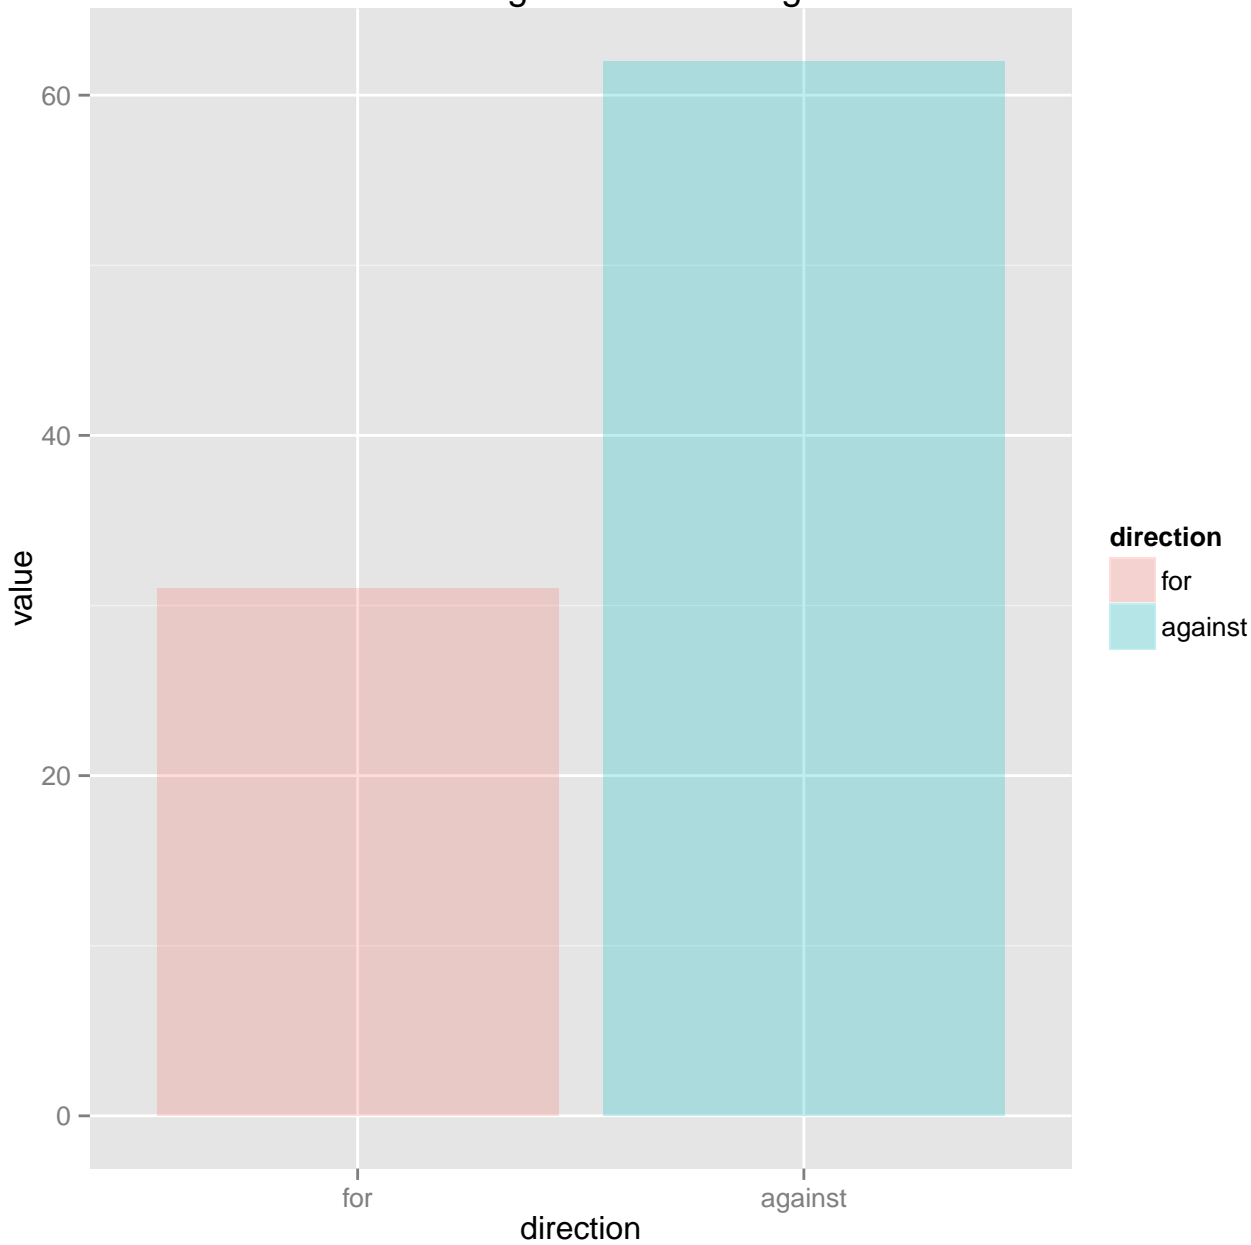

# Evidence for/against maintenance

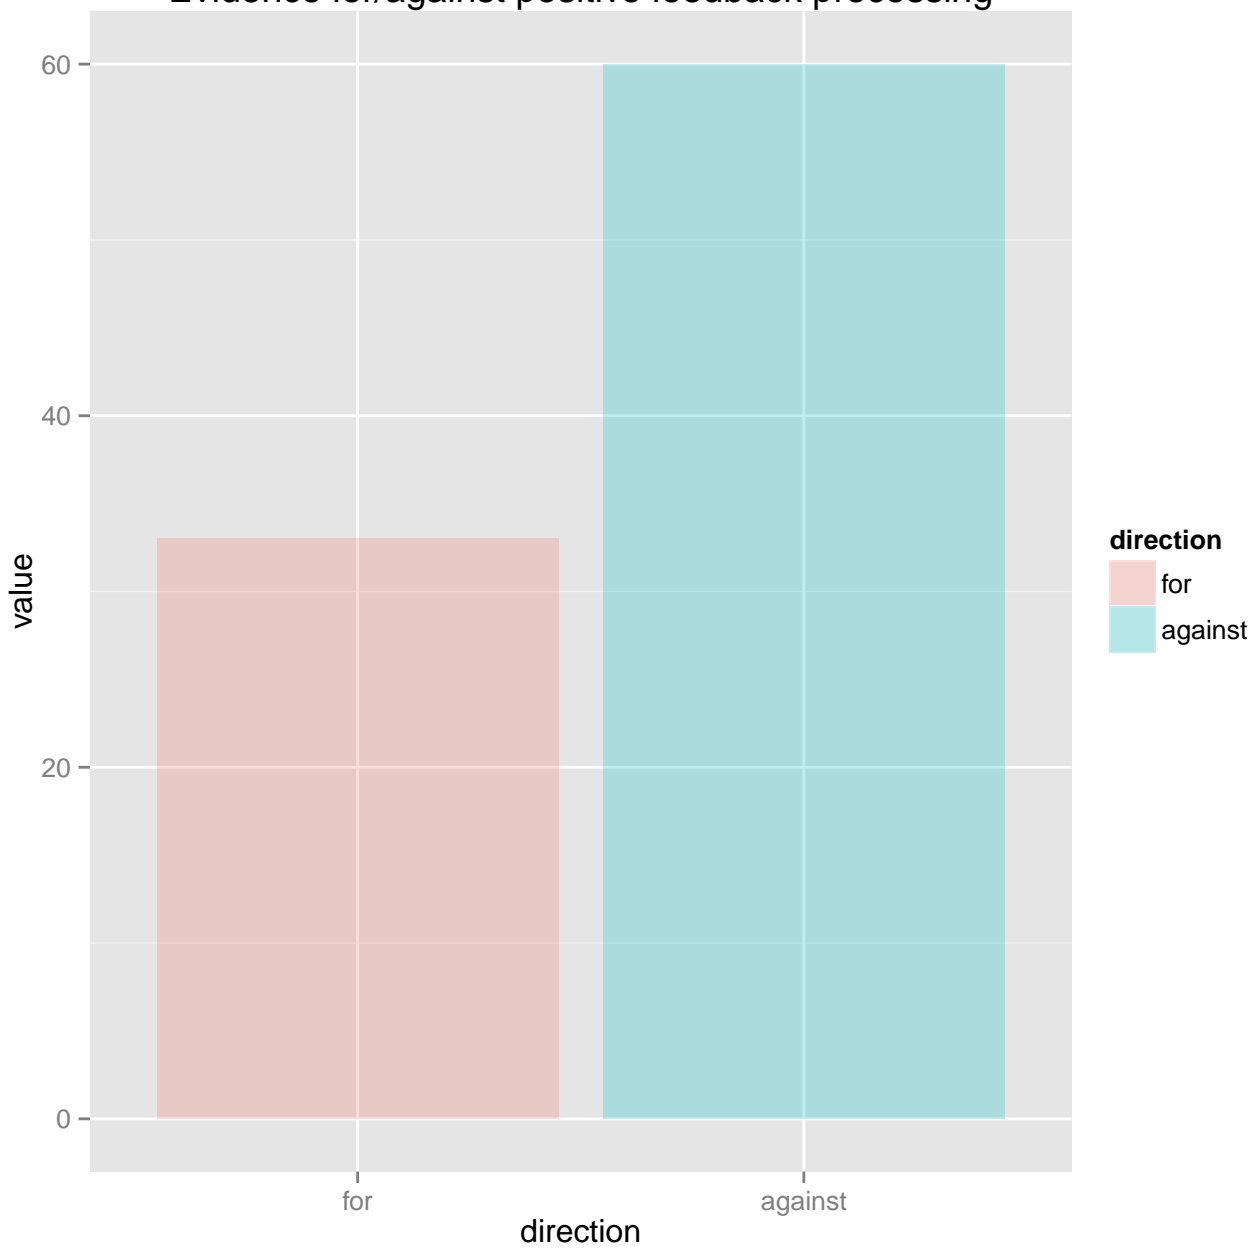

# Evidence for/against arithmetic processing

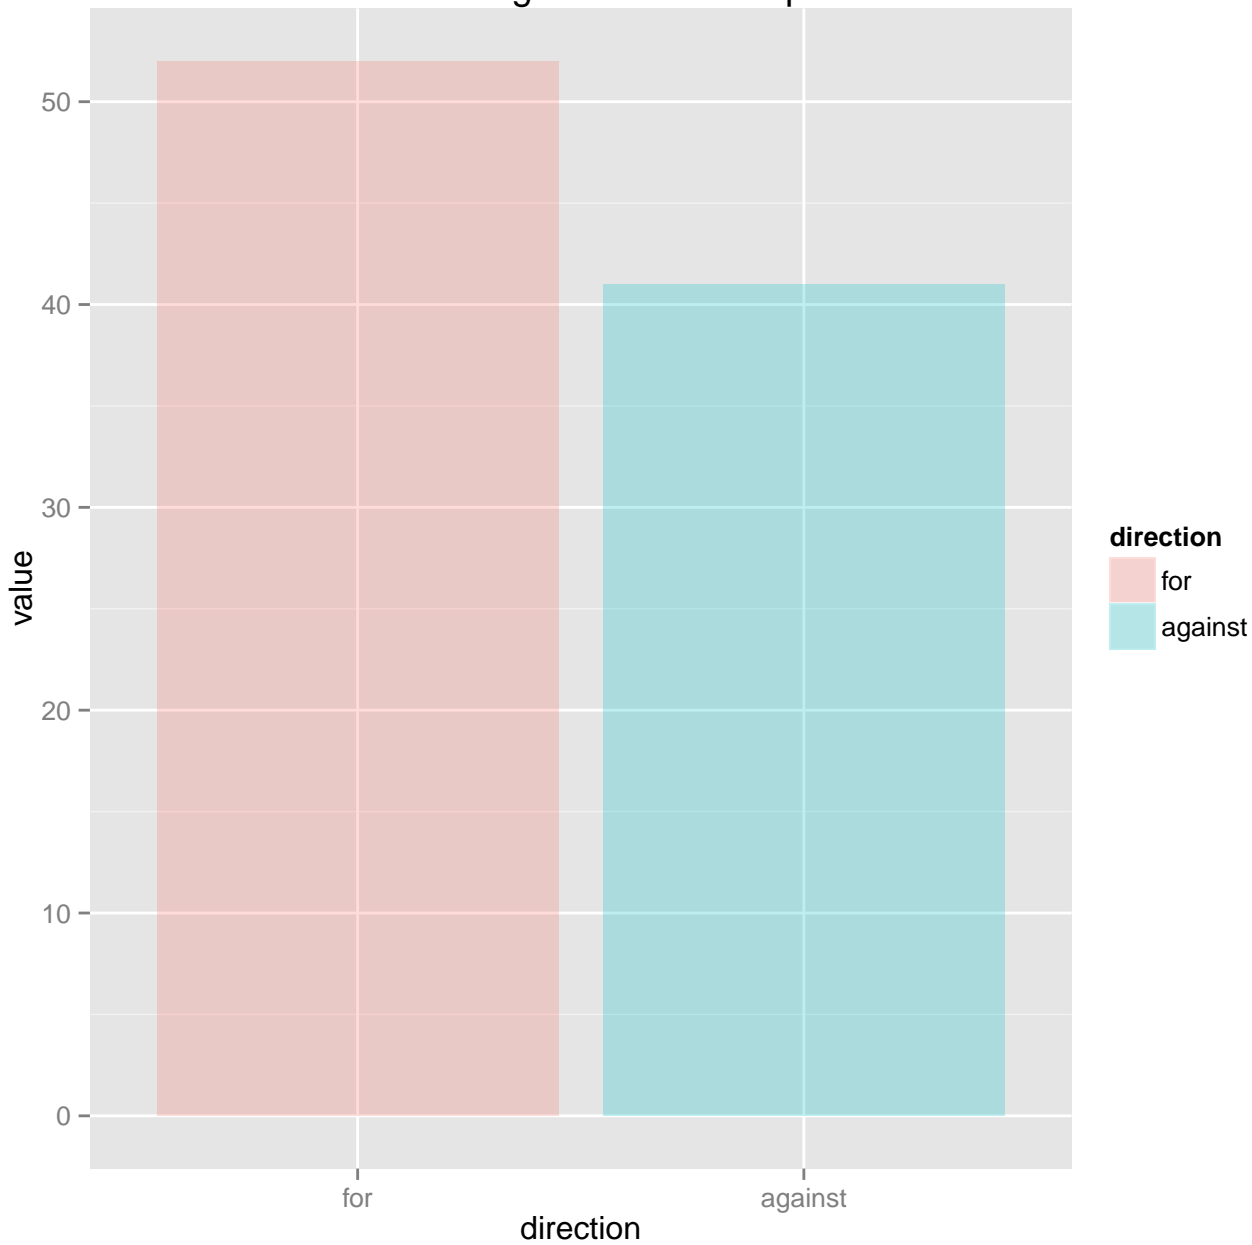

# Evidence for/against color recognition

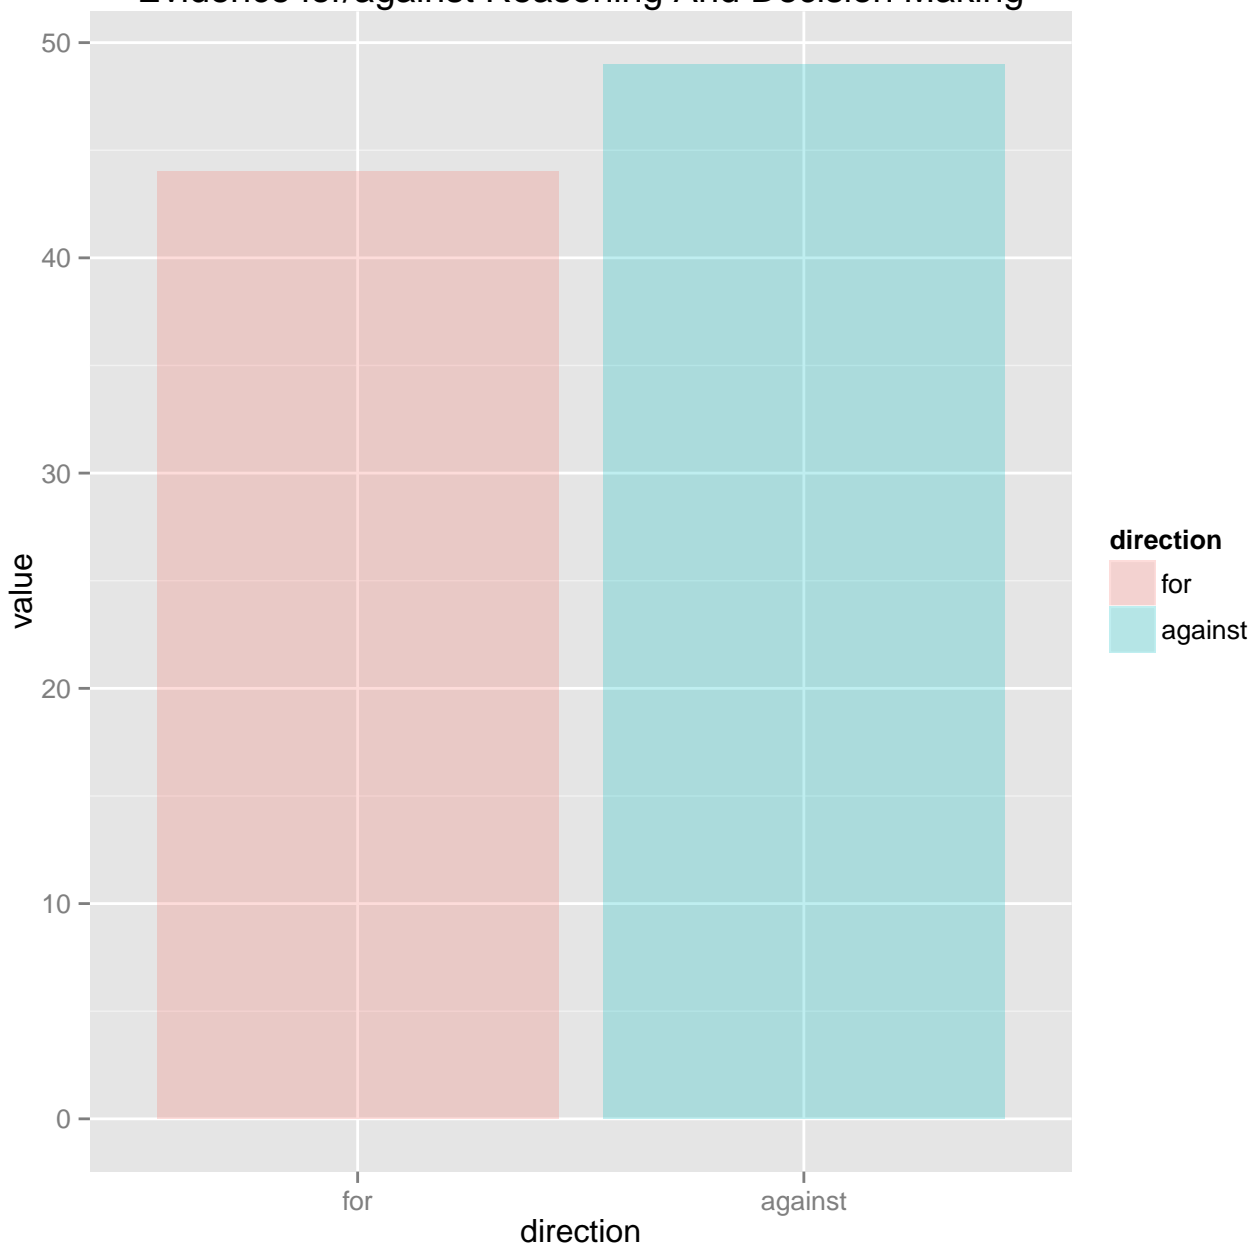

# Evidence for/against positive feedback processing

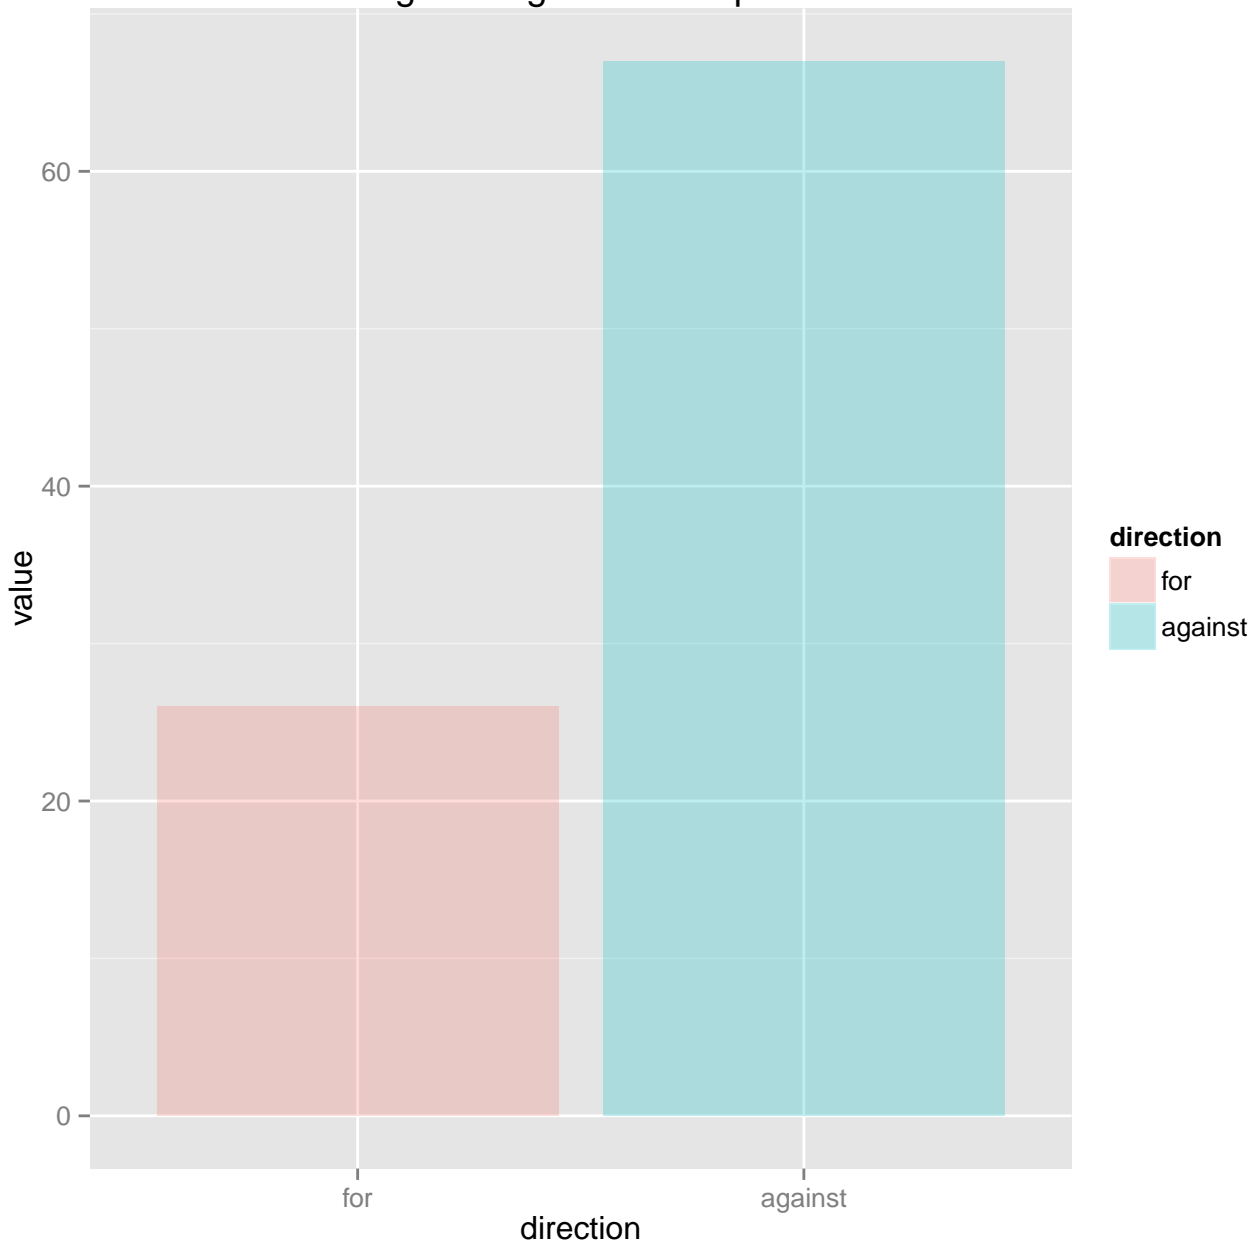

# Evidence for/against loss anticipation

# Evidence for/against Reasoning And Decision Making

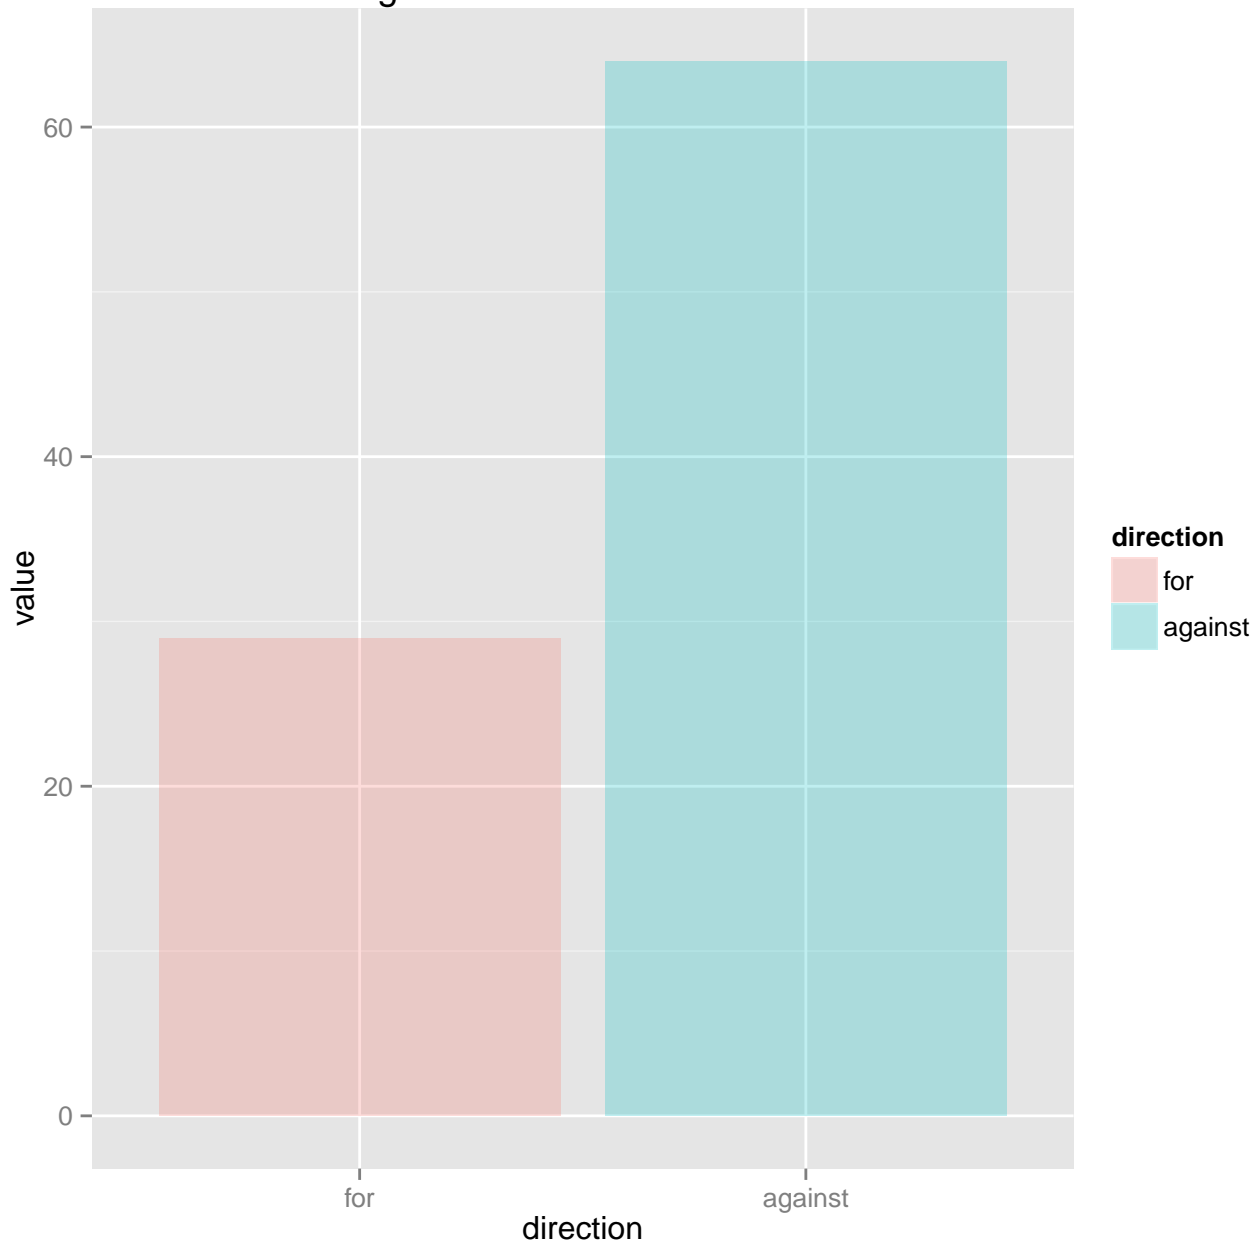

# Evidence for/against right hand response execution

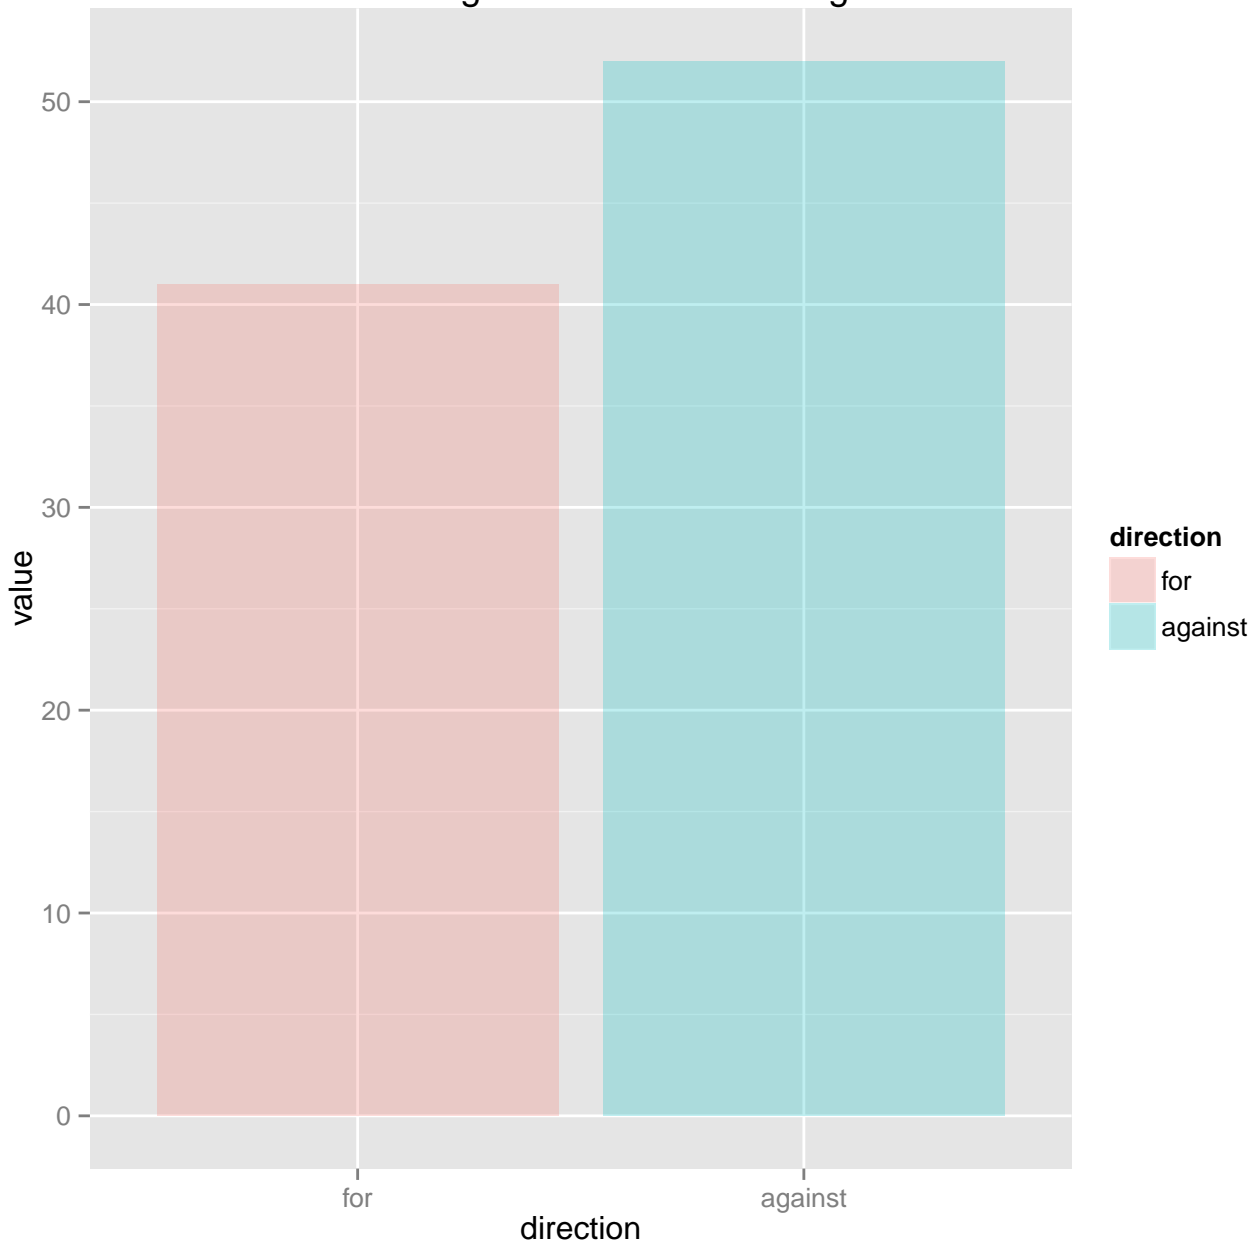

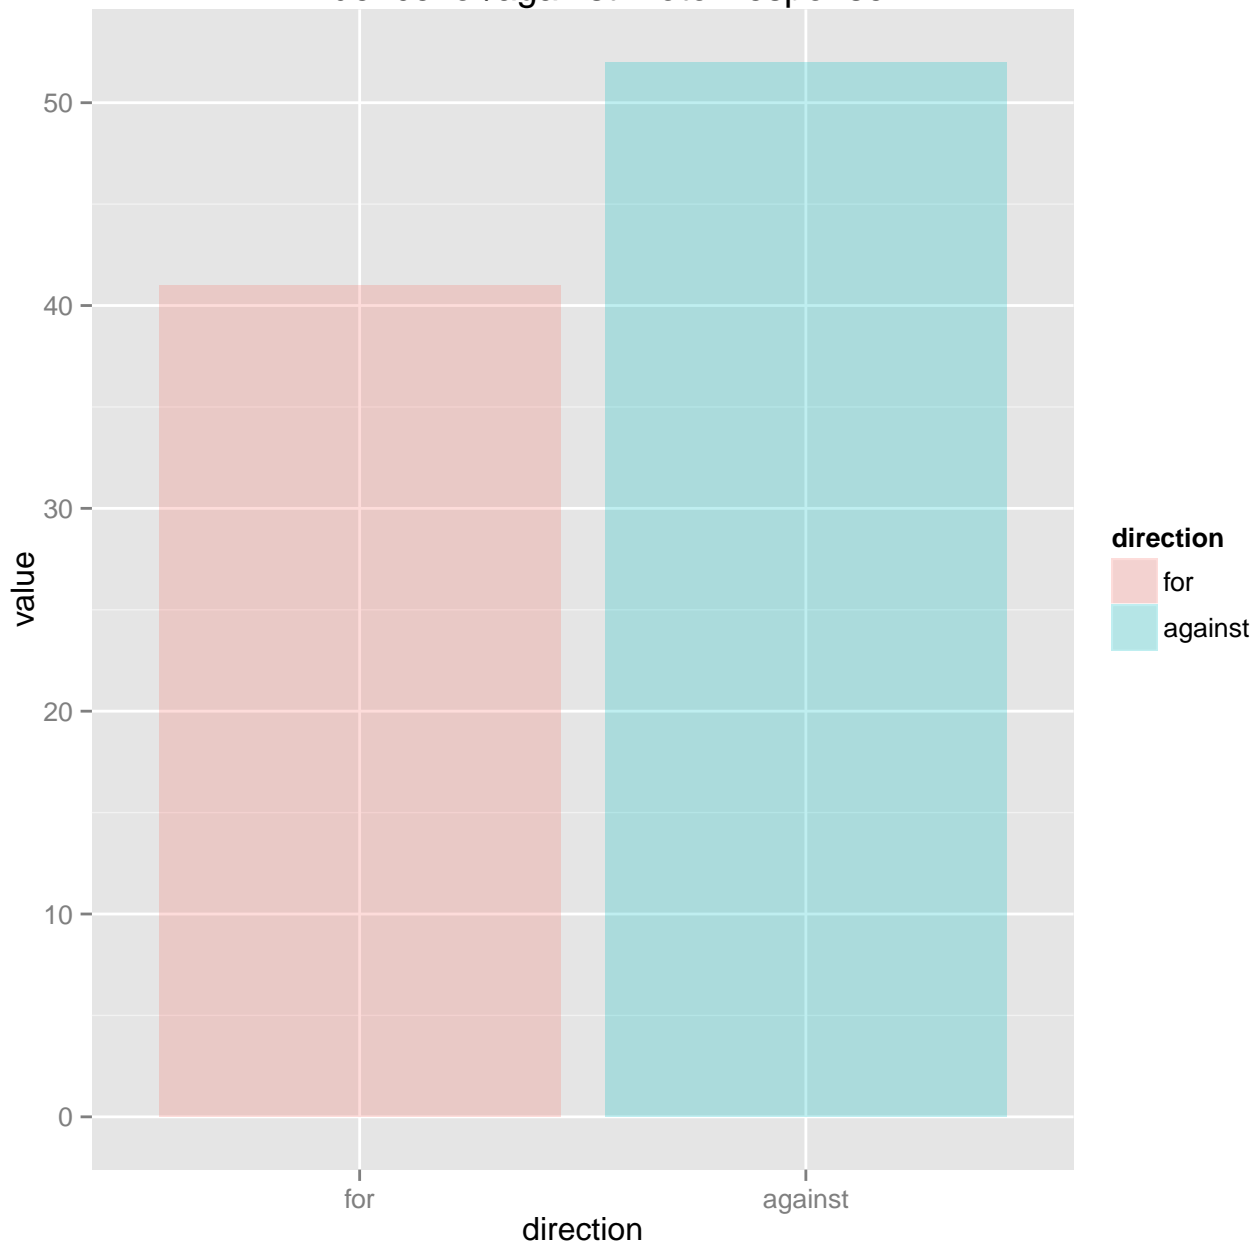

# Evidence for/against resistance to distractor inference

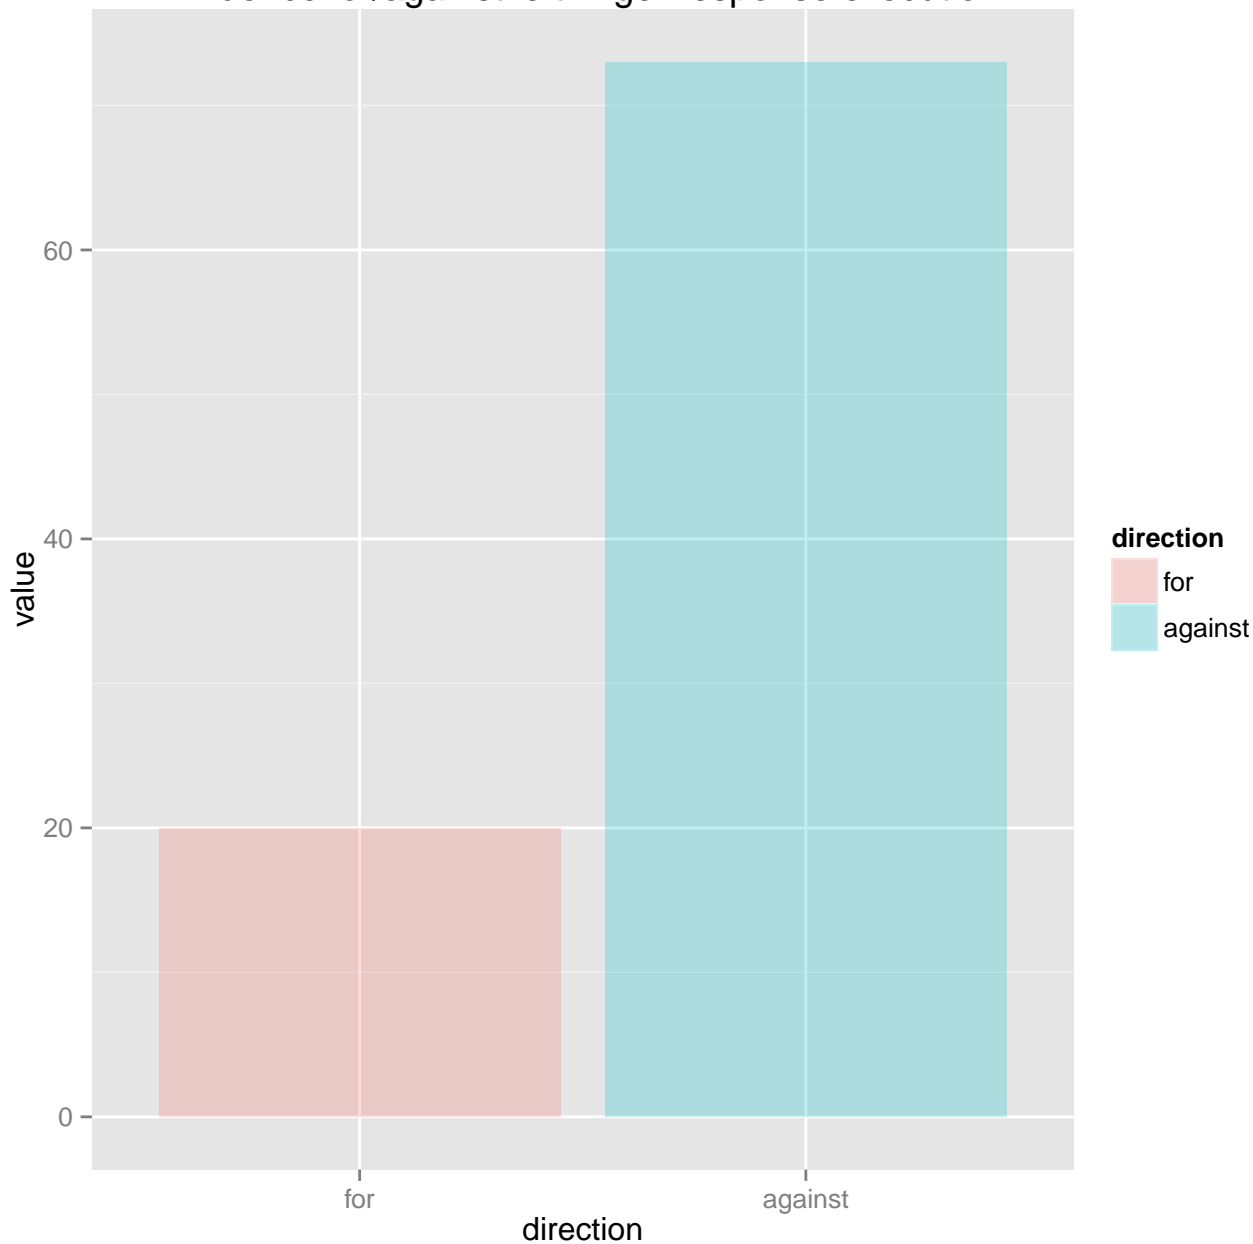

# Evidence for/against visual face recognition

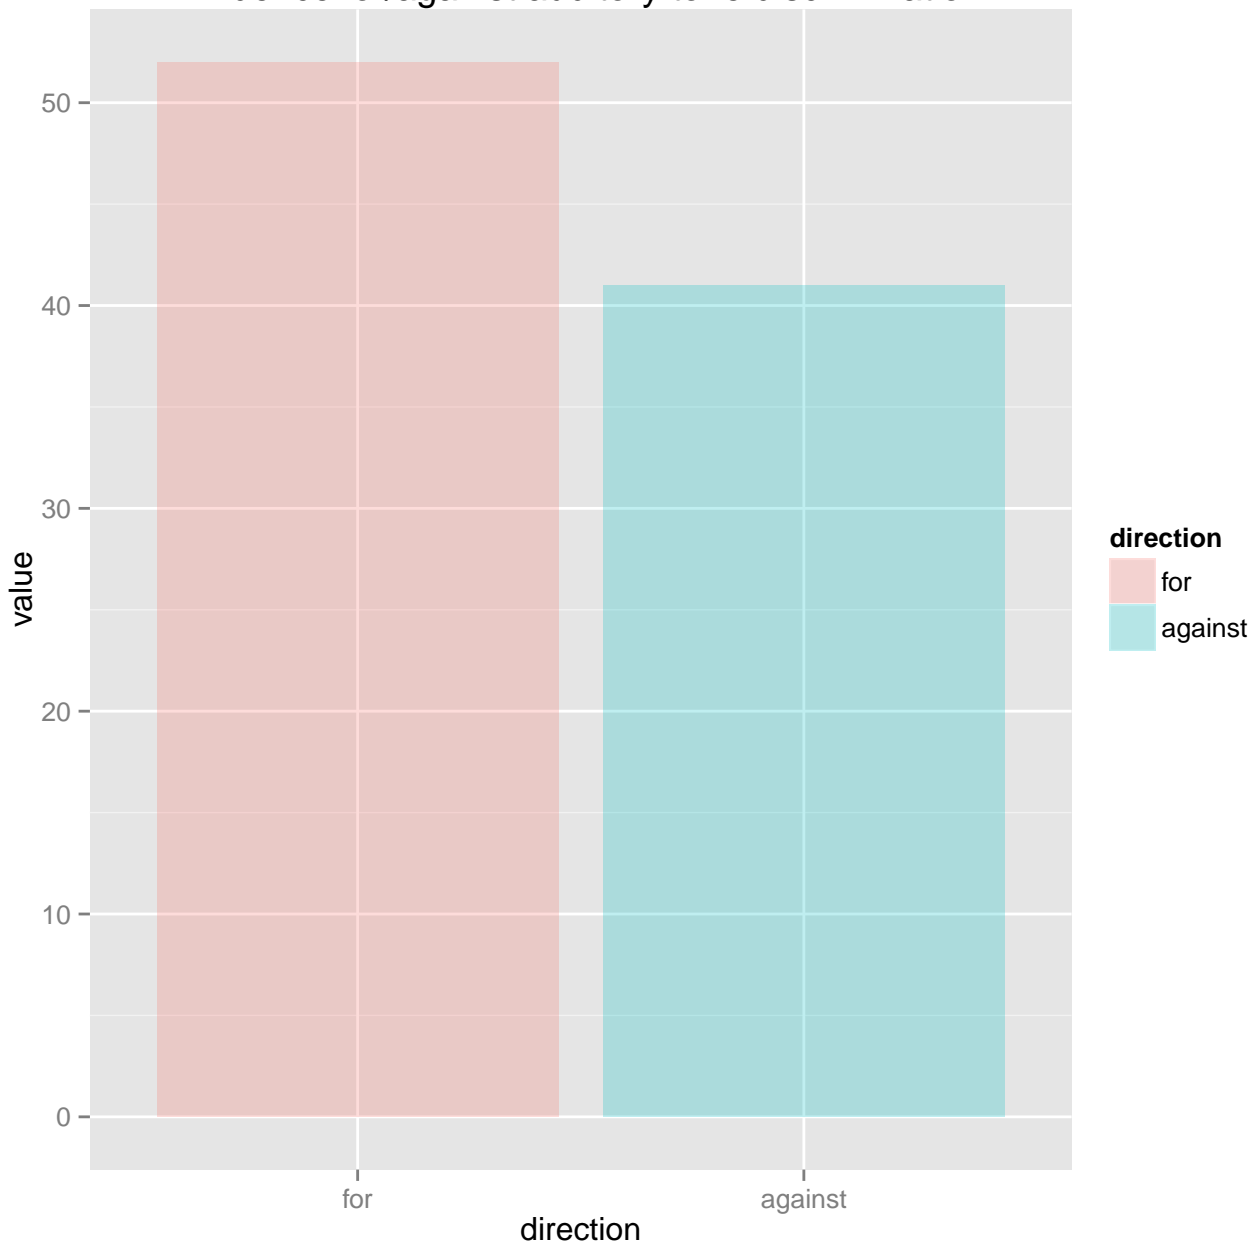

# Evidence for/against motor response

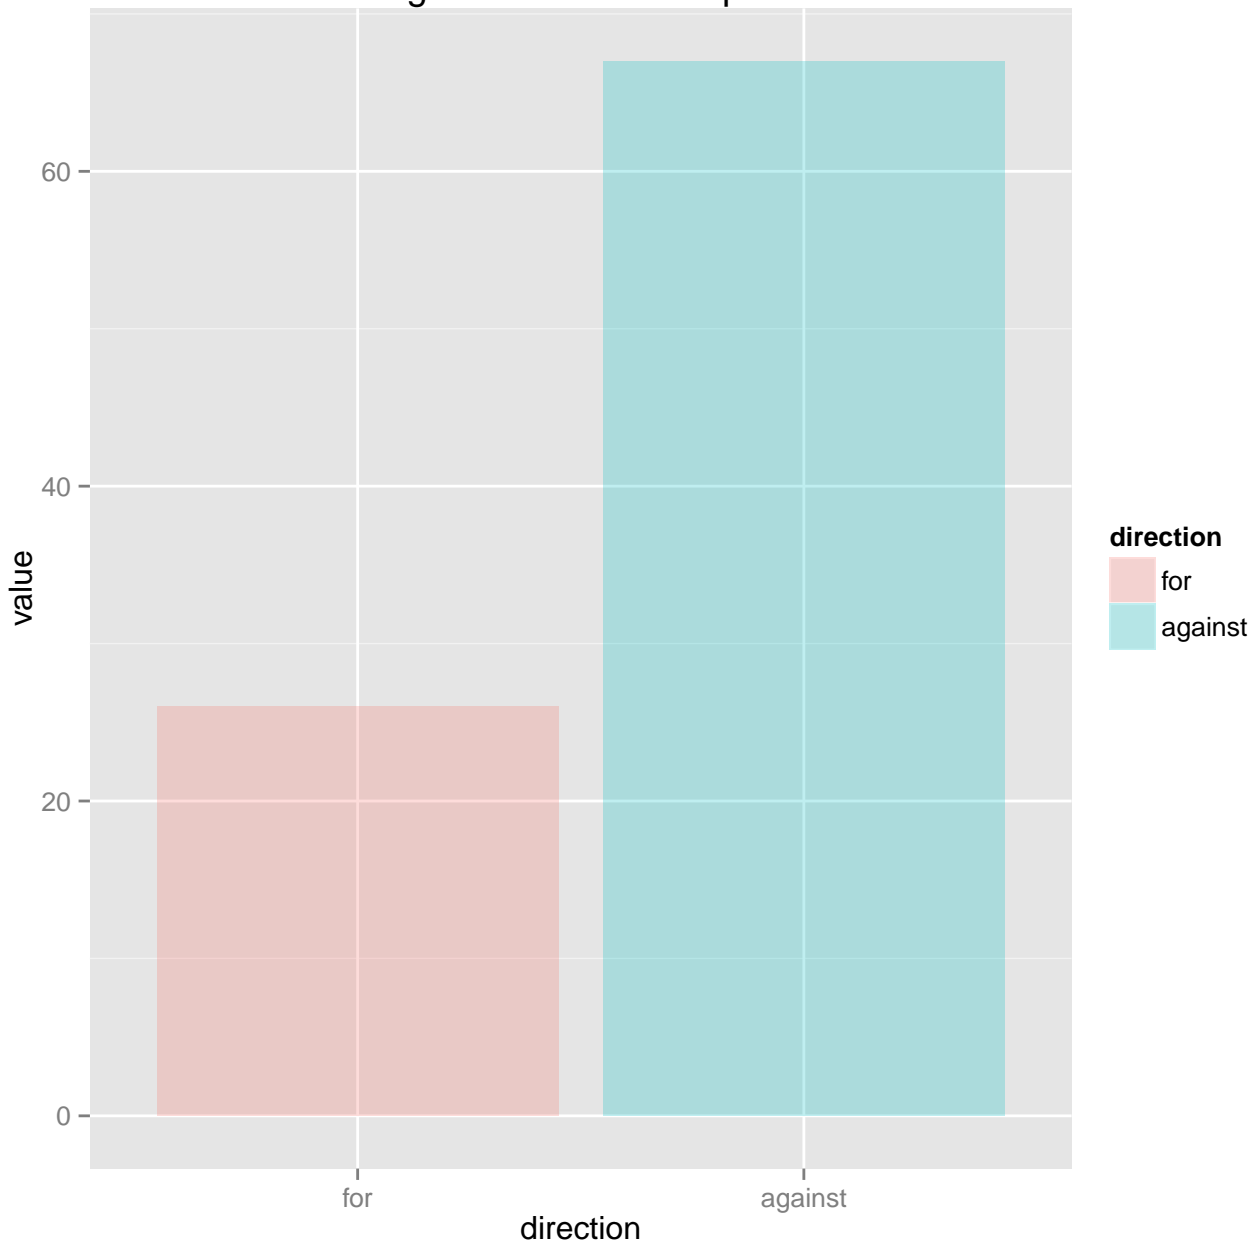

# Evidence for/against left finger response execution

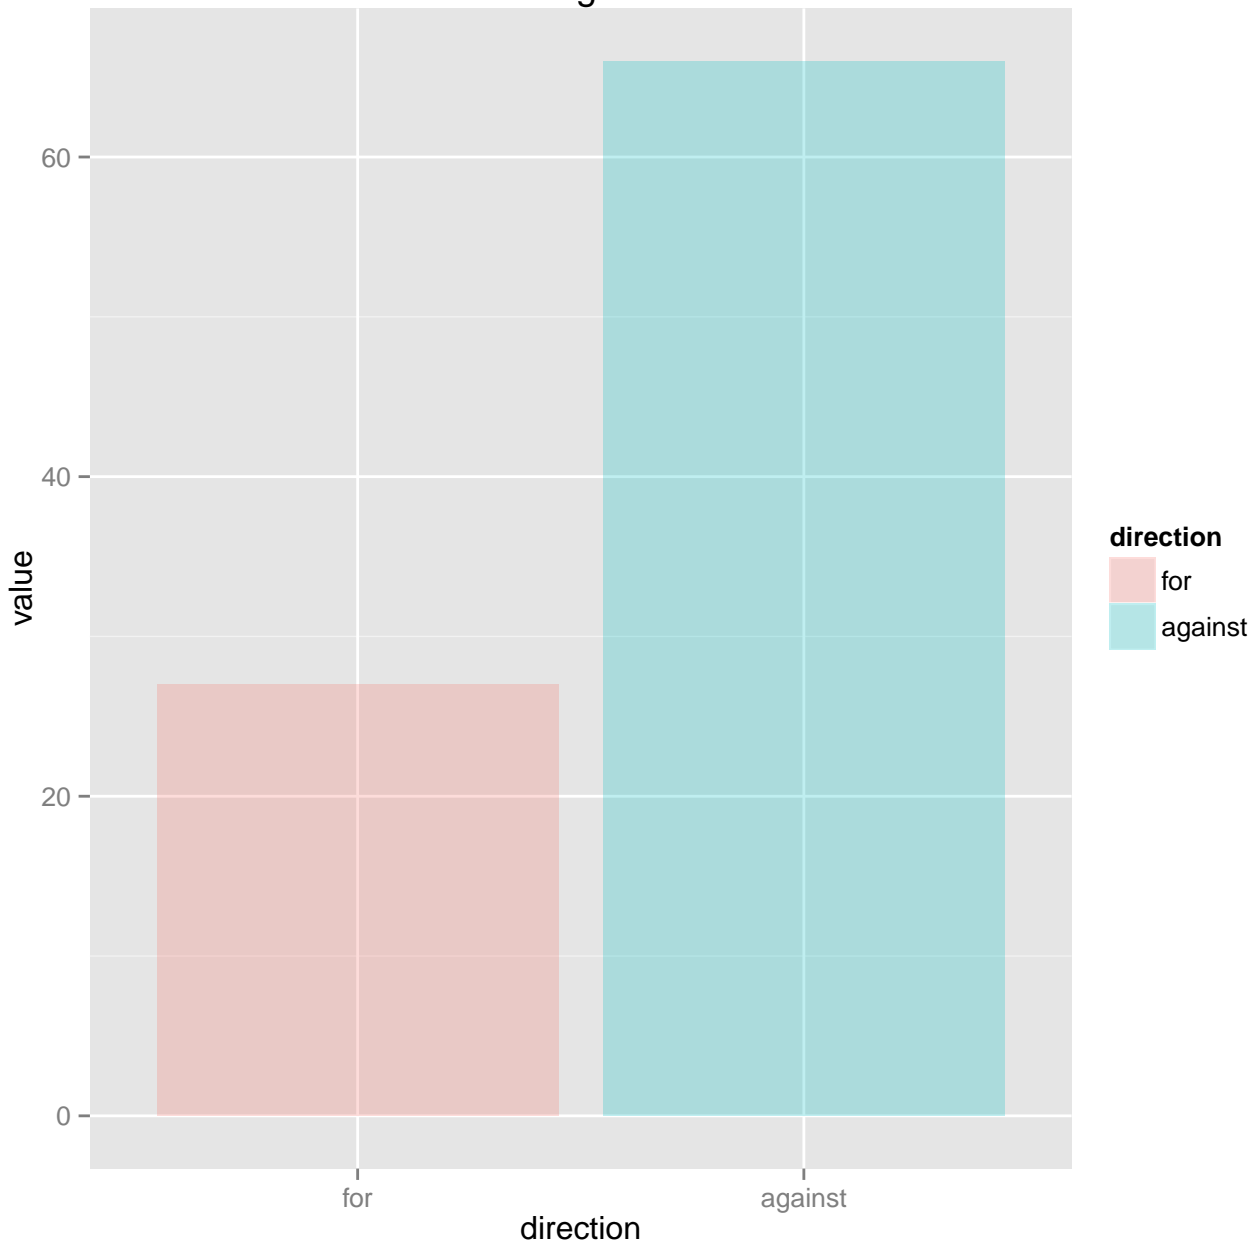

# Evidence for/against auditory tone discrimination

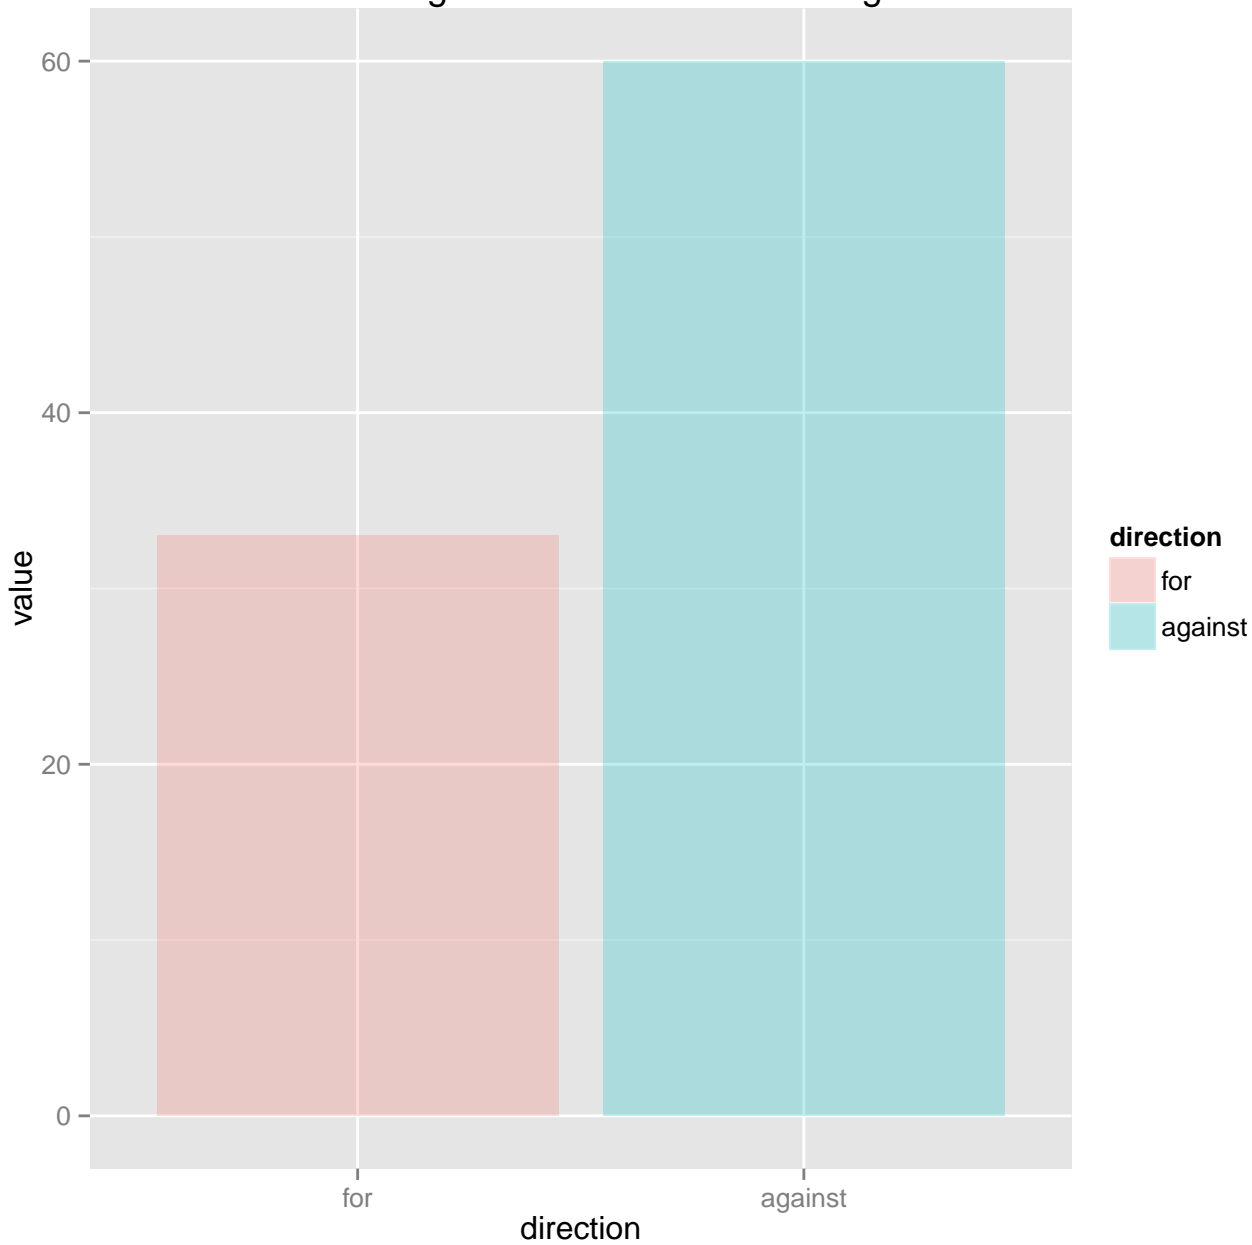

# Evidence for/against left hand response execution

# Evidence for/against Emotion

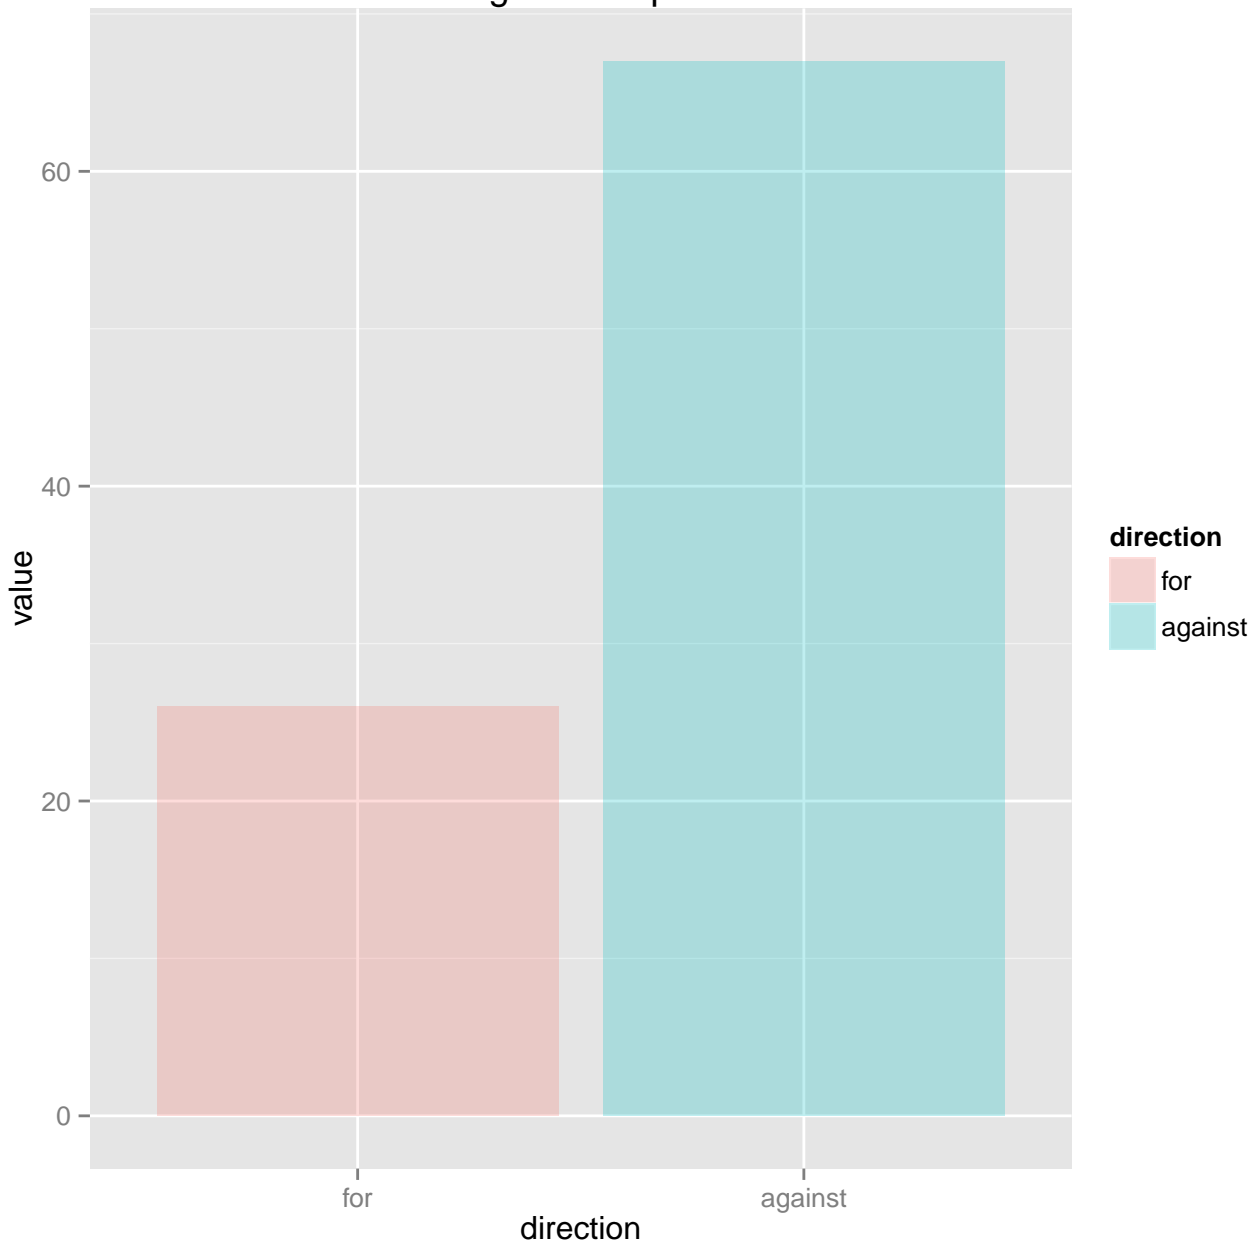

# Evidence for/against emotional face recognition

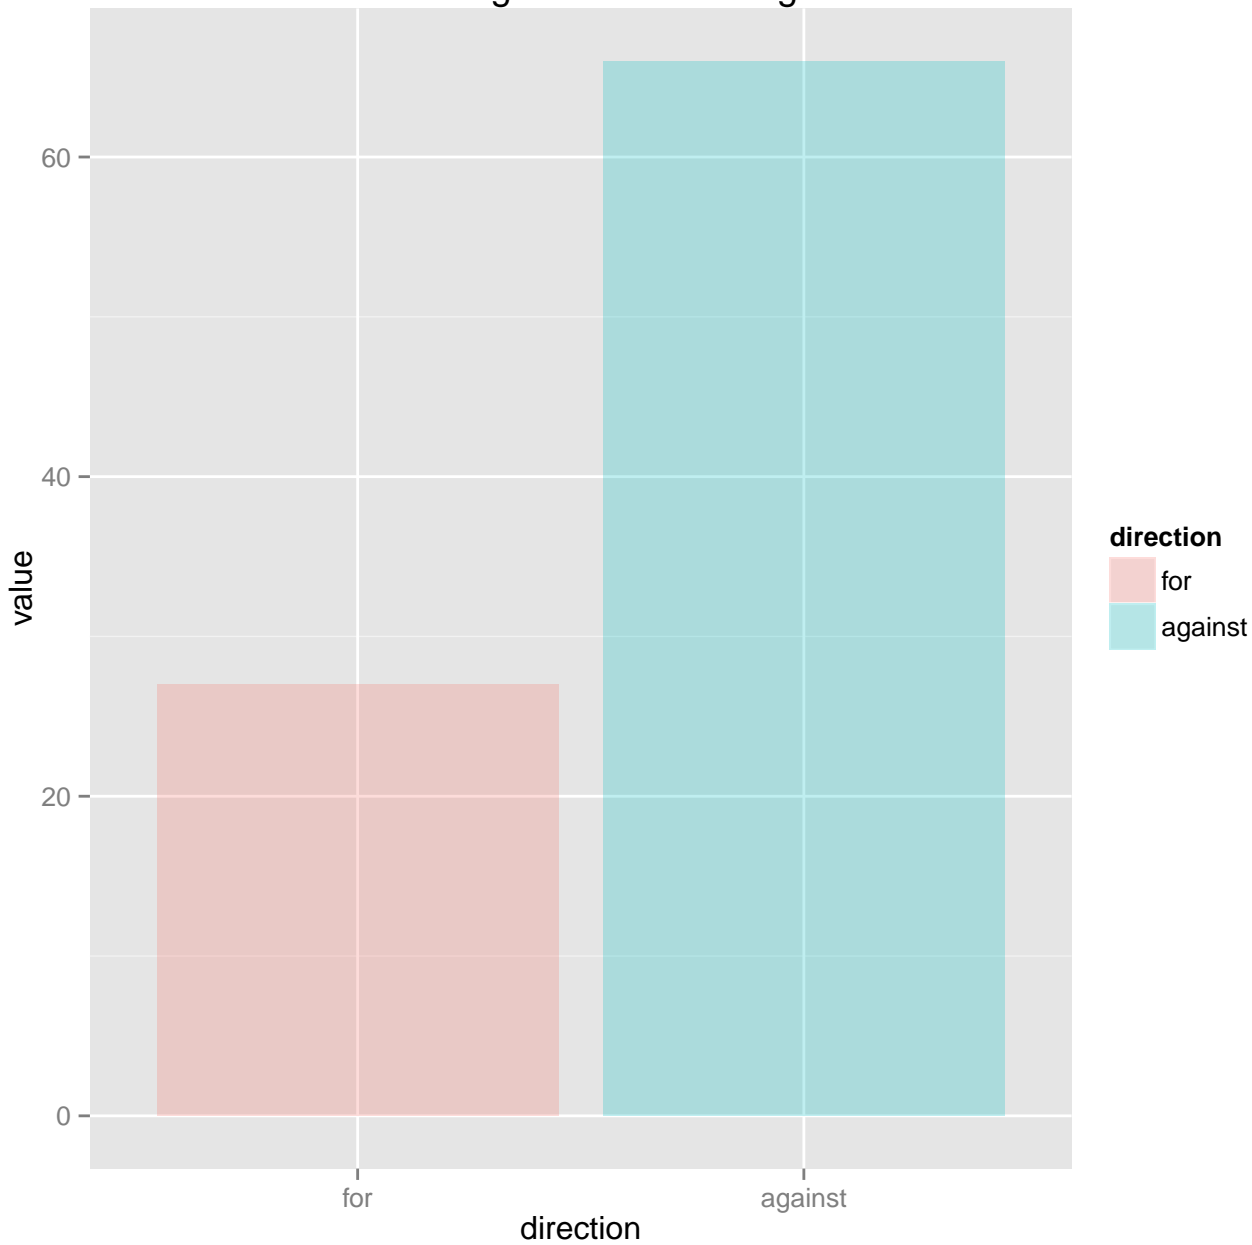

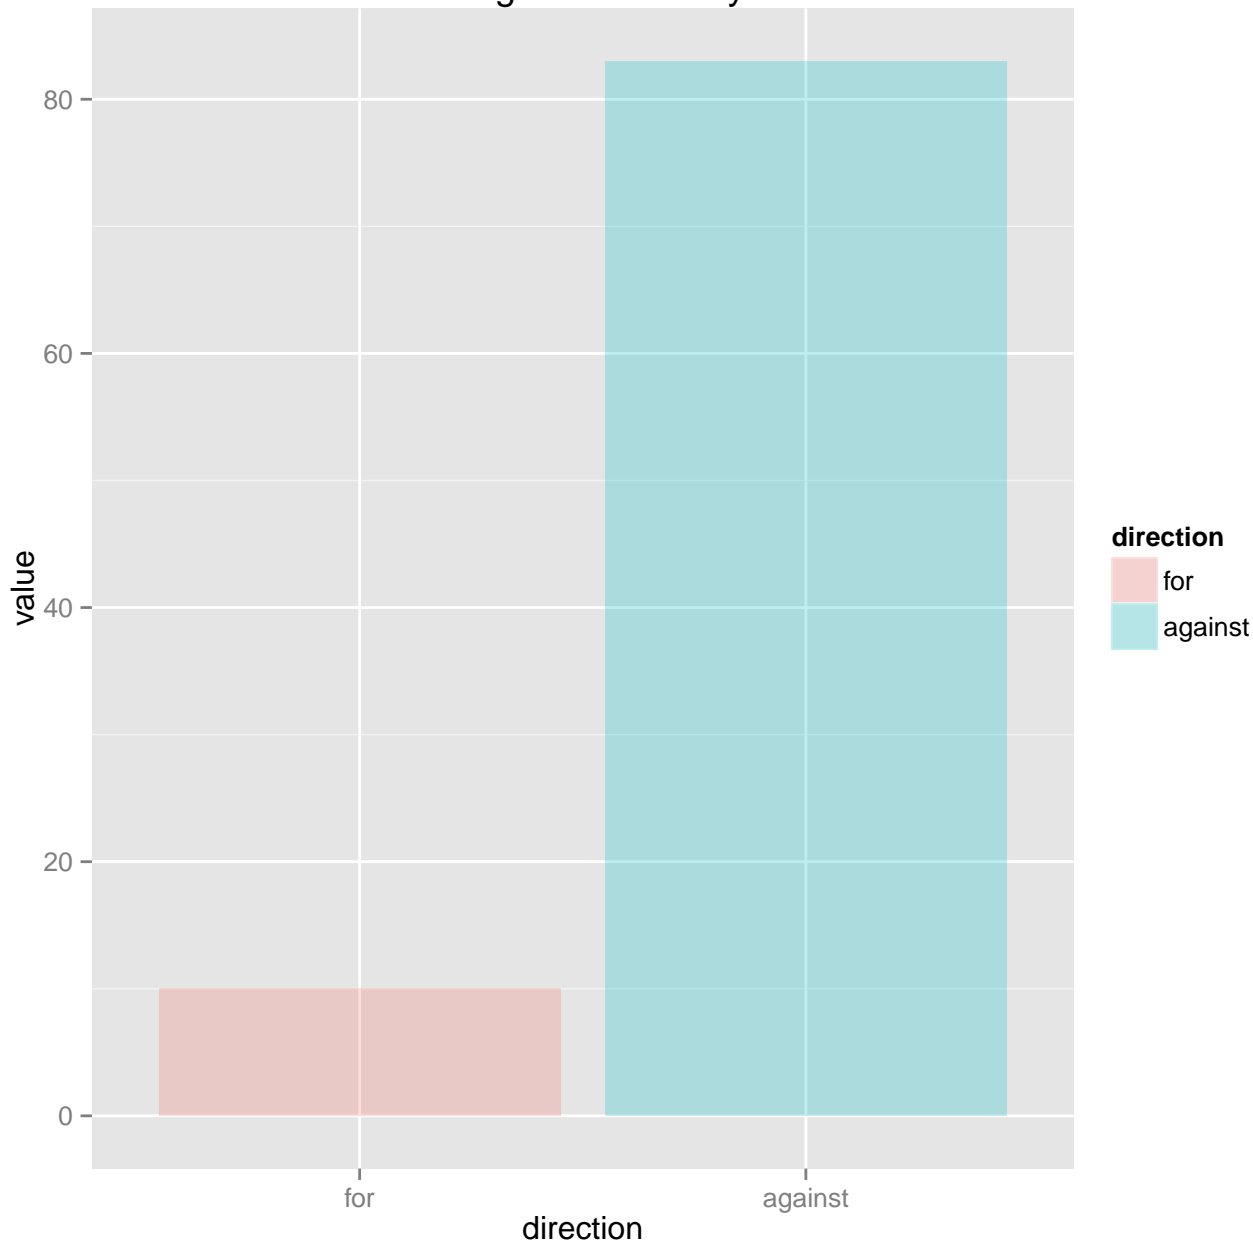

# Evidence for/against response inhibition

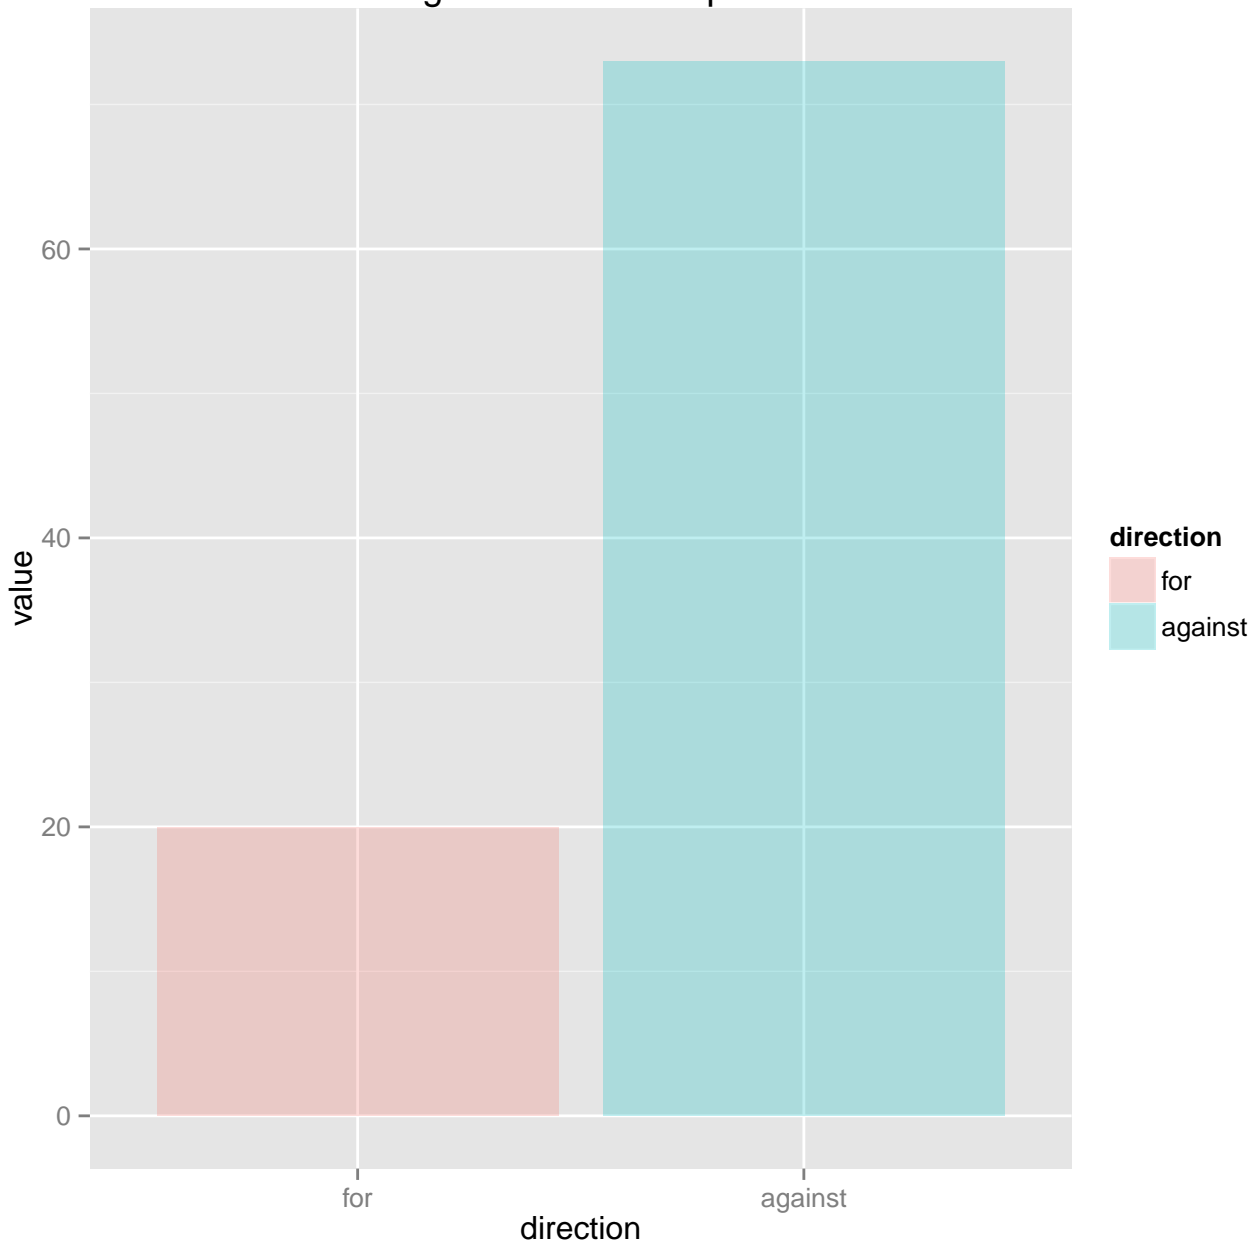

# Evidence for/against emotion regulation

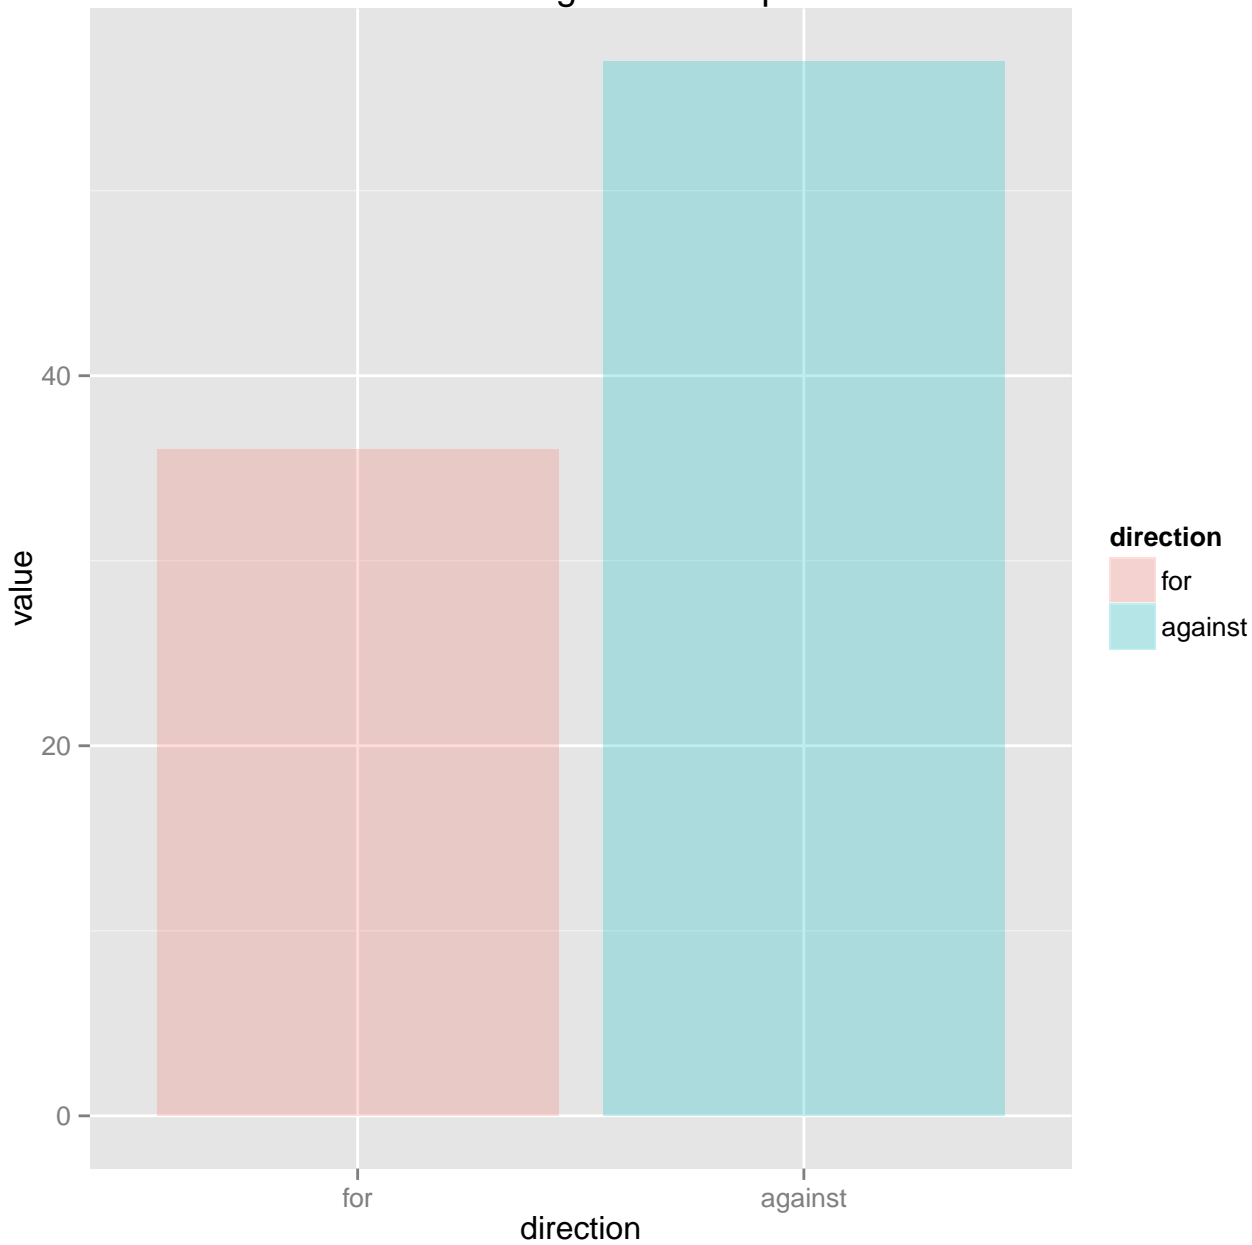

# Evidence for/against anomaly detection

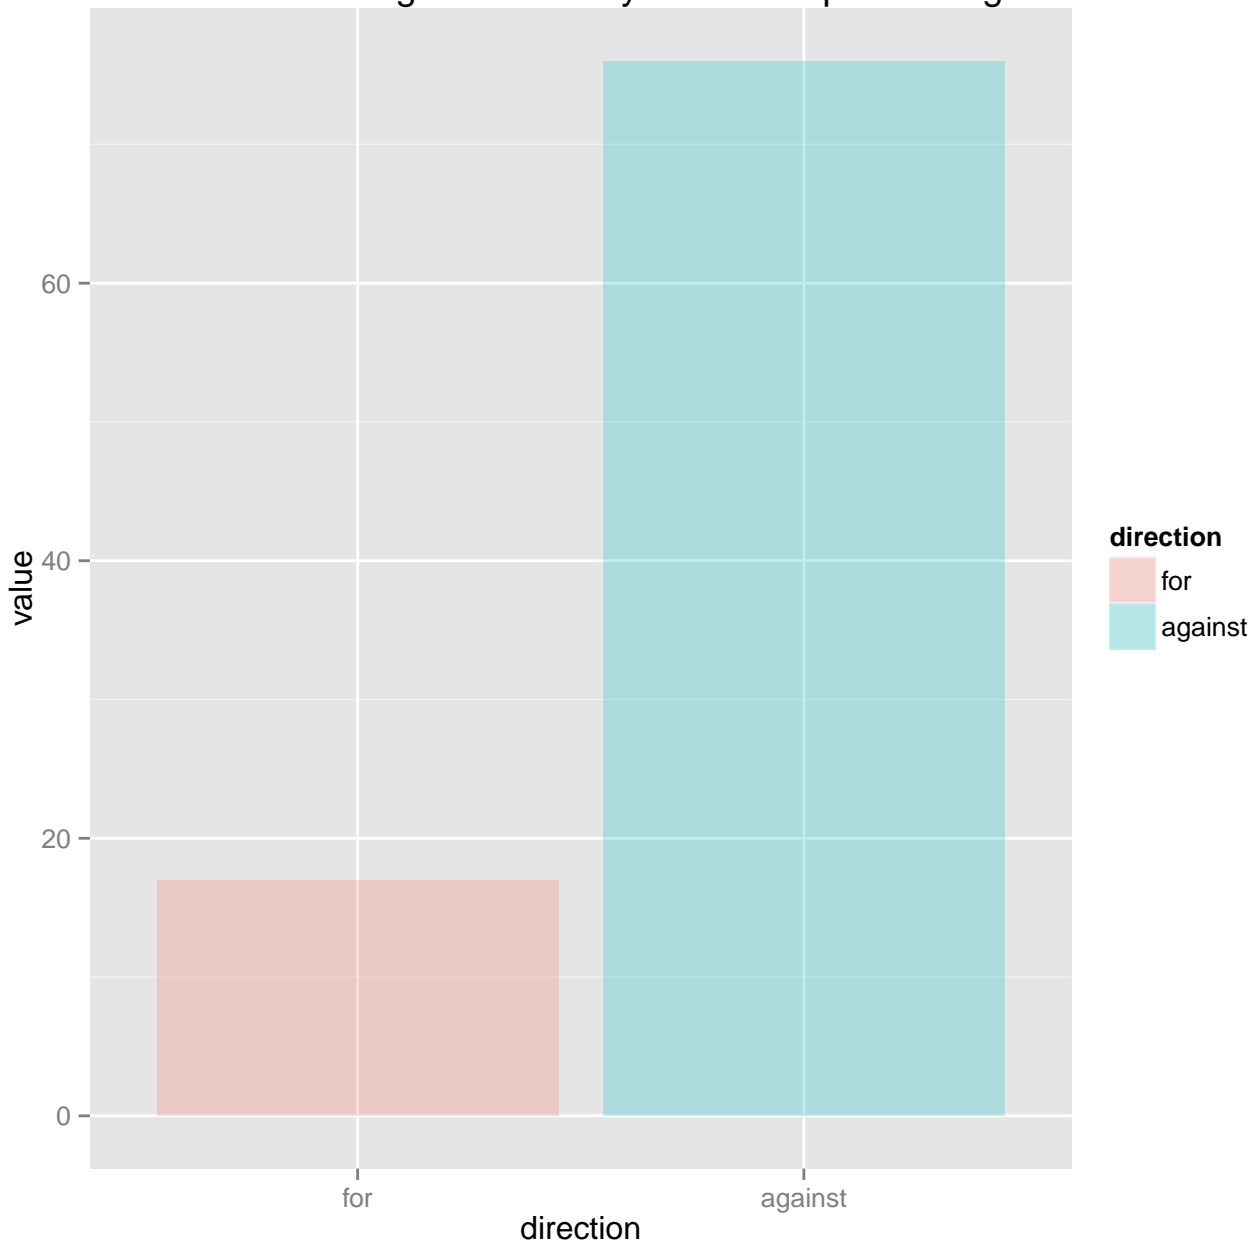

# Evidence for/against left toe response execution

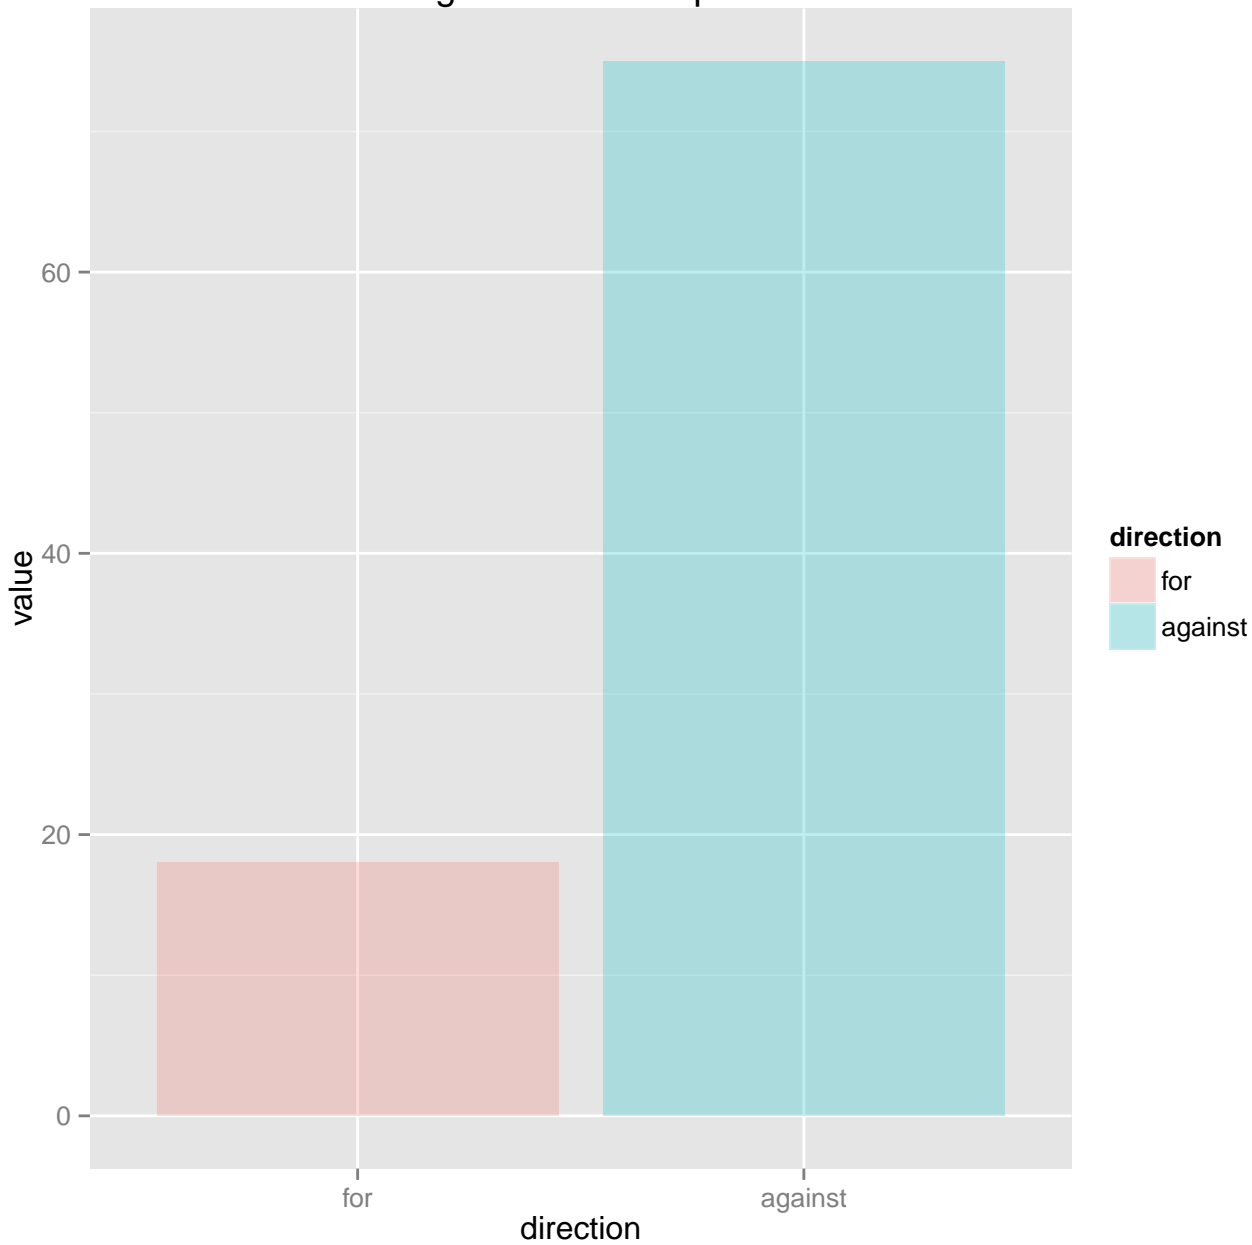

# Evidence for/against Perception

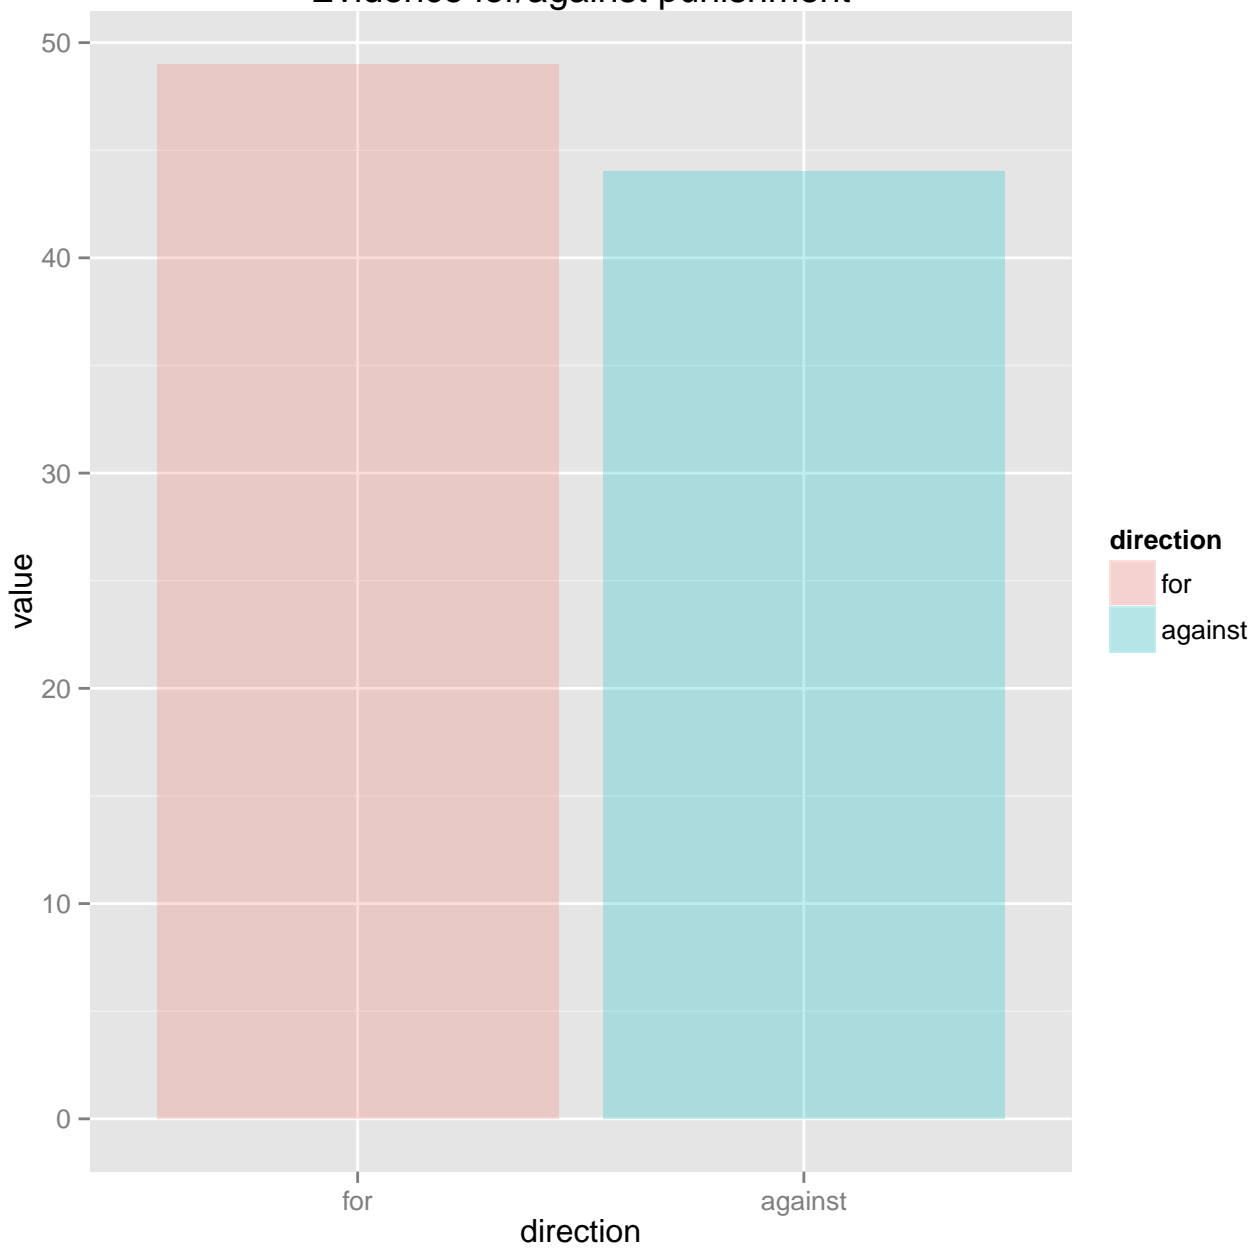

# Evidence for/against auditory arithmetic processing

# Evidence for/against vocal response execution

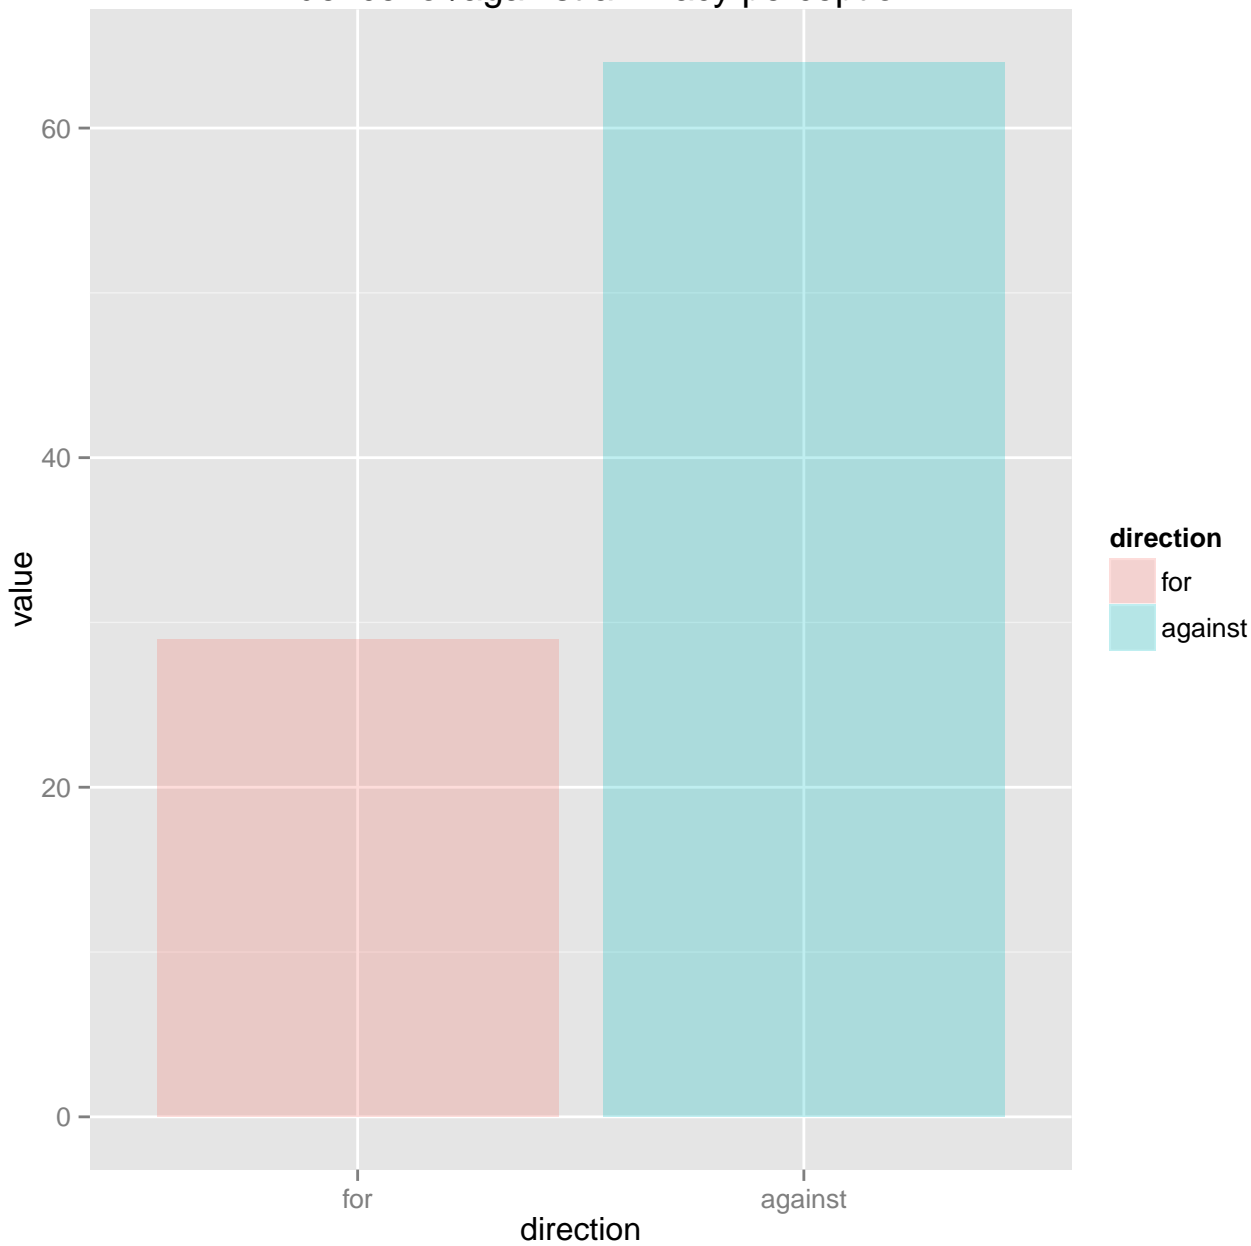

# Evidence for/against punishment

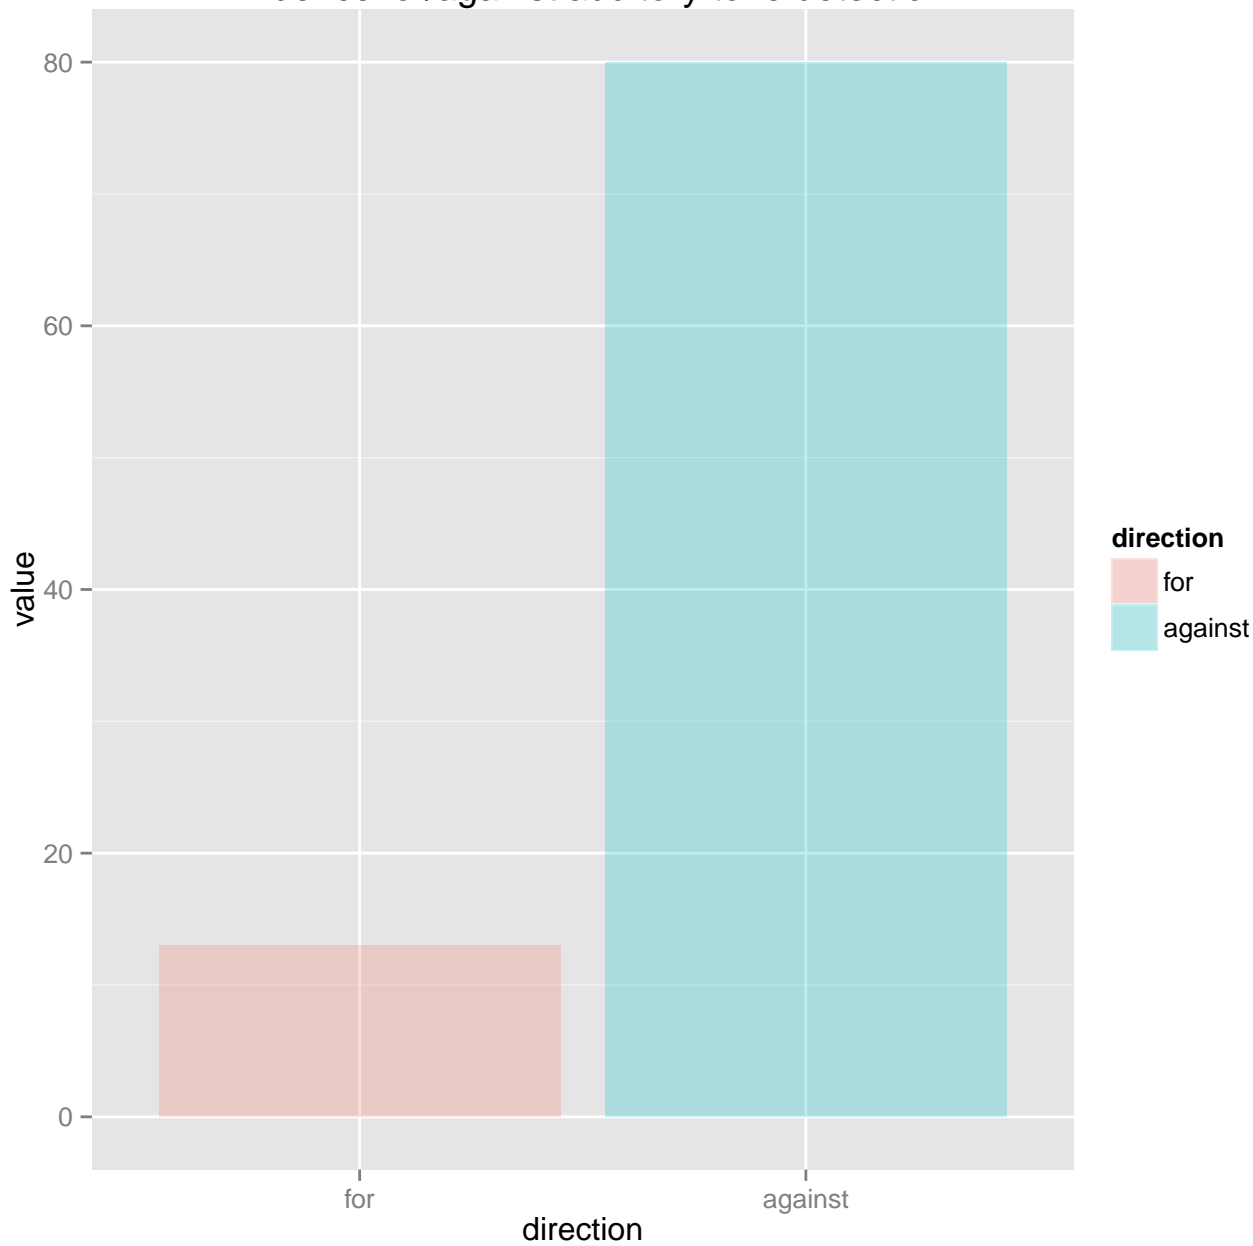

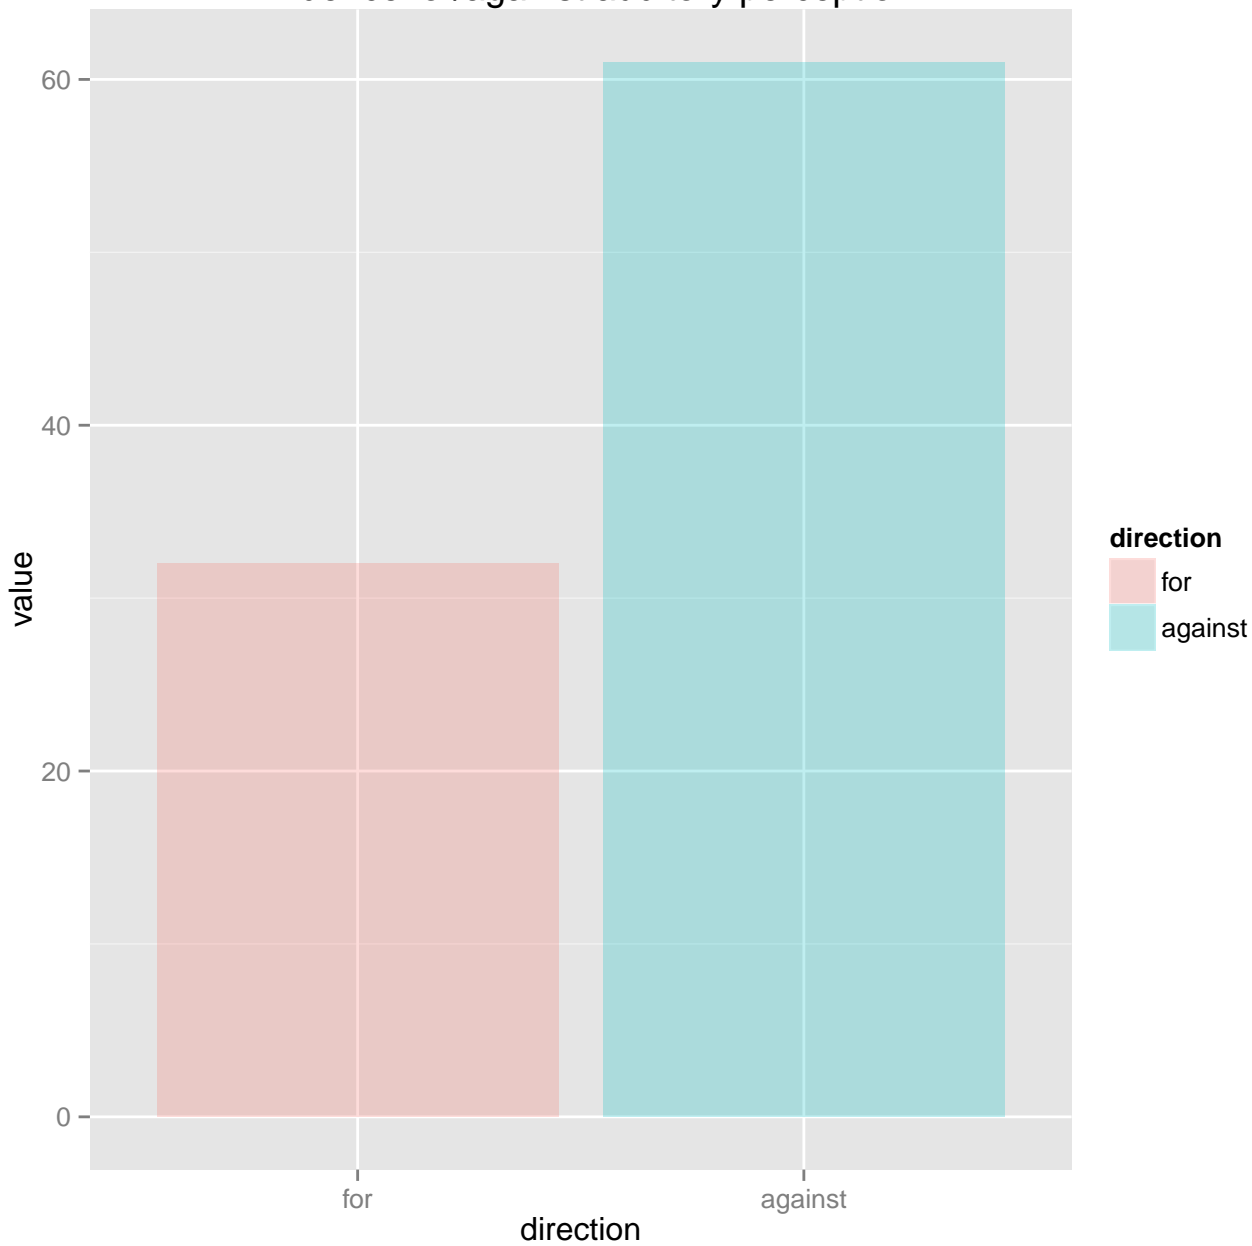

# Evidence for/against animacy perception

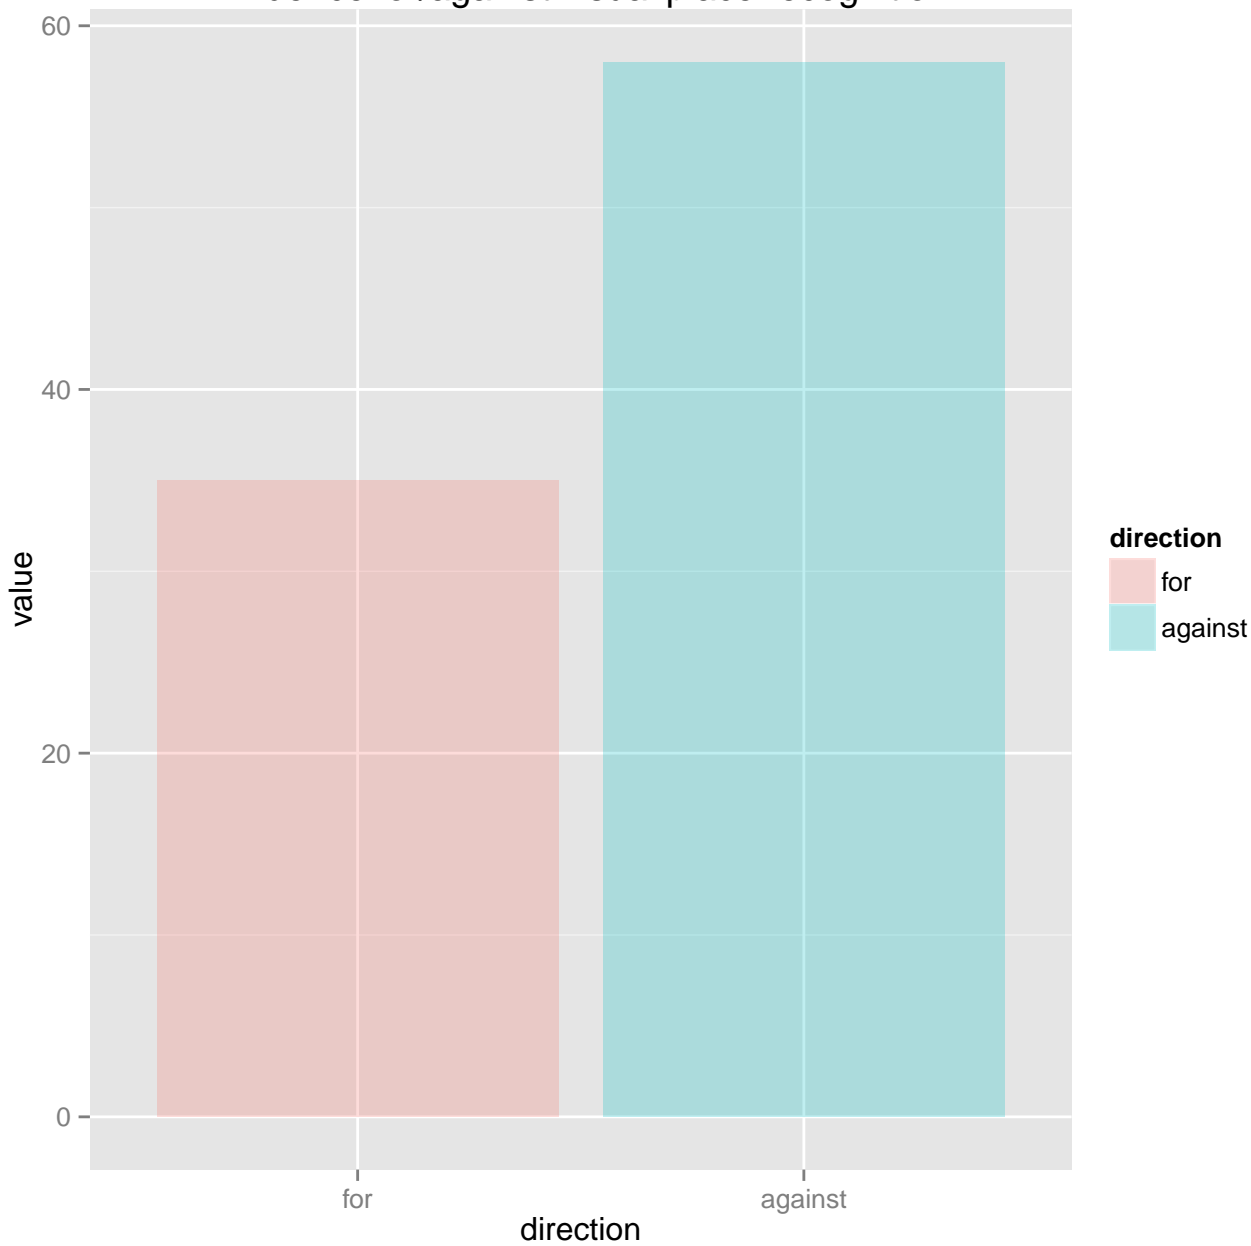

# Evidence for/against auditory tone detection

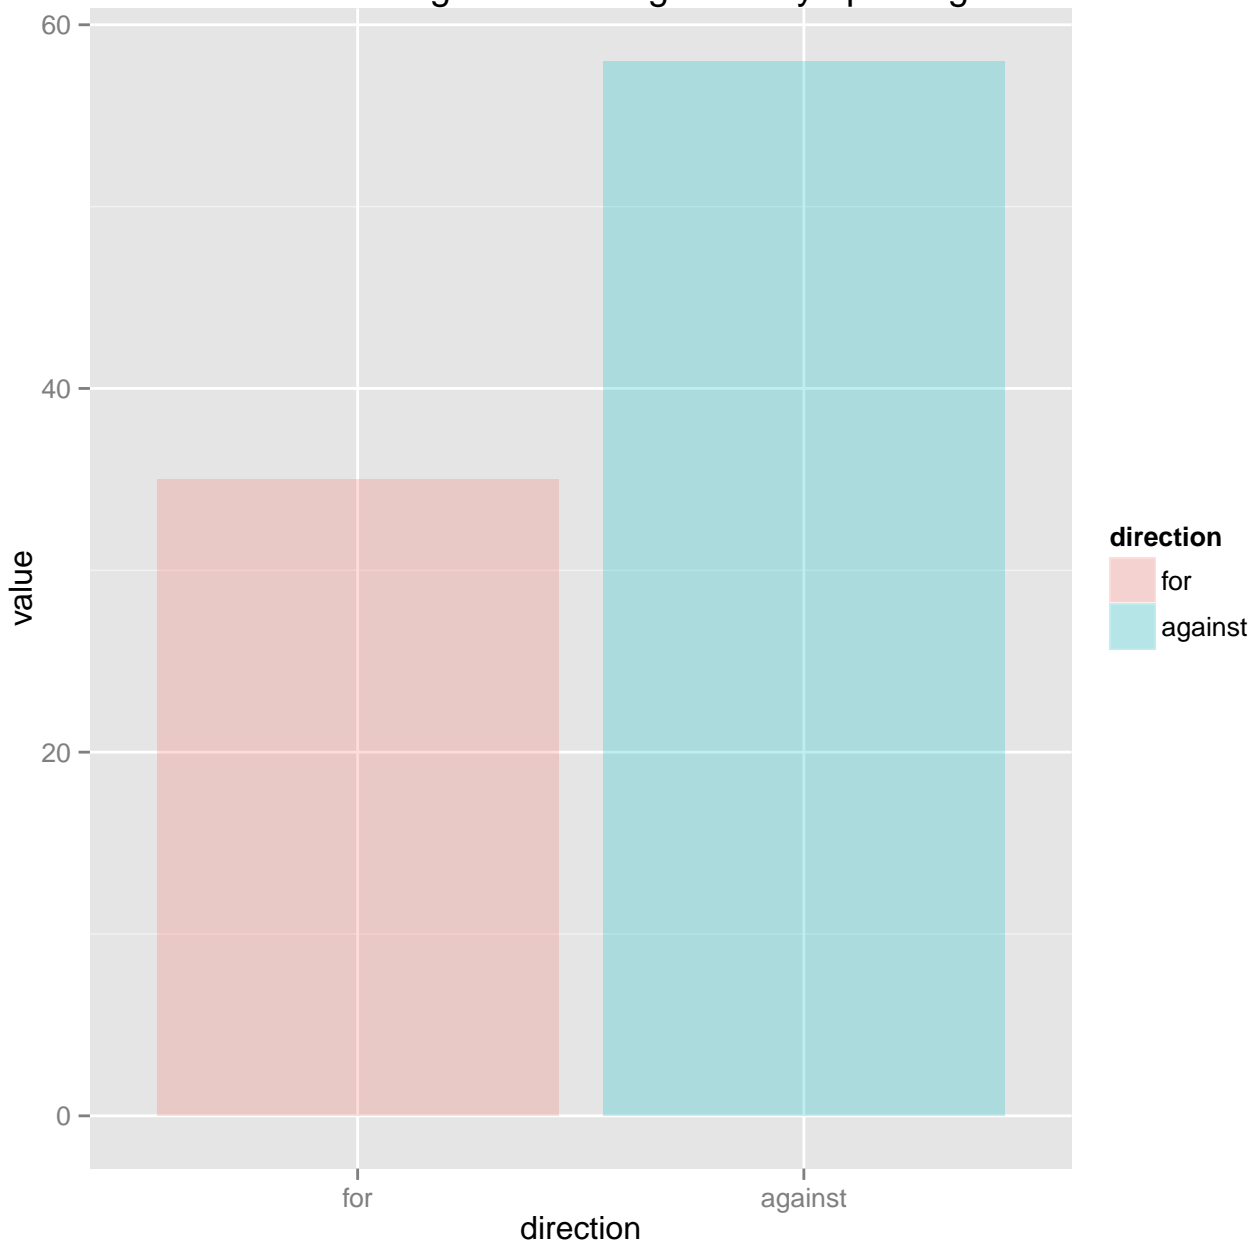

# Evidence for/against auditory perception

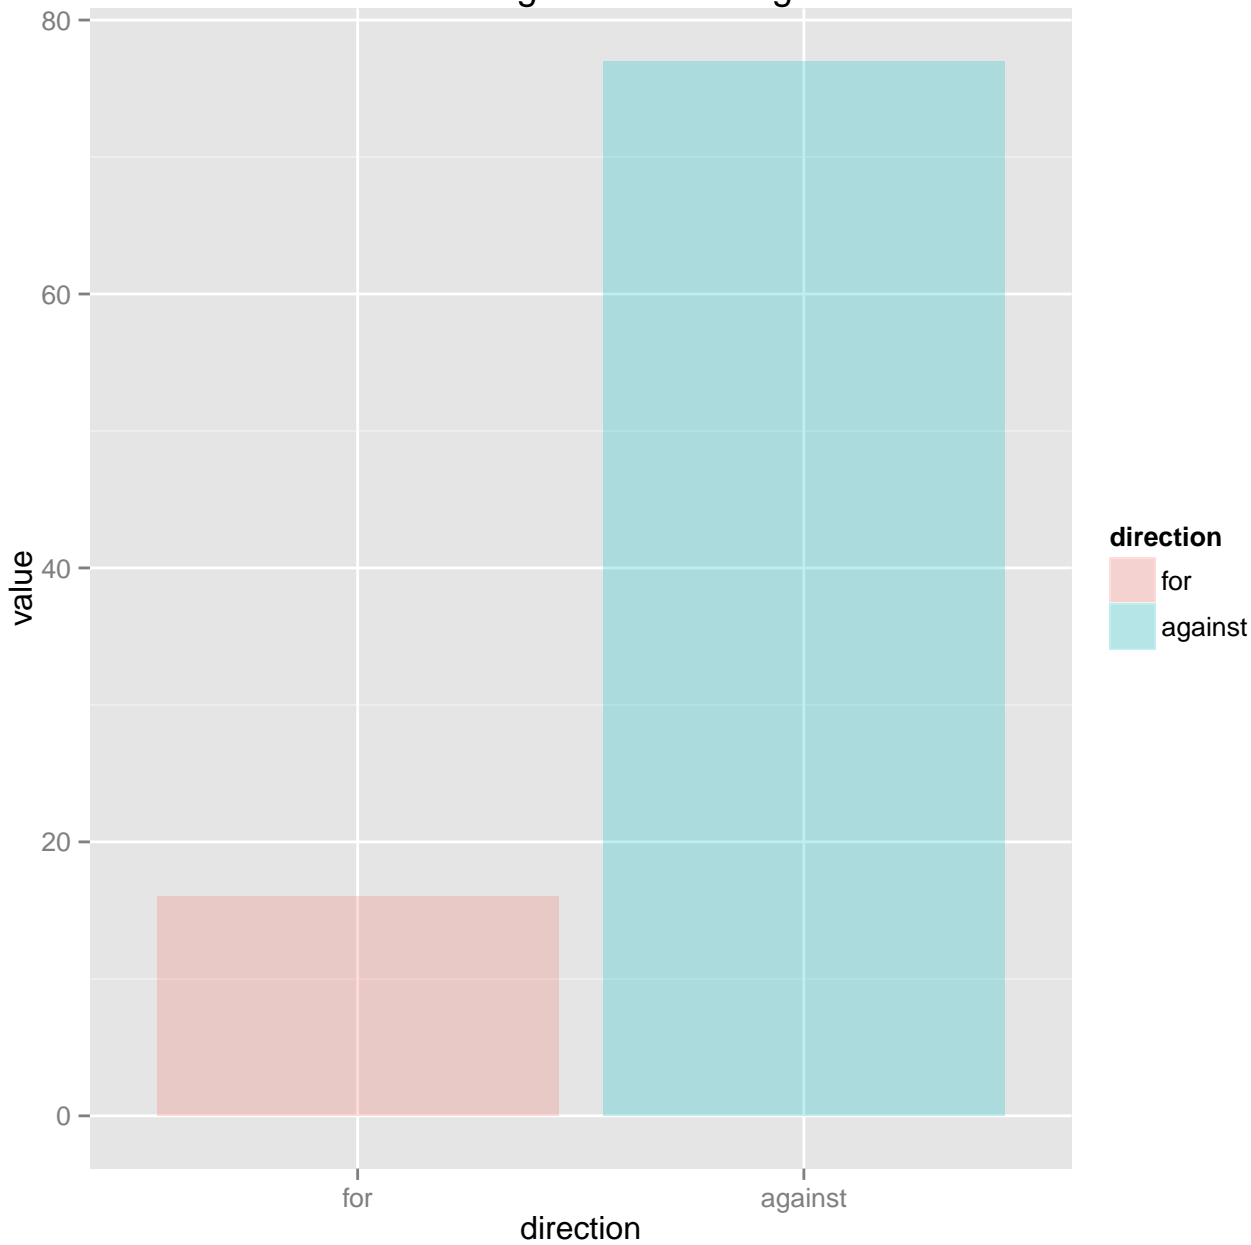

# Evidence for/against visual place recognition

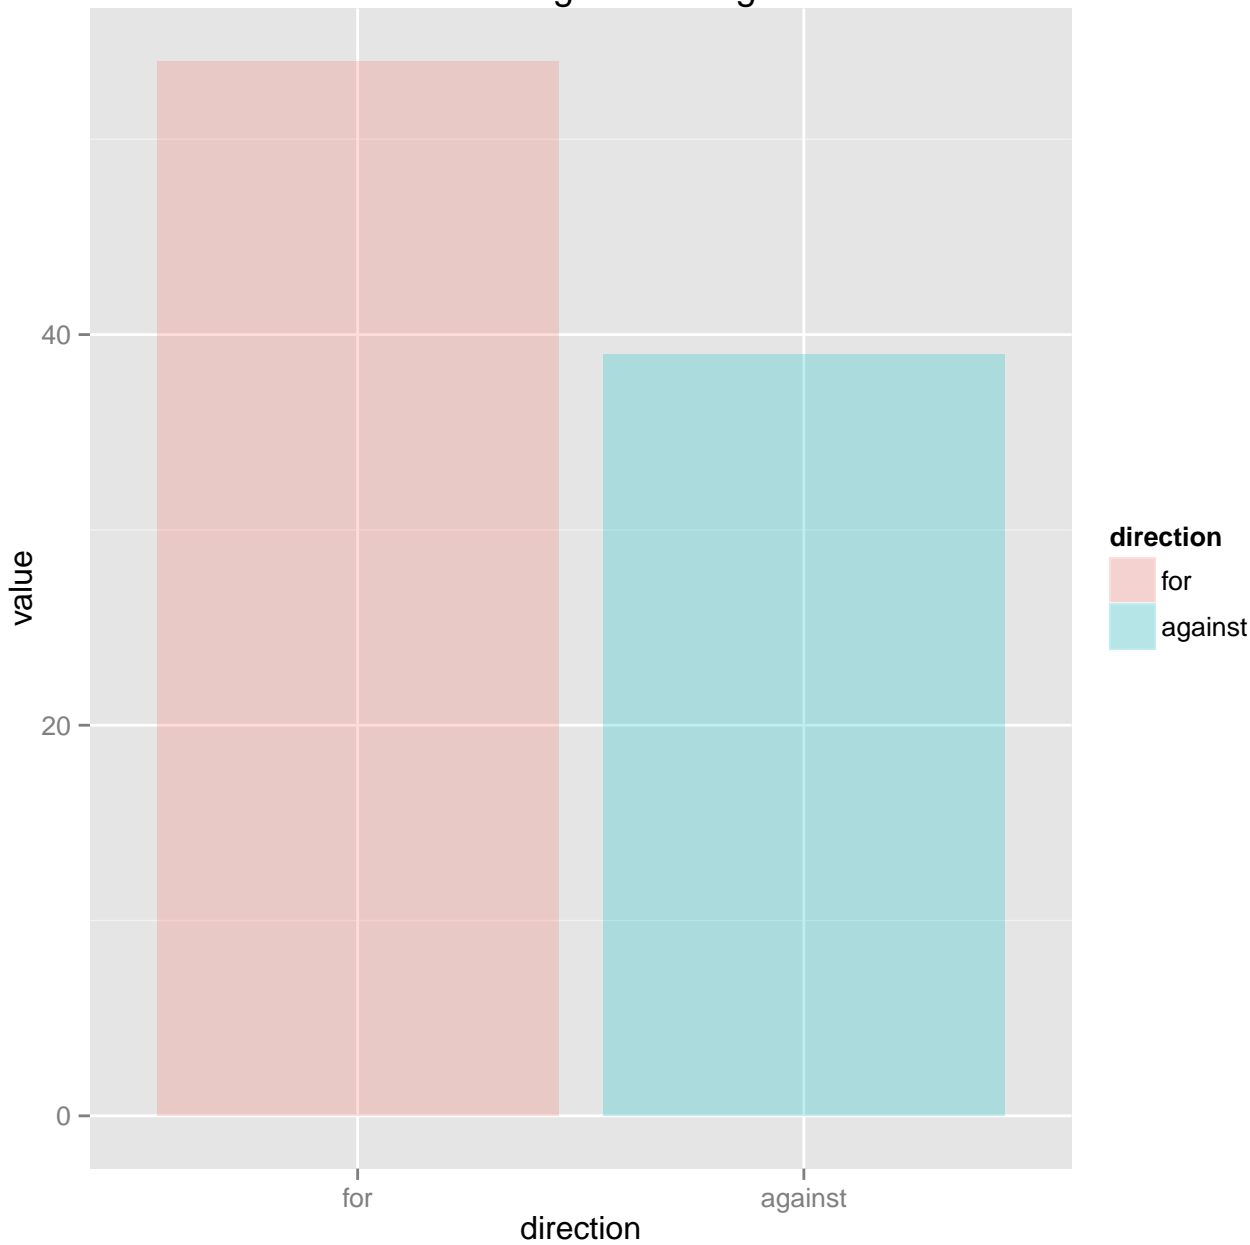

# Evidence for/against working memory updating

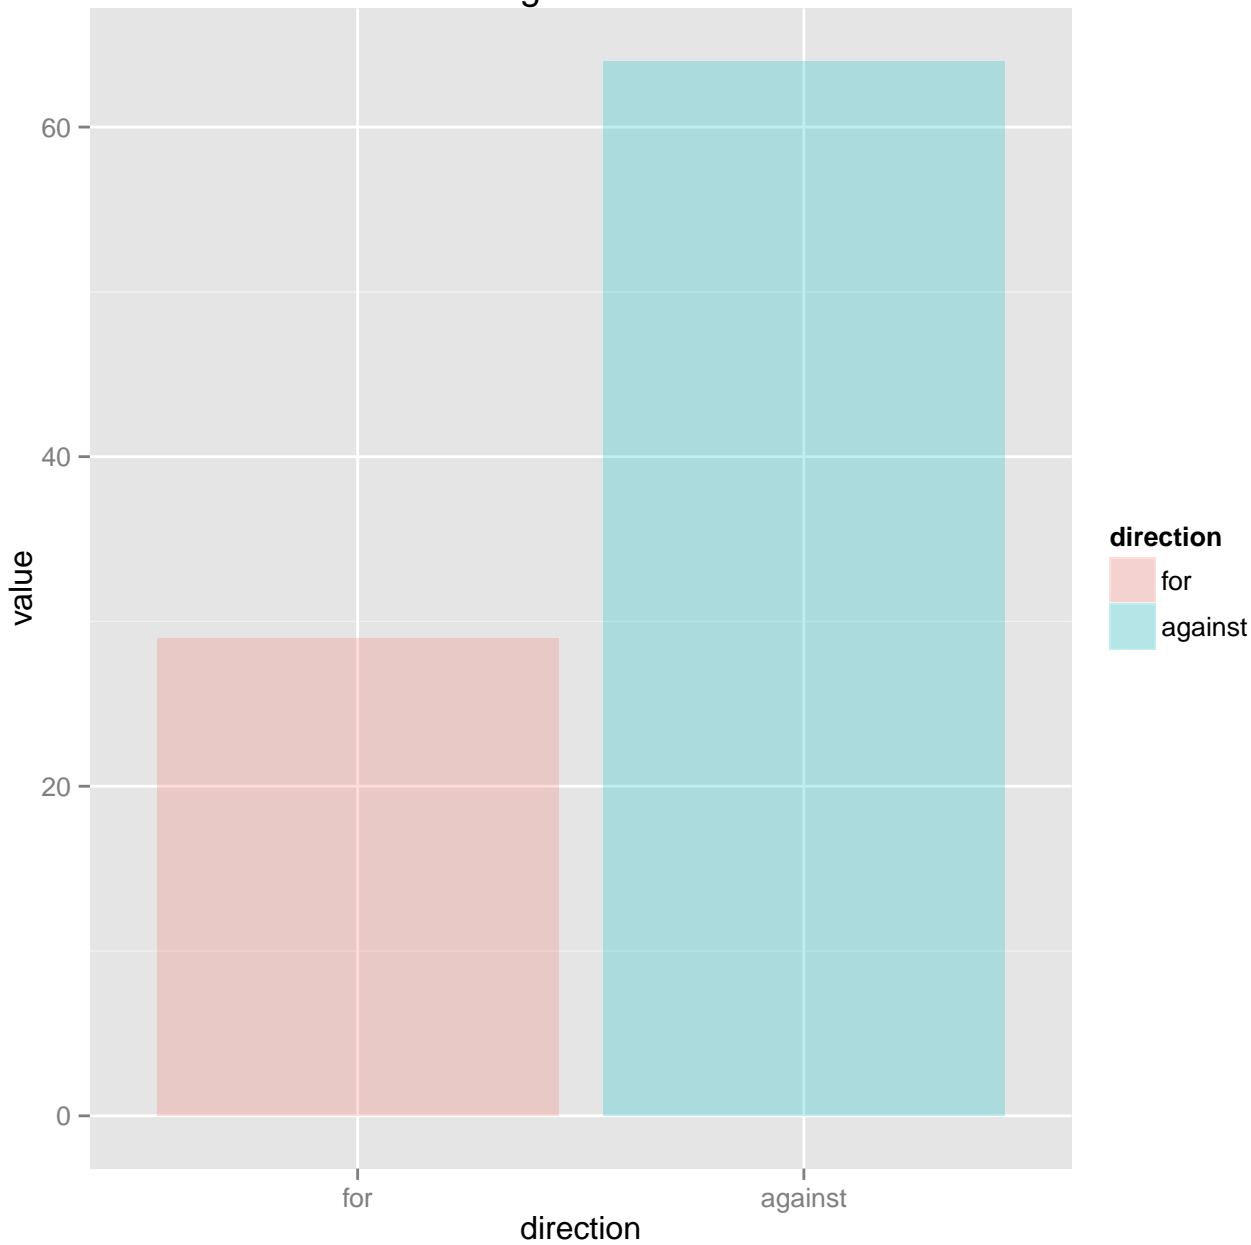

# Evidence for/against social cognition

# Evidence for/against recognition

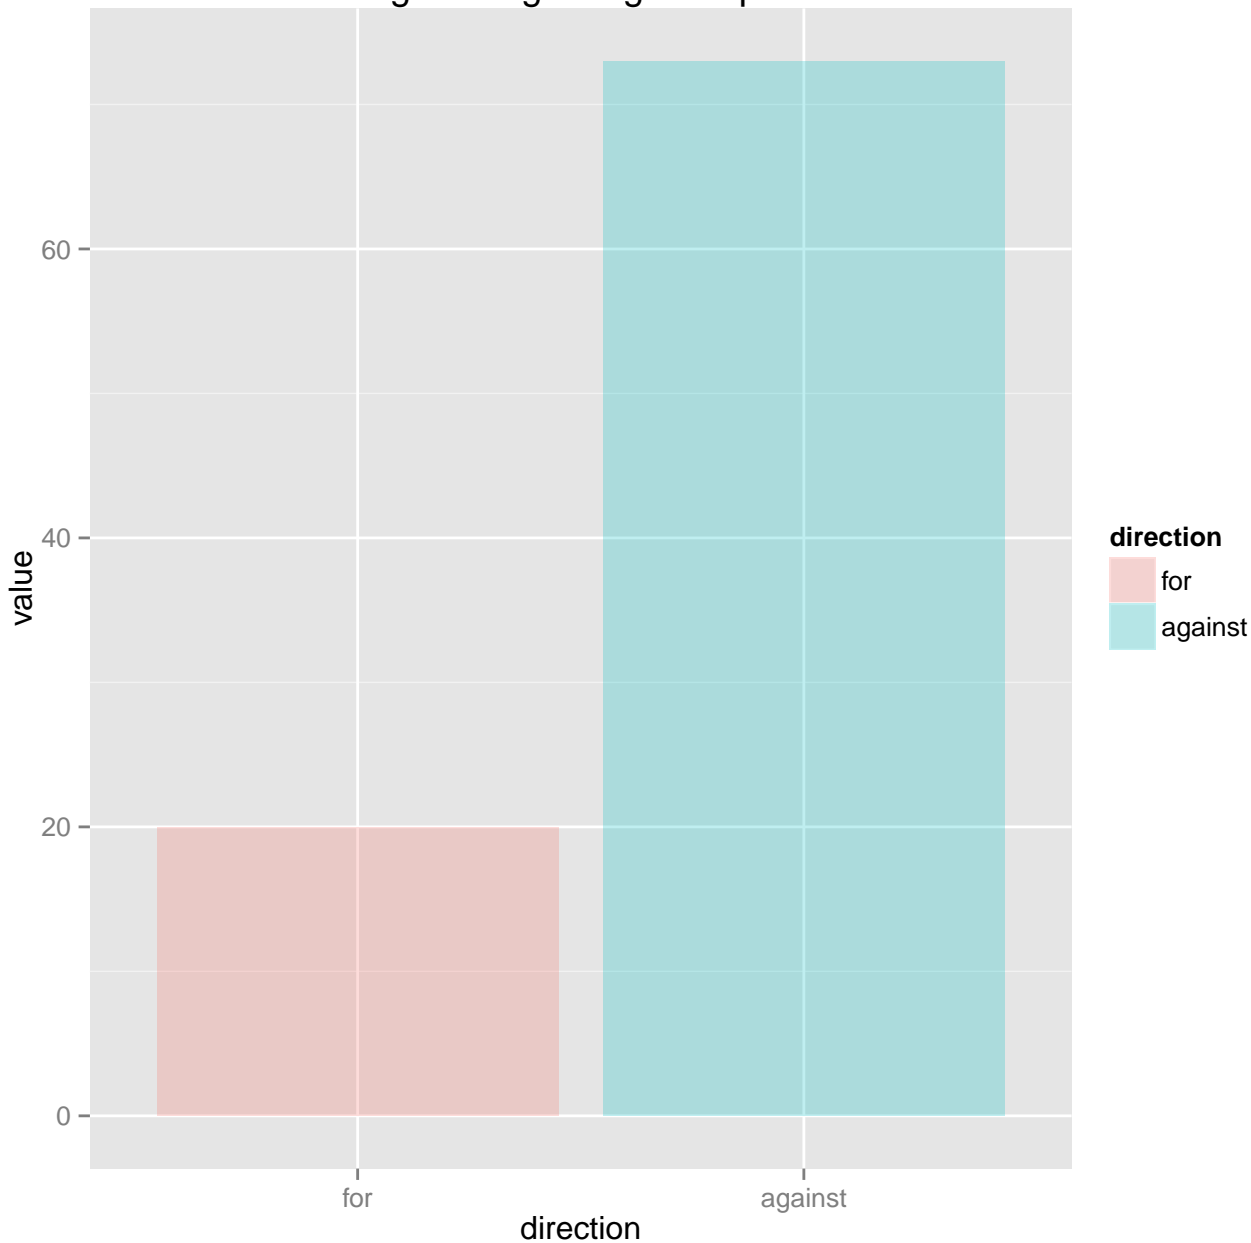

# Evidence for/against visual attention

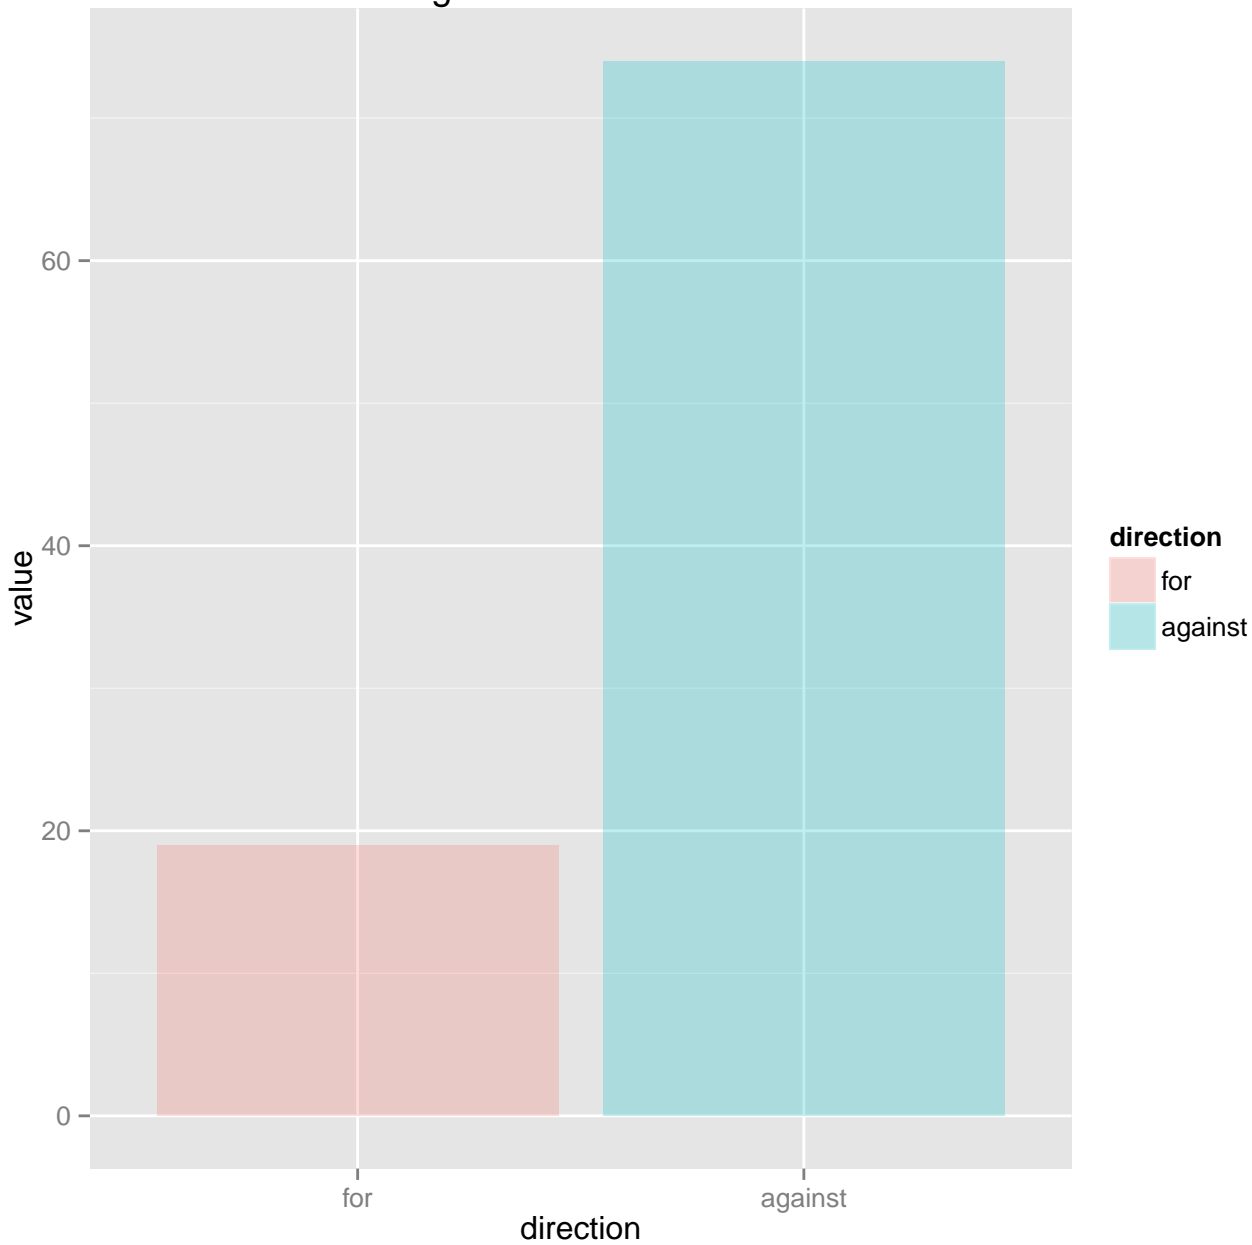

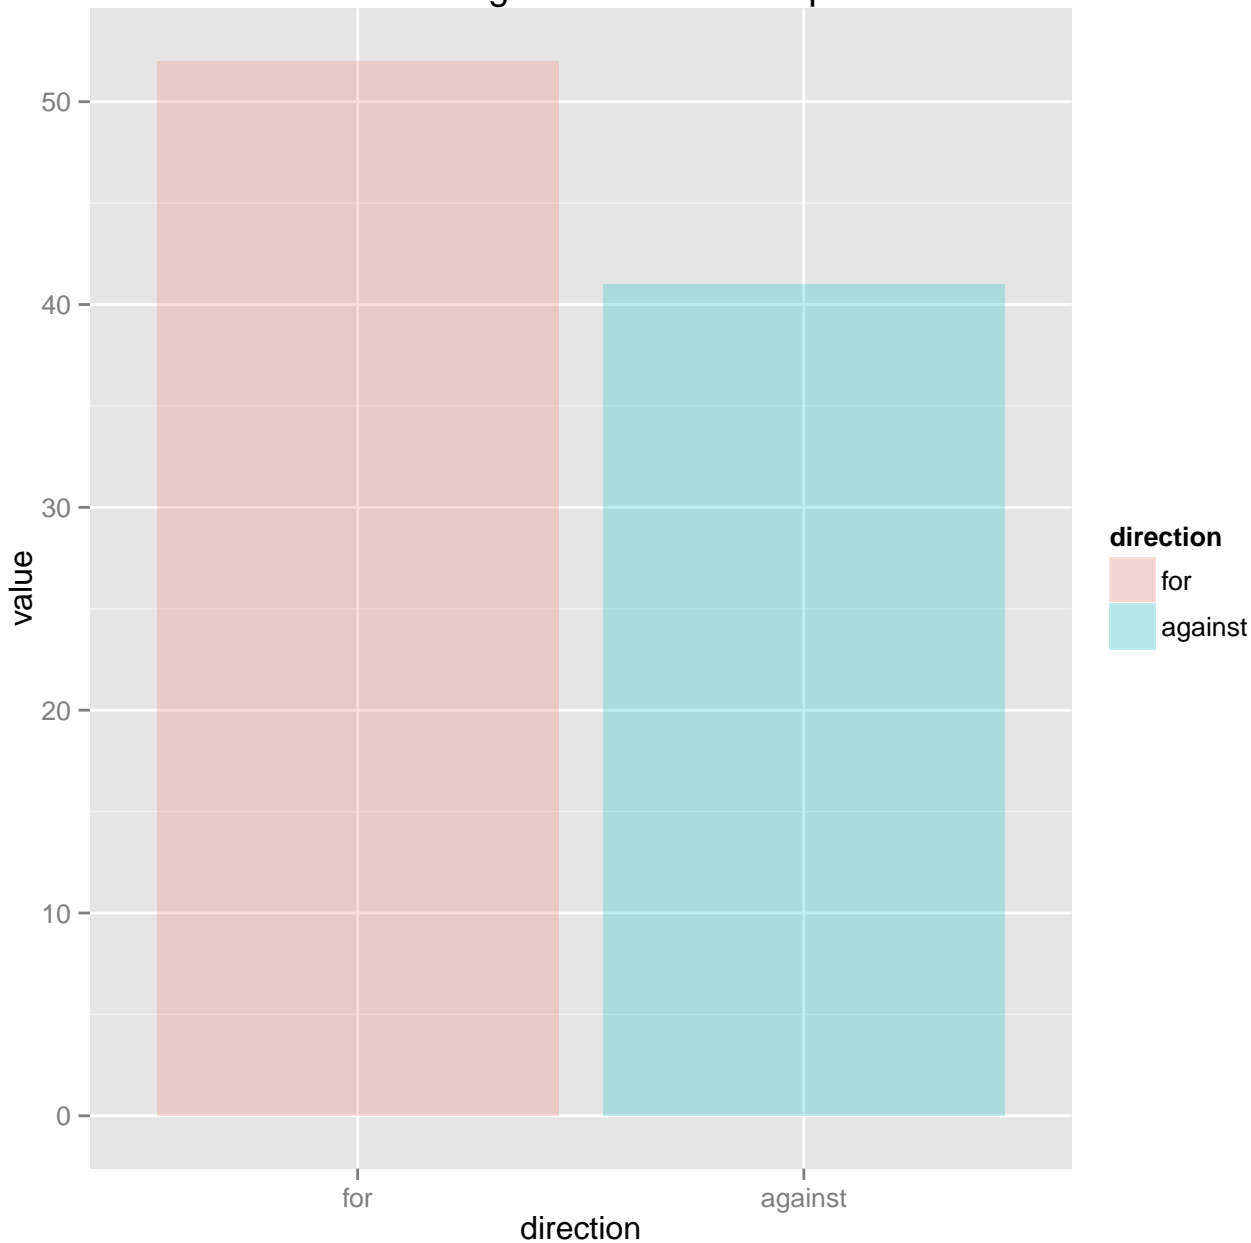

# Evidence for/against right finger response execution

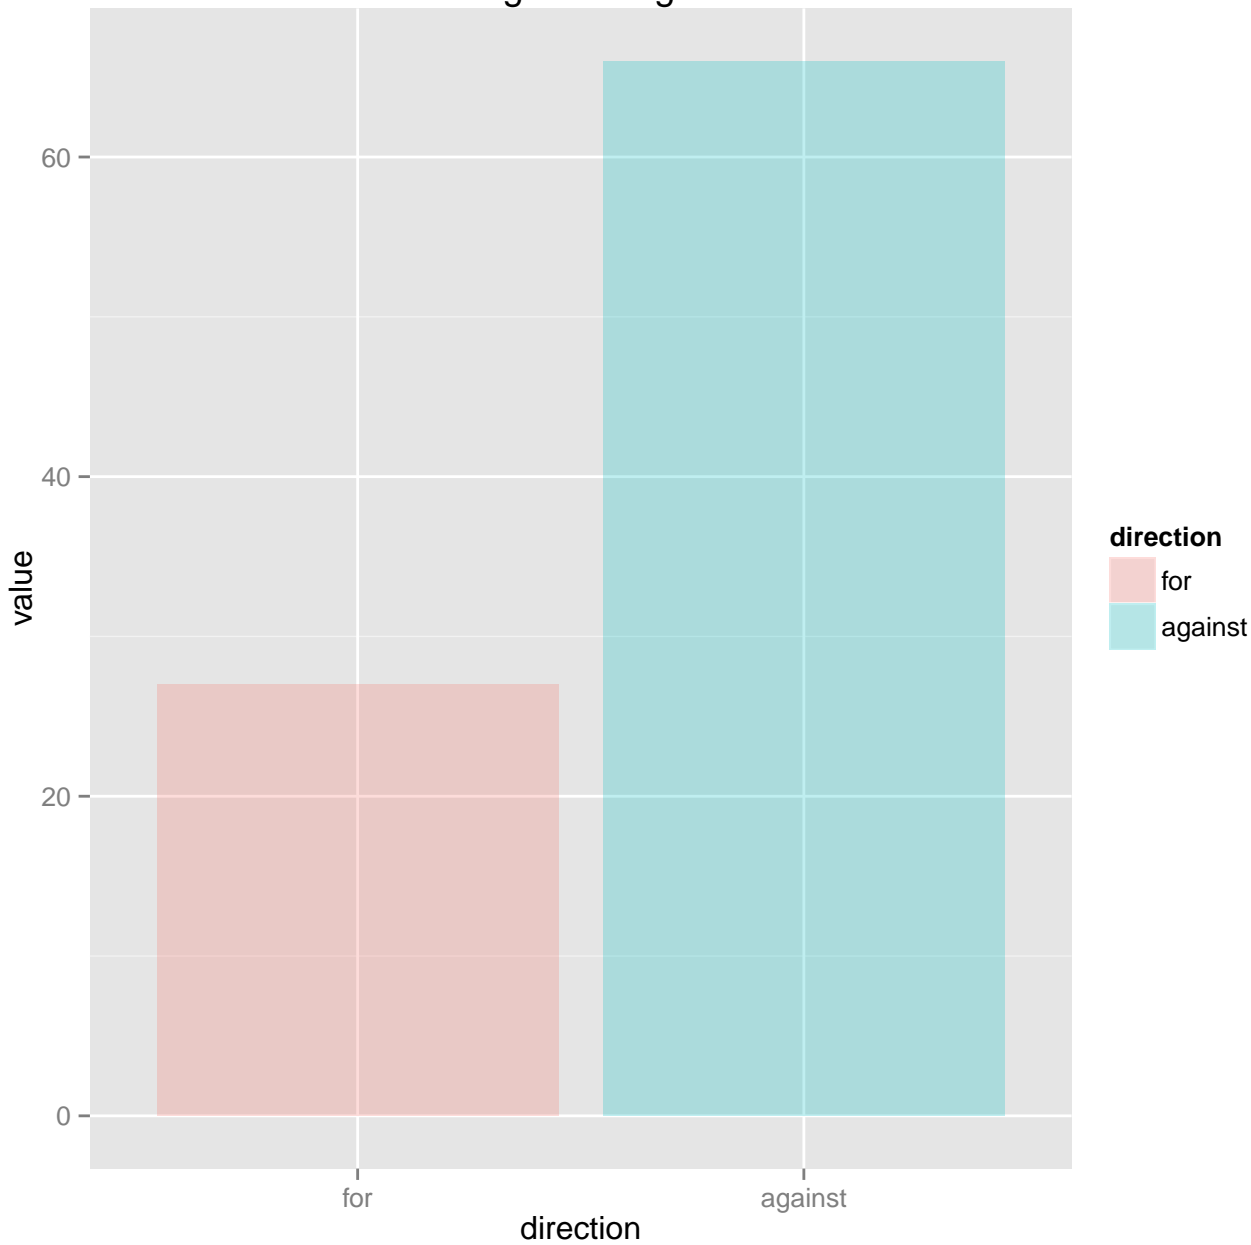

# Evidence for/against visual color discrimination

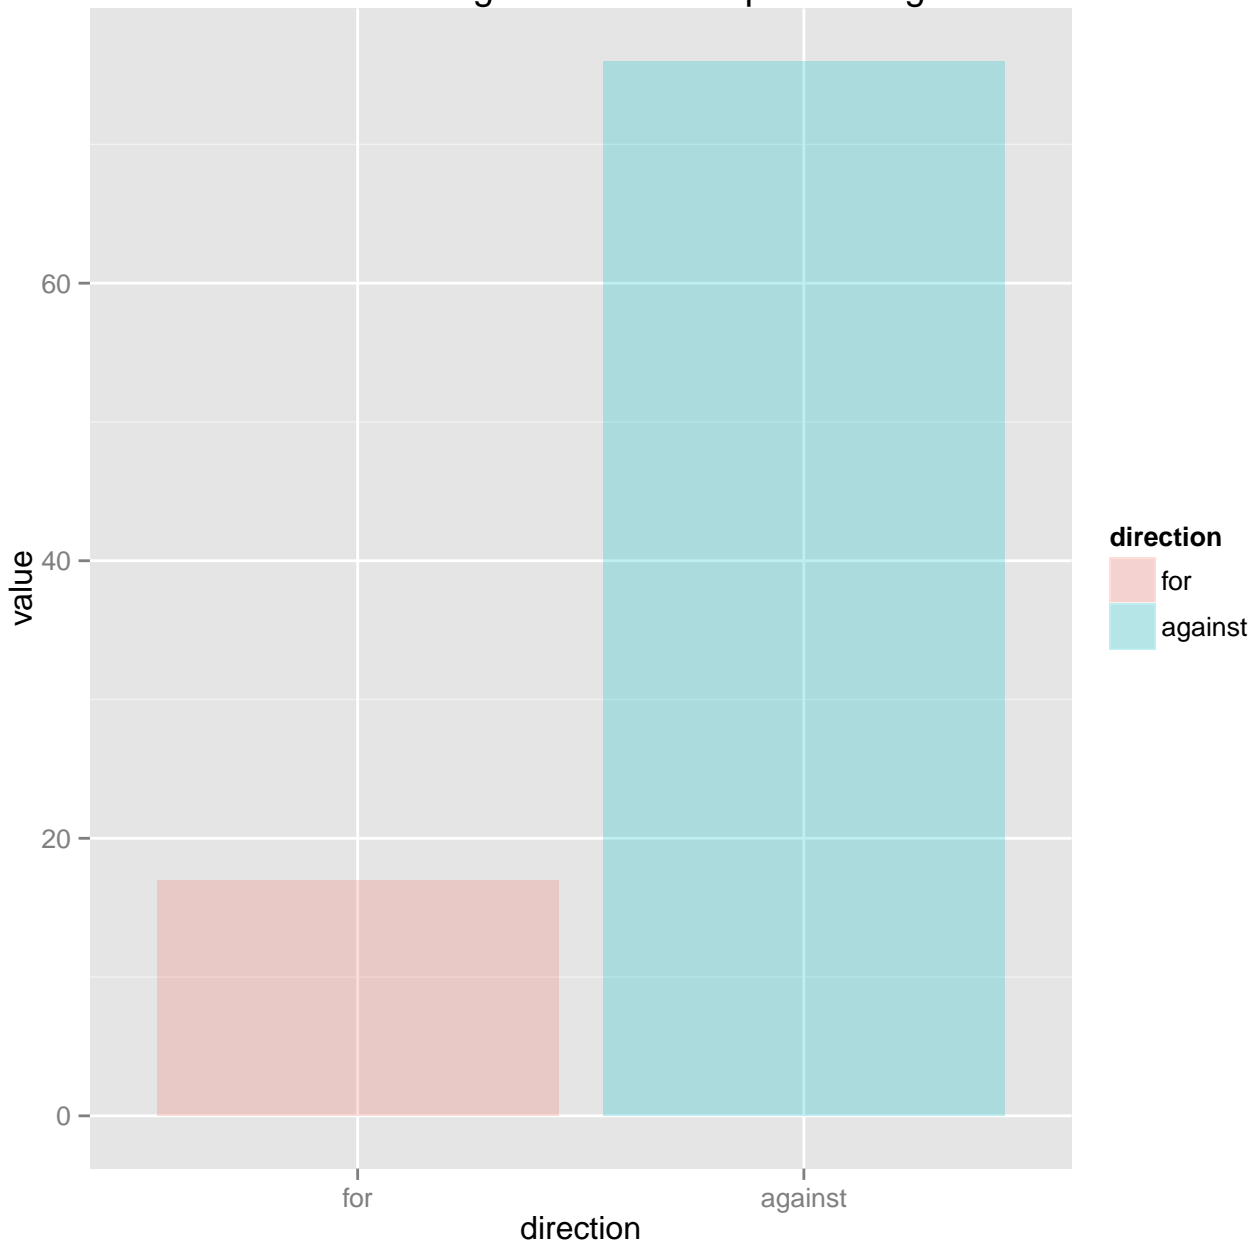

# Evidence for/against reward anticipation

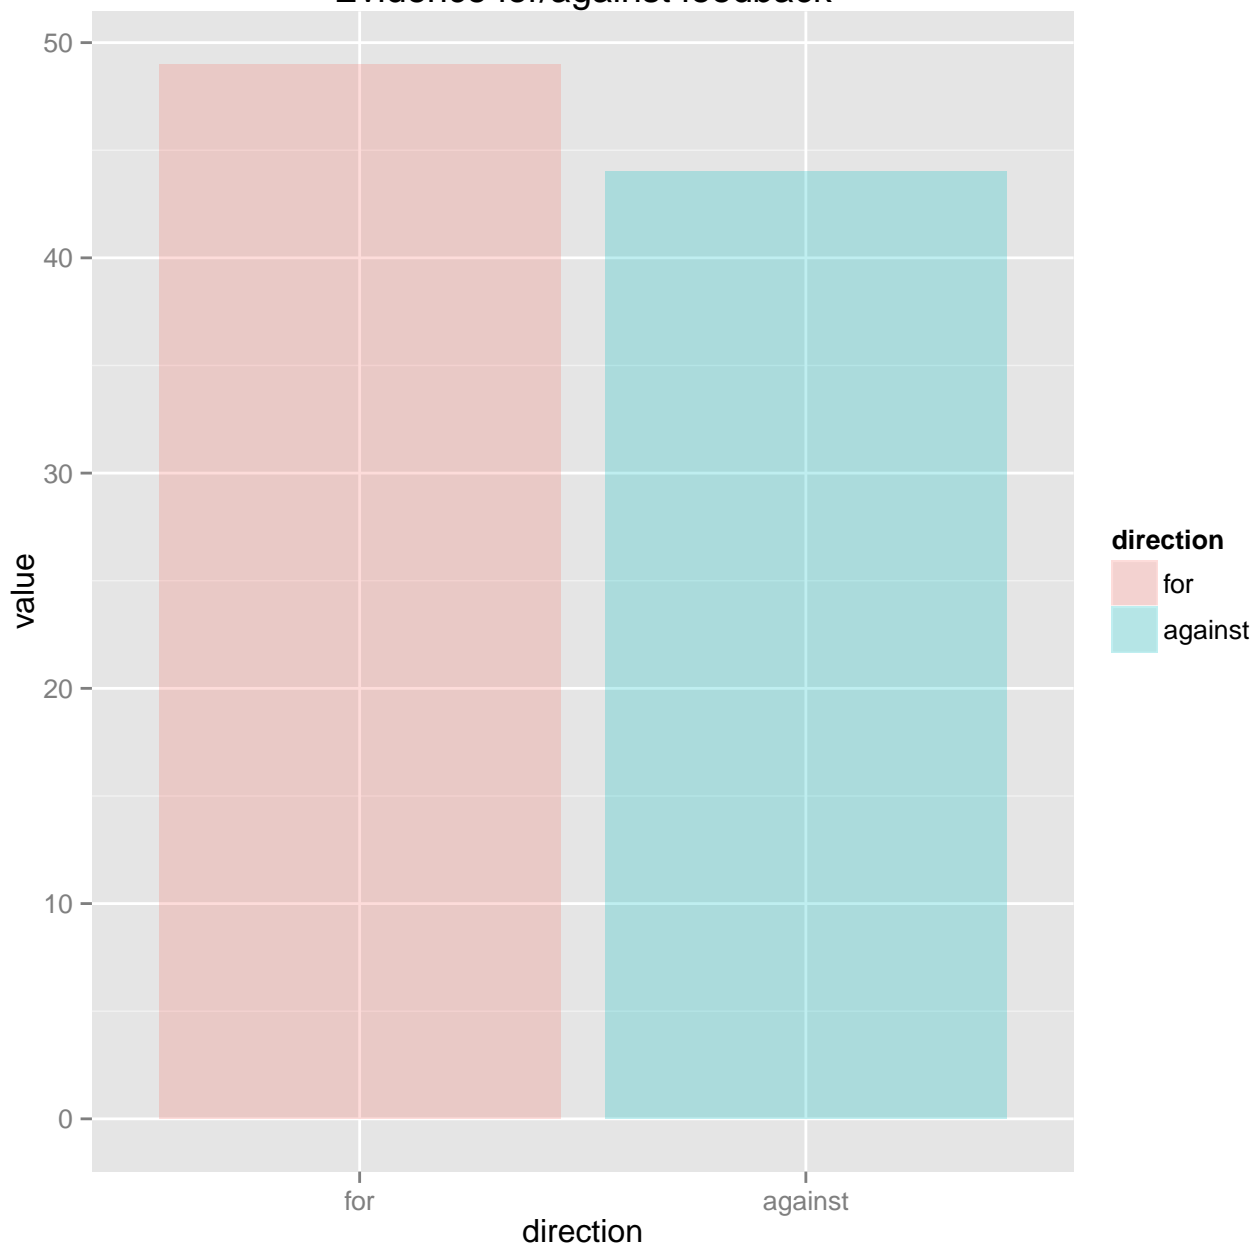

# Evidence for/against negative emotion

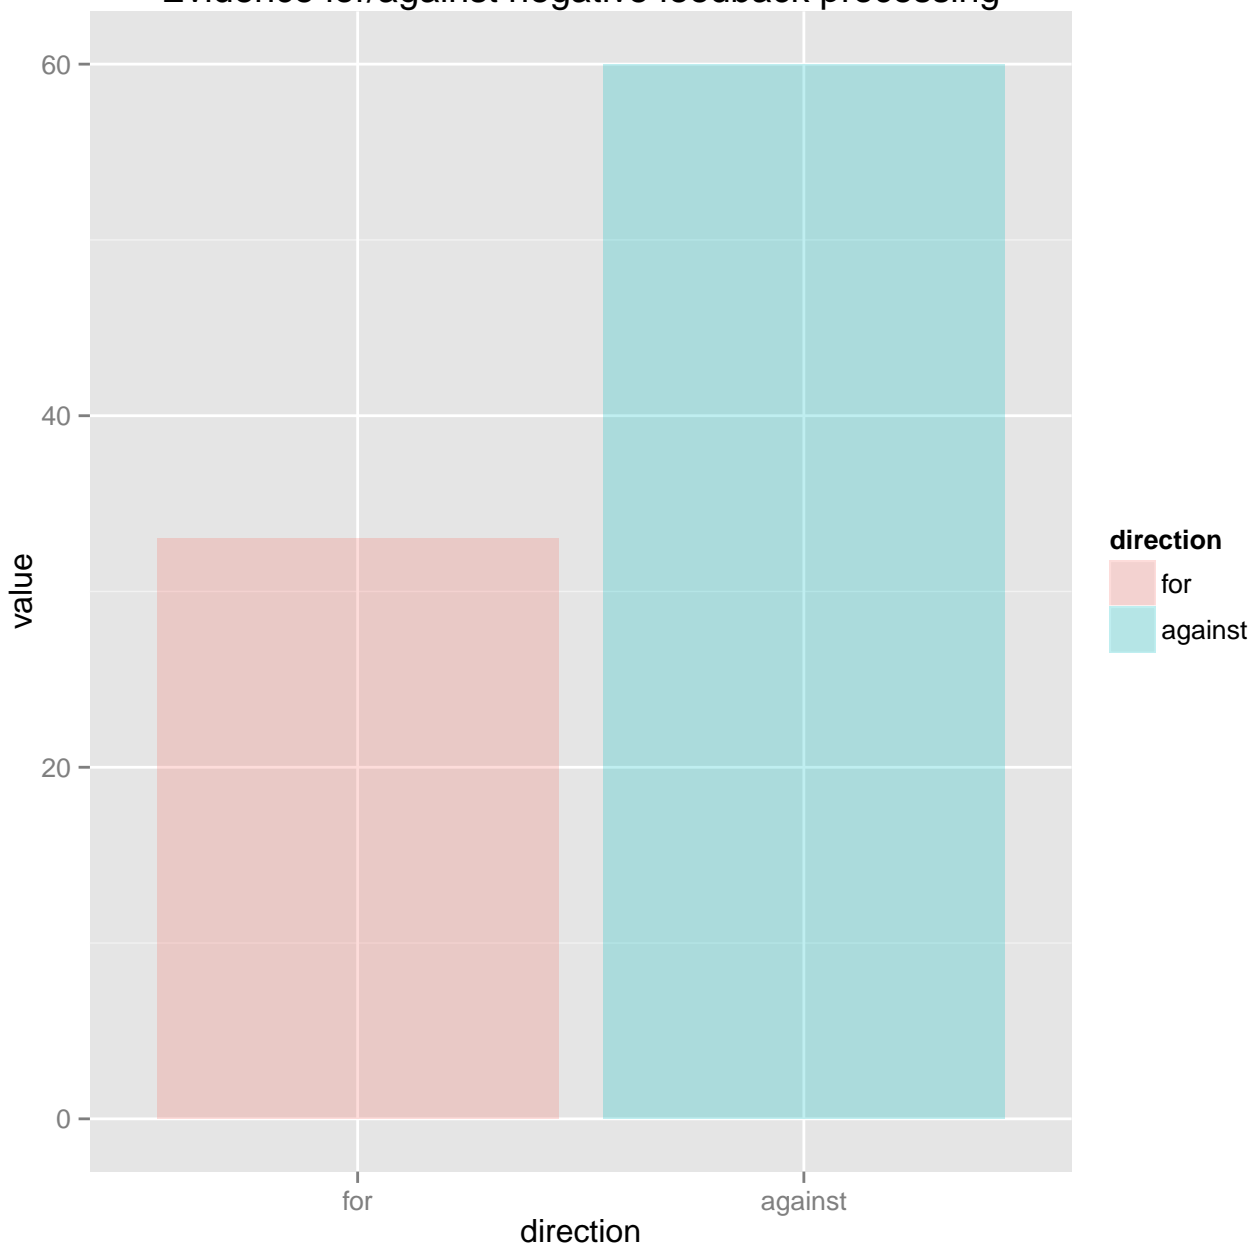

# Evidence for/against sentence processing

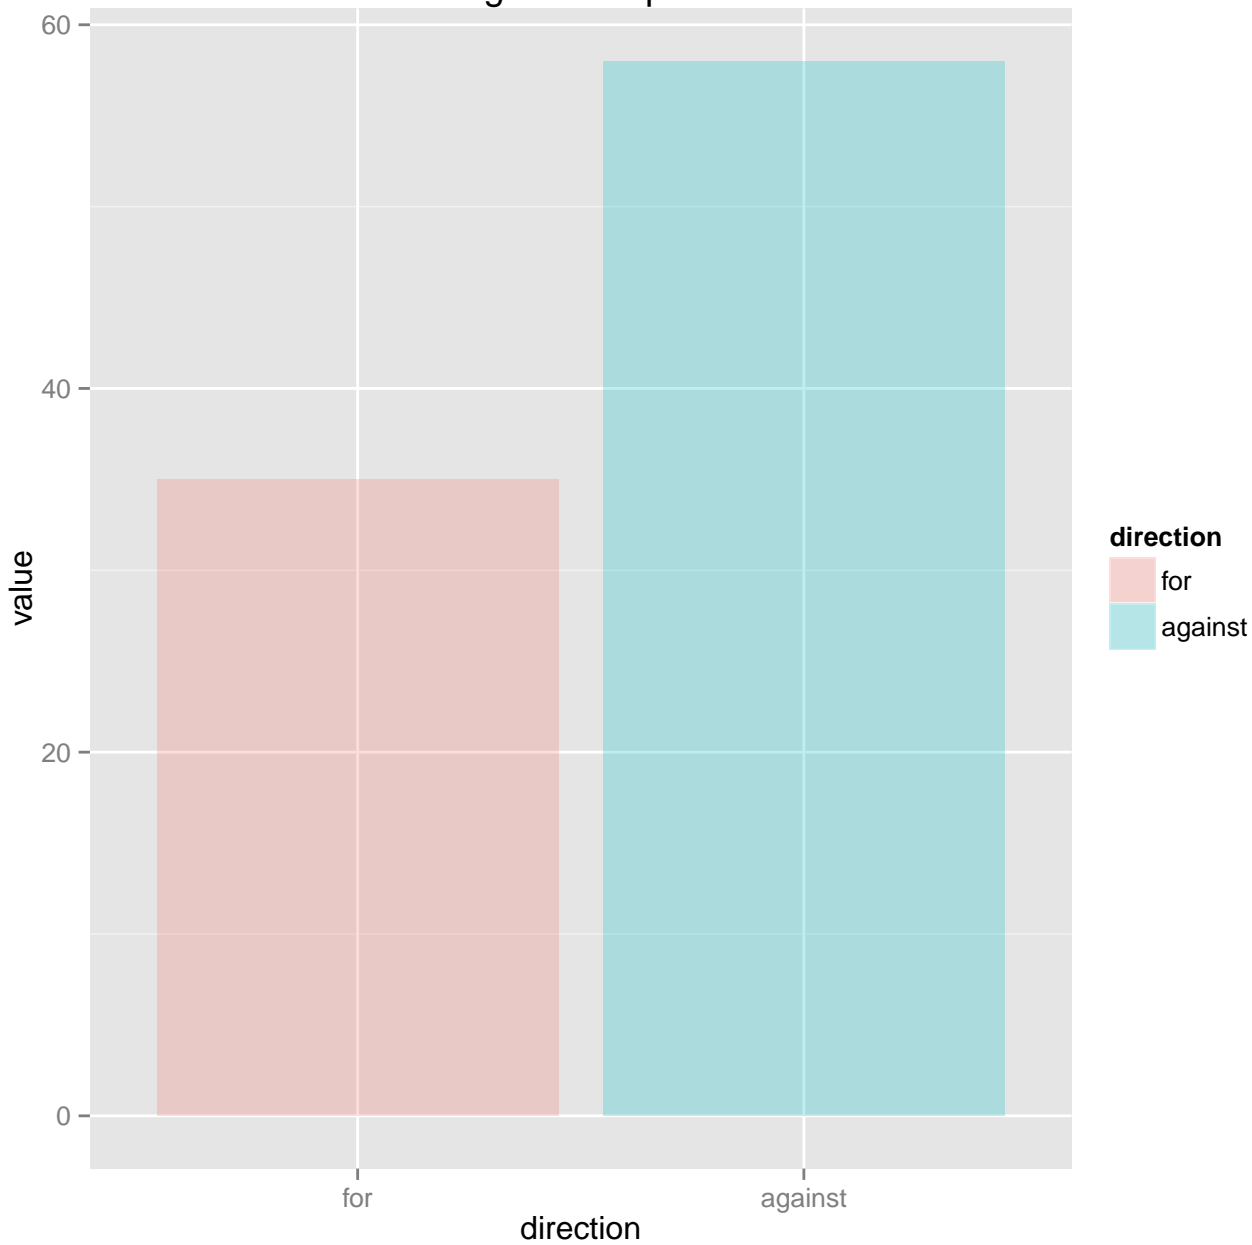

Evidence for/against feedback

# Evidence for/against negative feedback processing

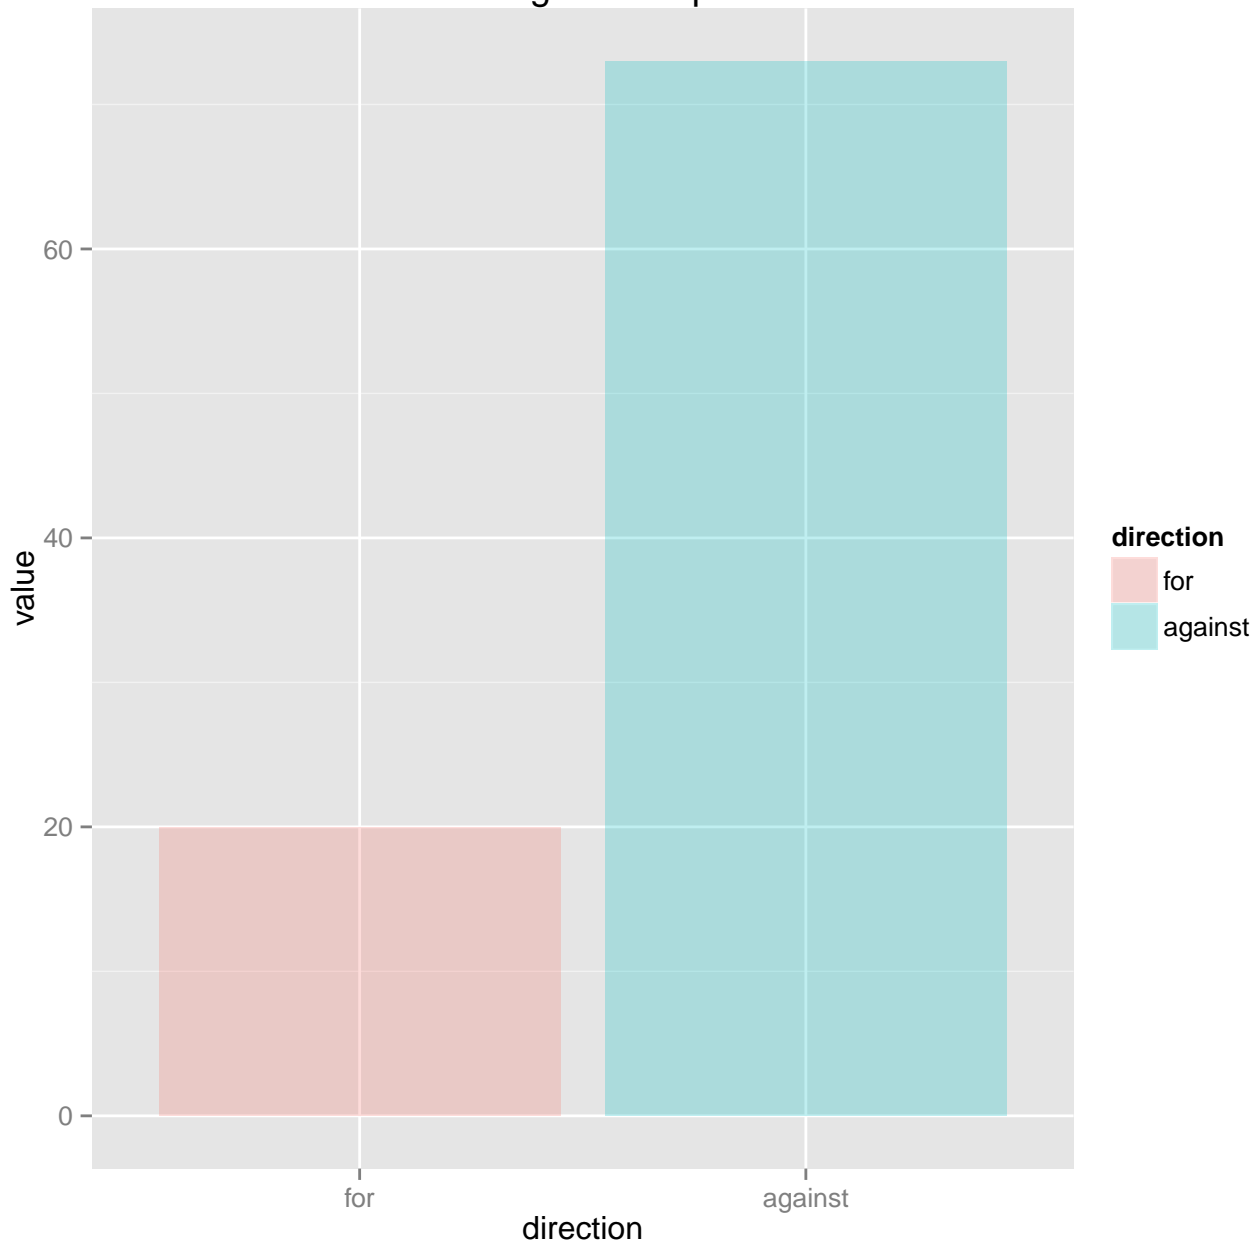

# Evidence for/against response execution

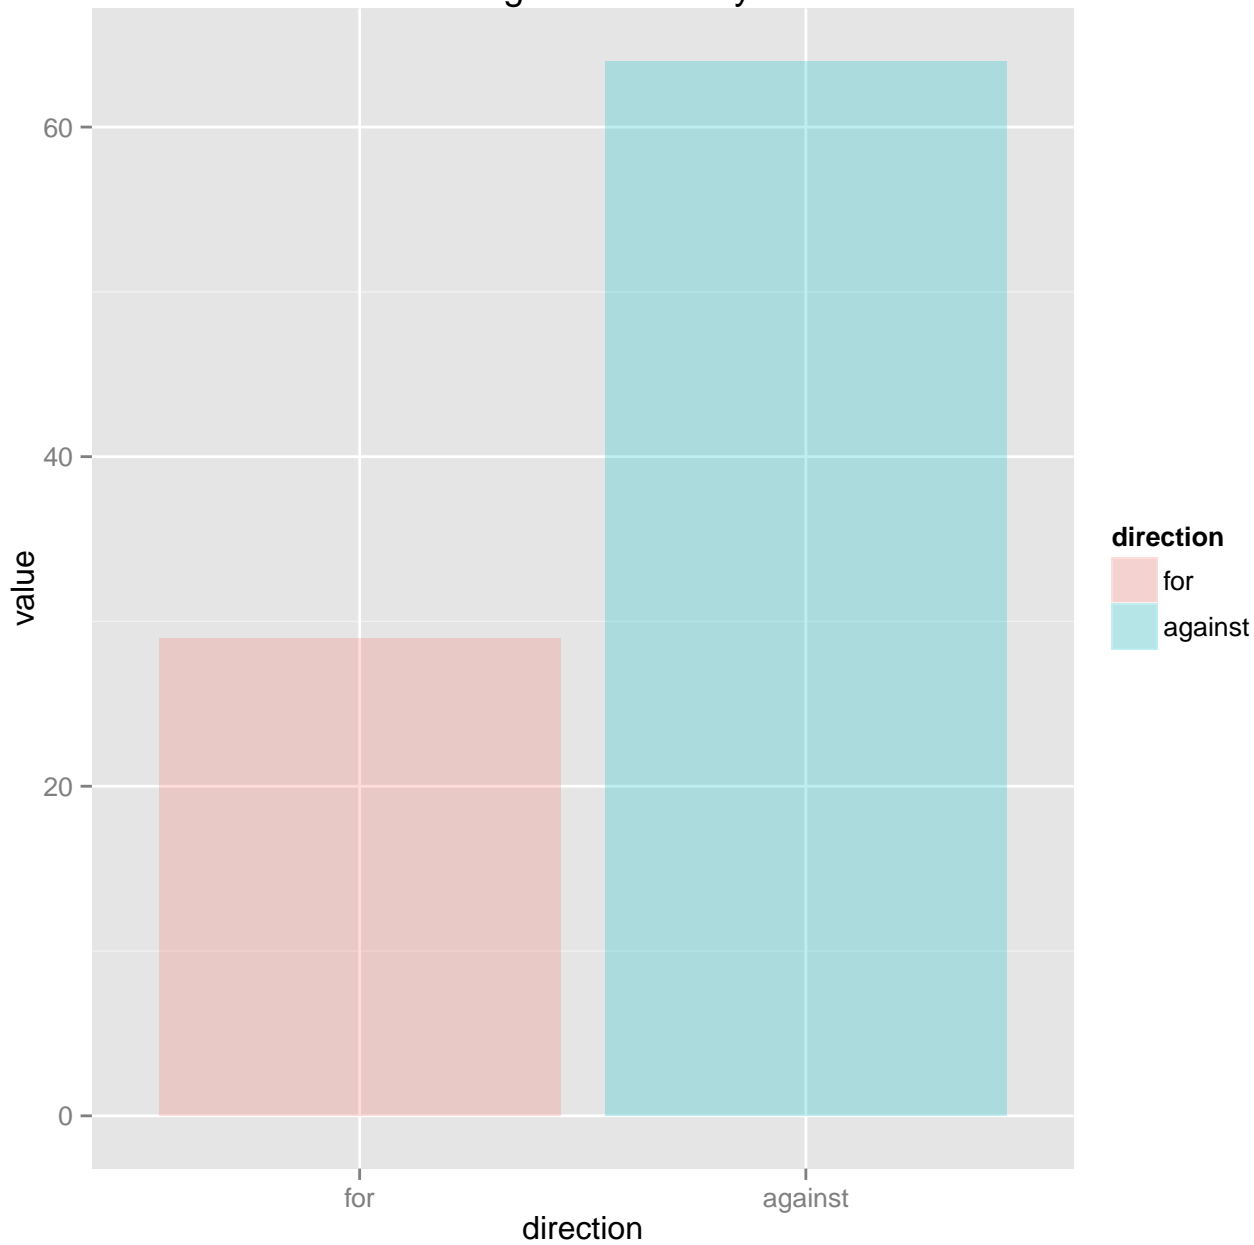

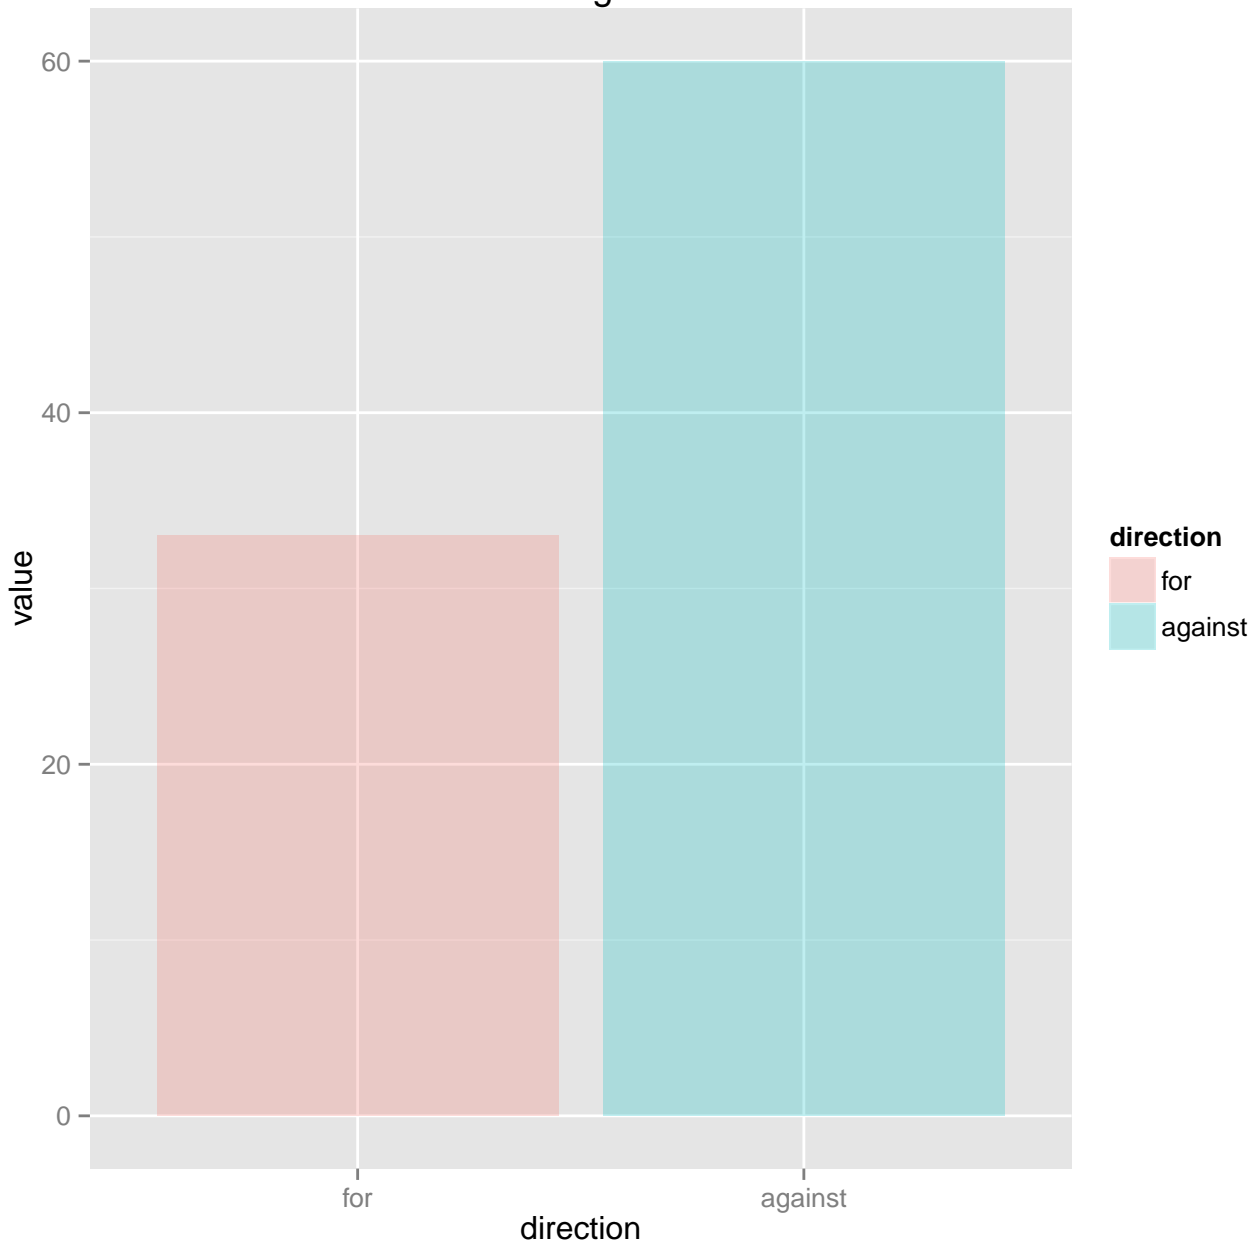

# Evidence for/against response bias

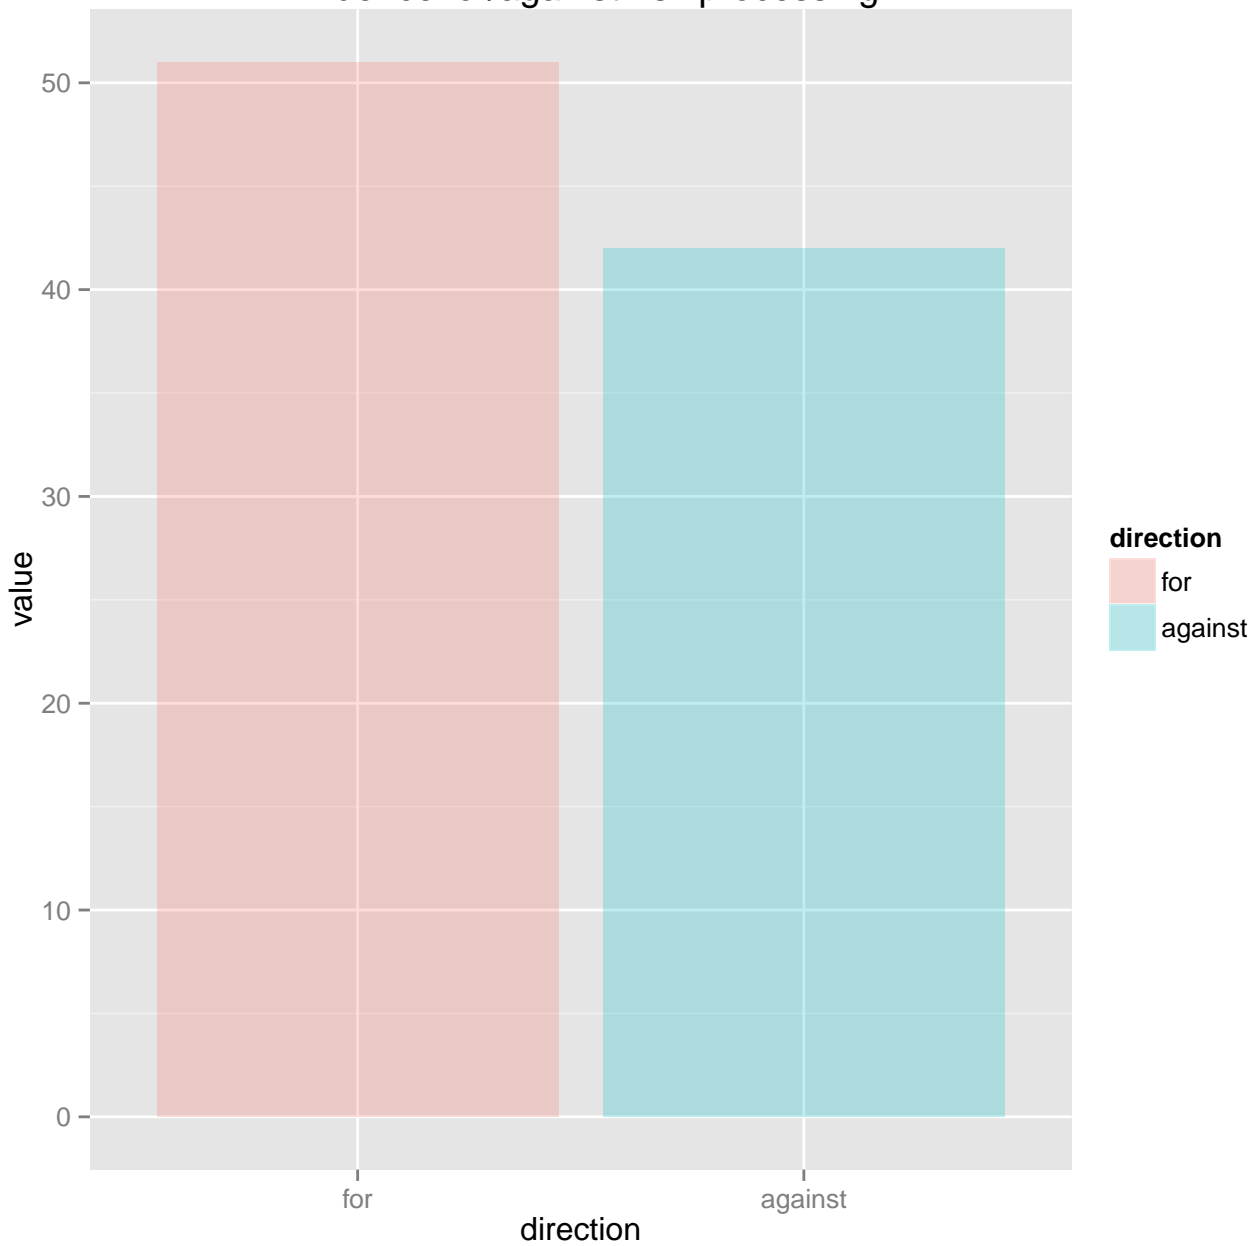

# Evidence for/against animacy decision

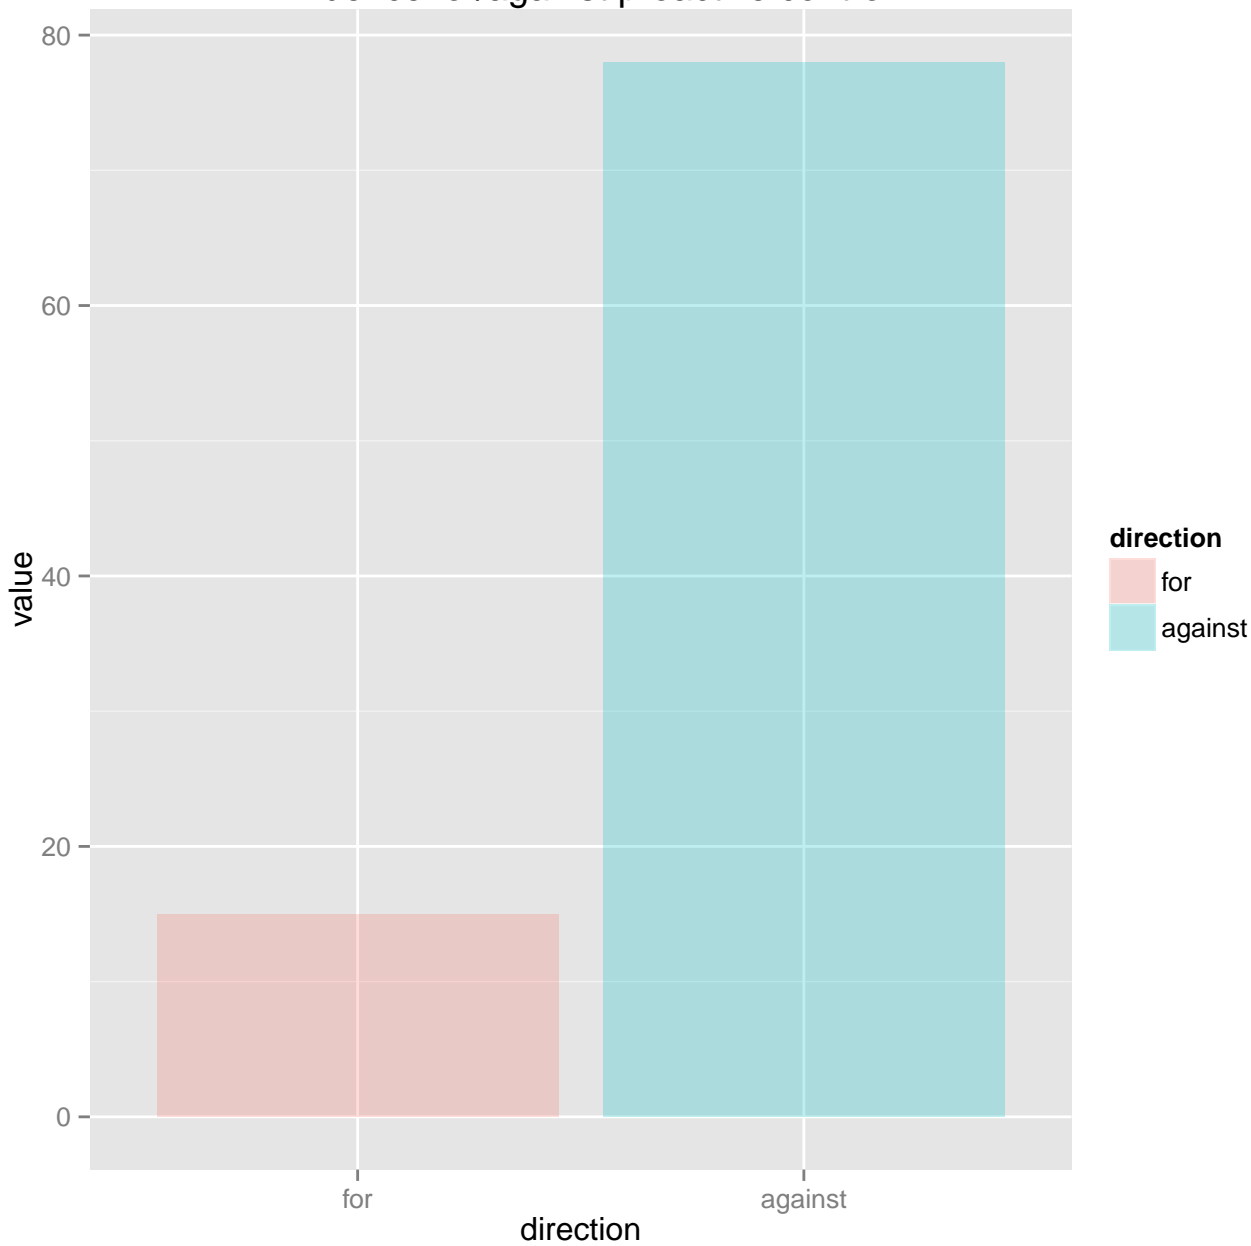

# Evidence for/against Action

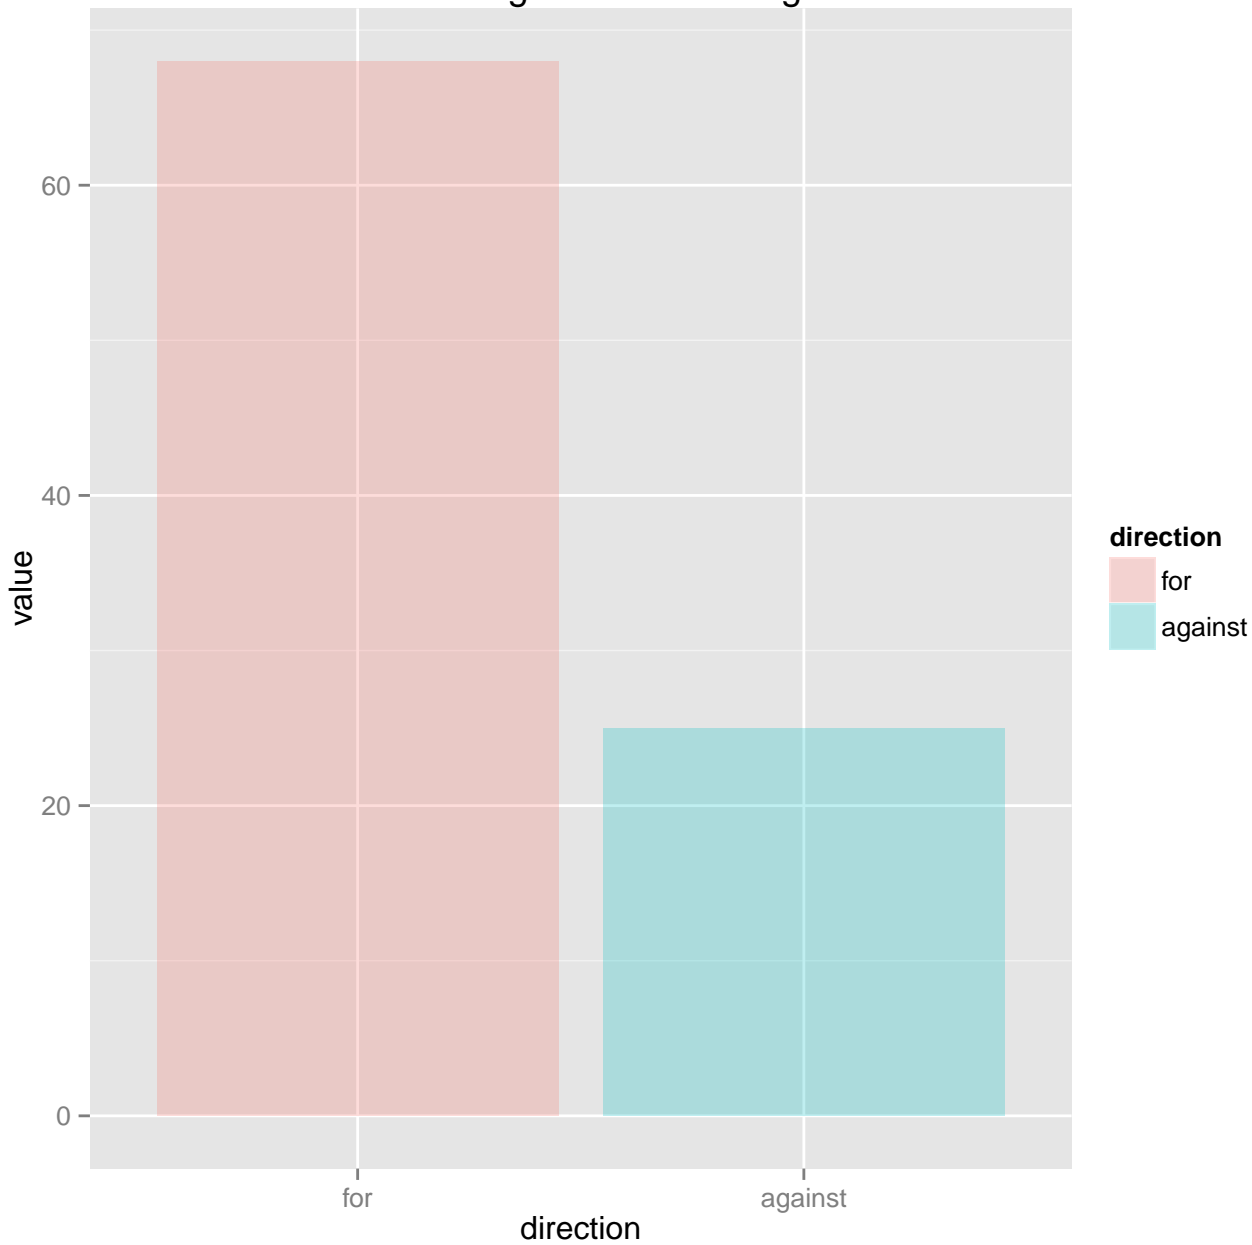

# Evidence for/against risk processing

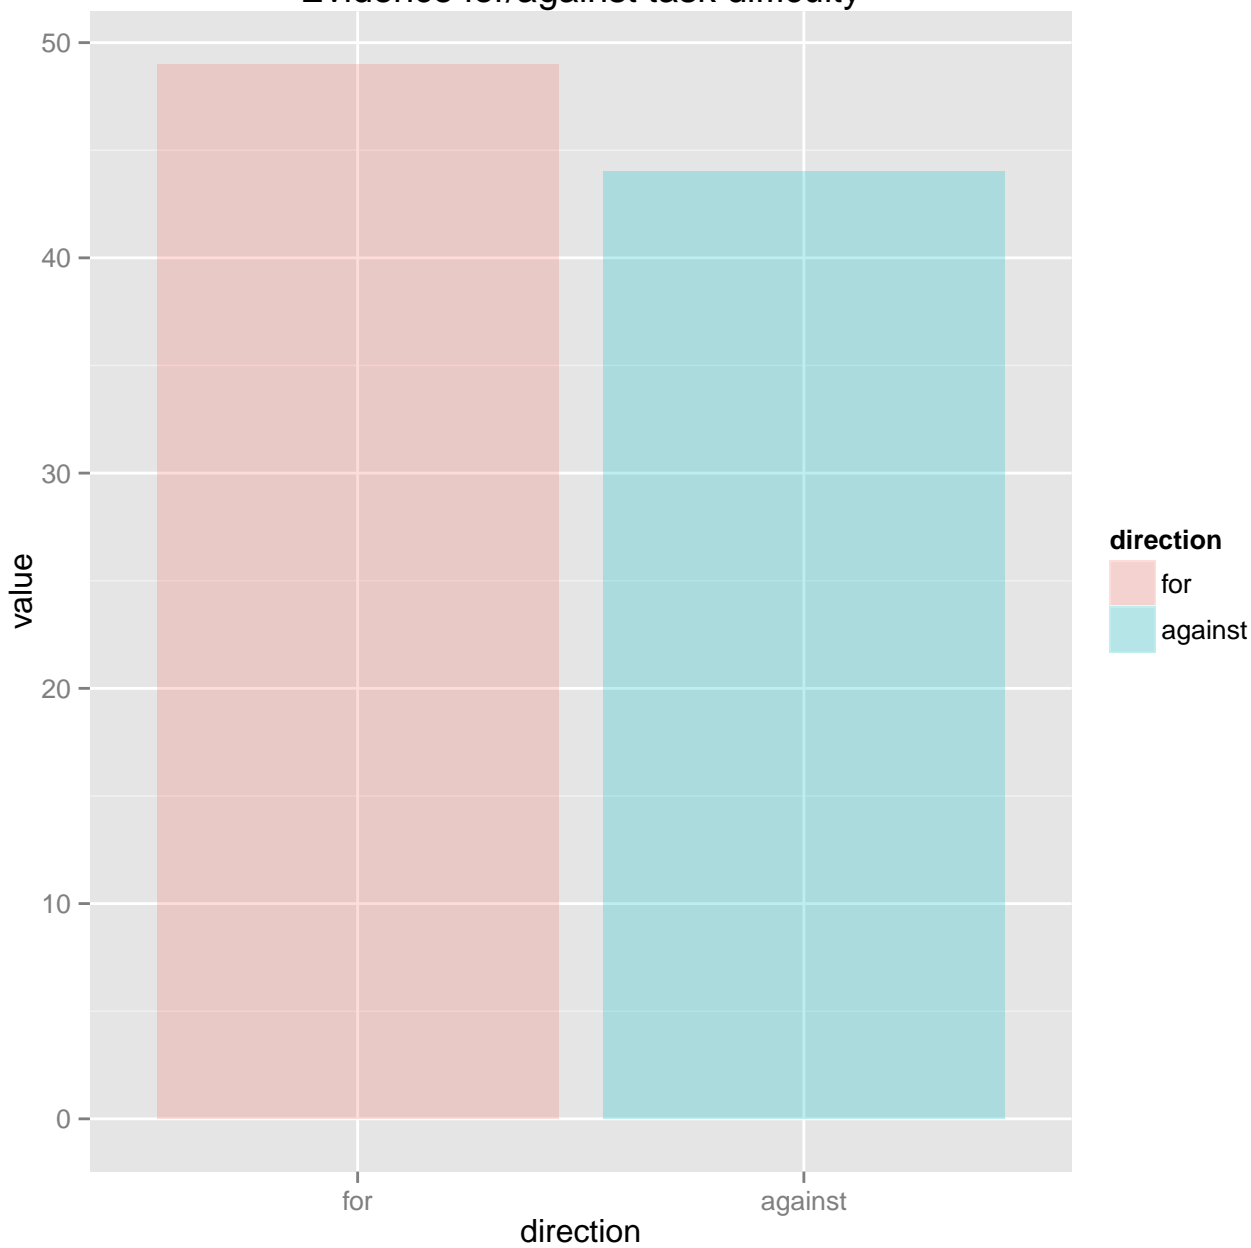

# Evidence for/against proactive control

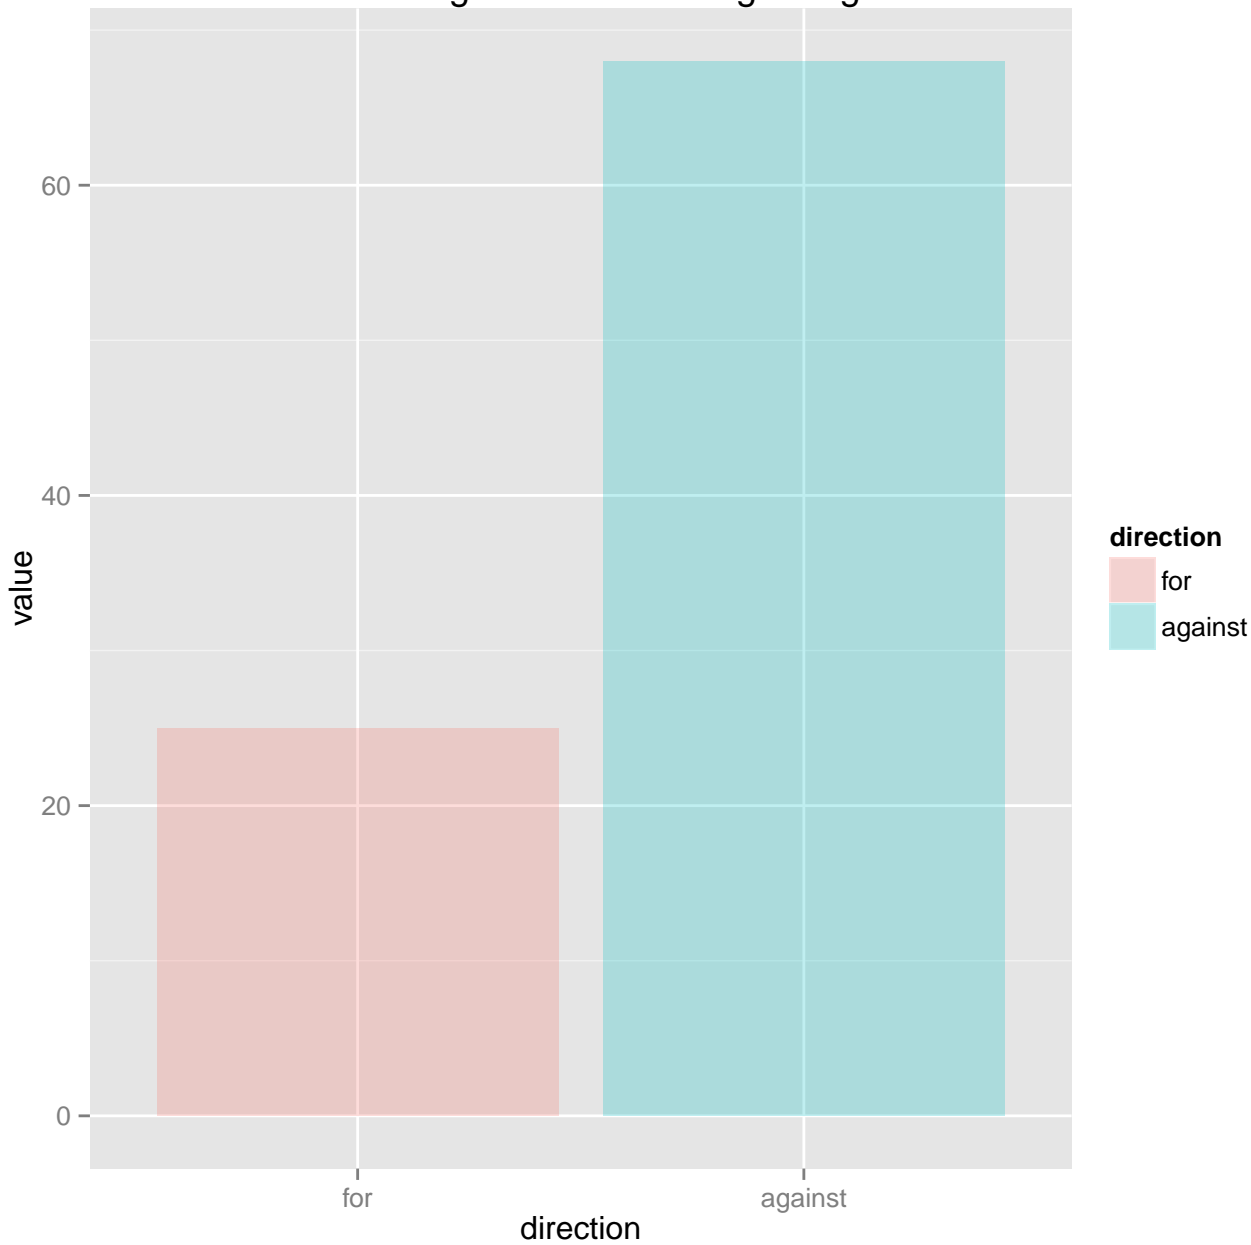

# Evidence for/against word recognition

# Evidence for/against task difficulty

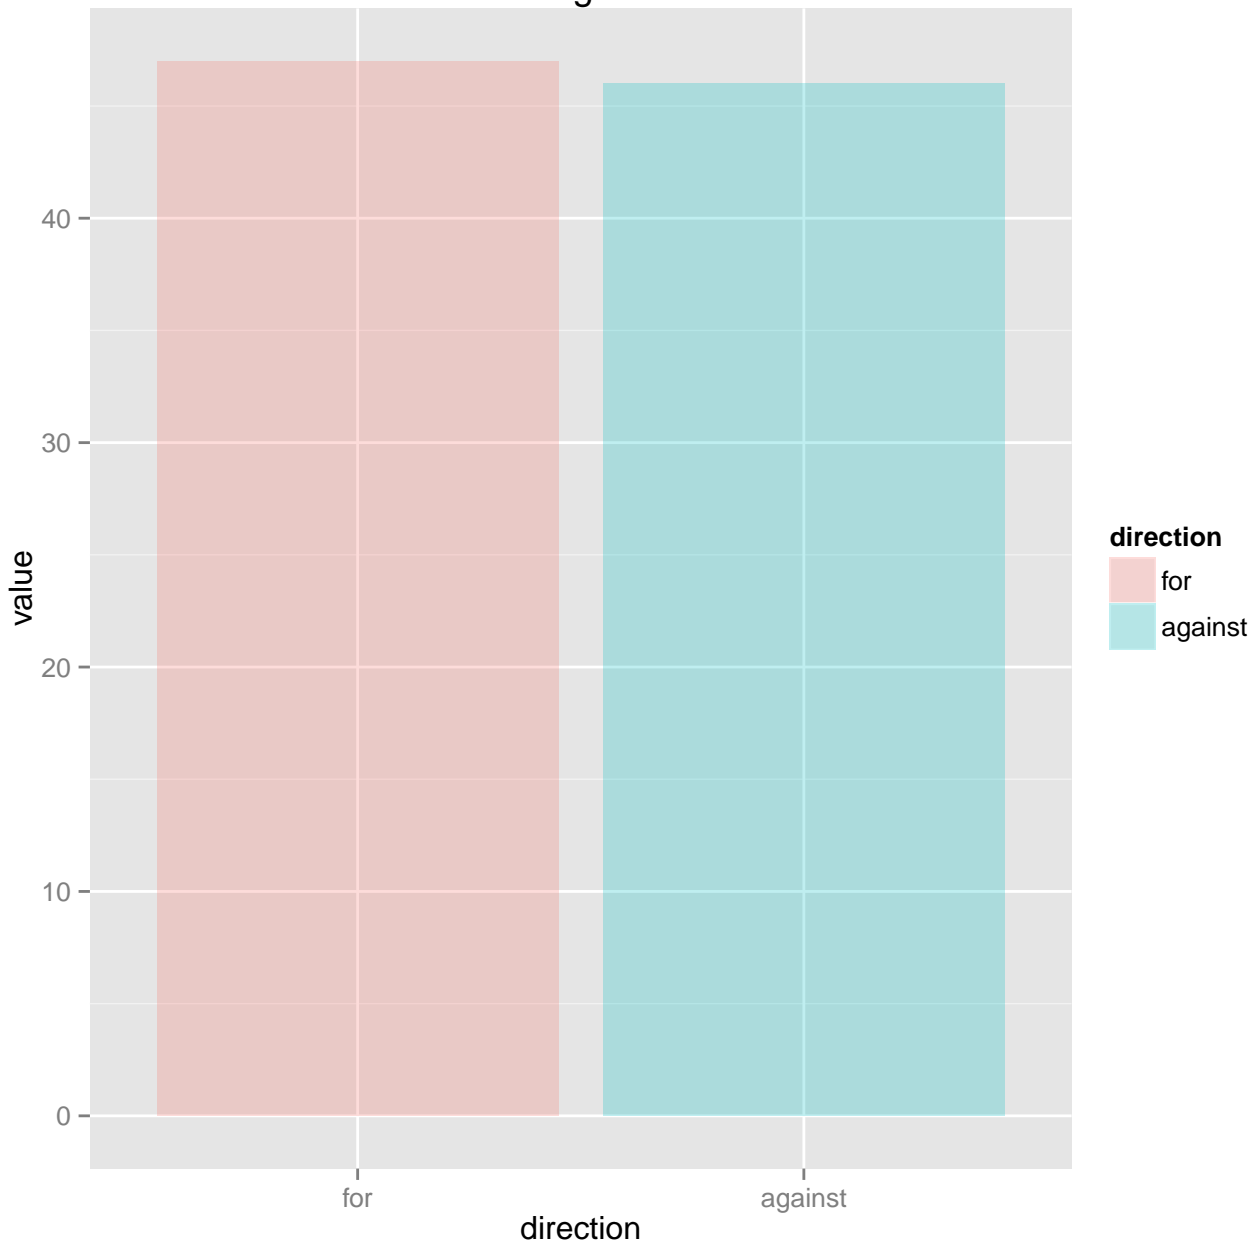

# Evidence for/against visual string recognition

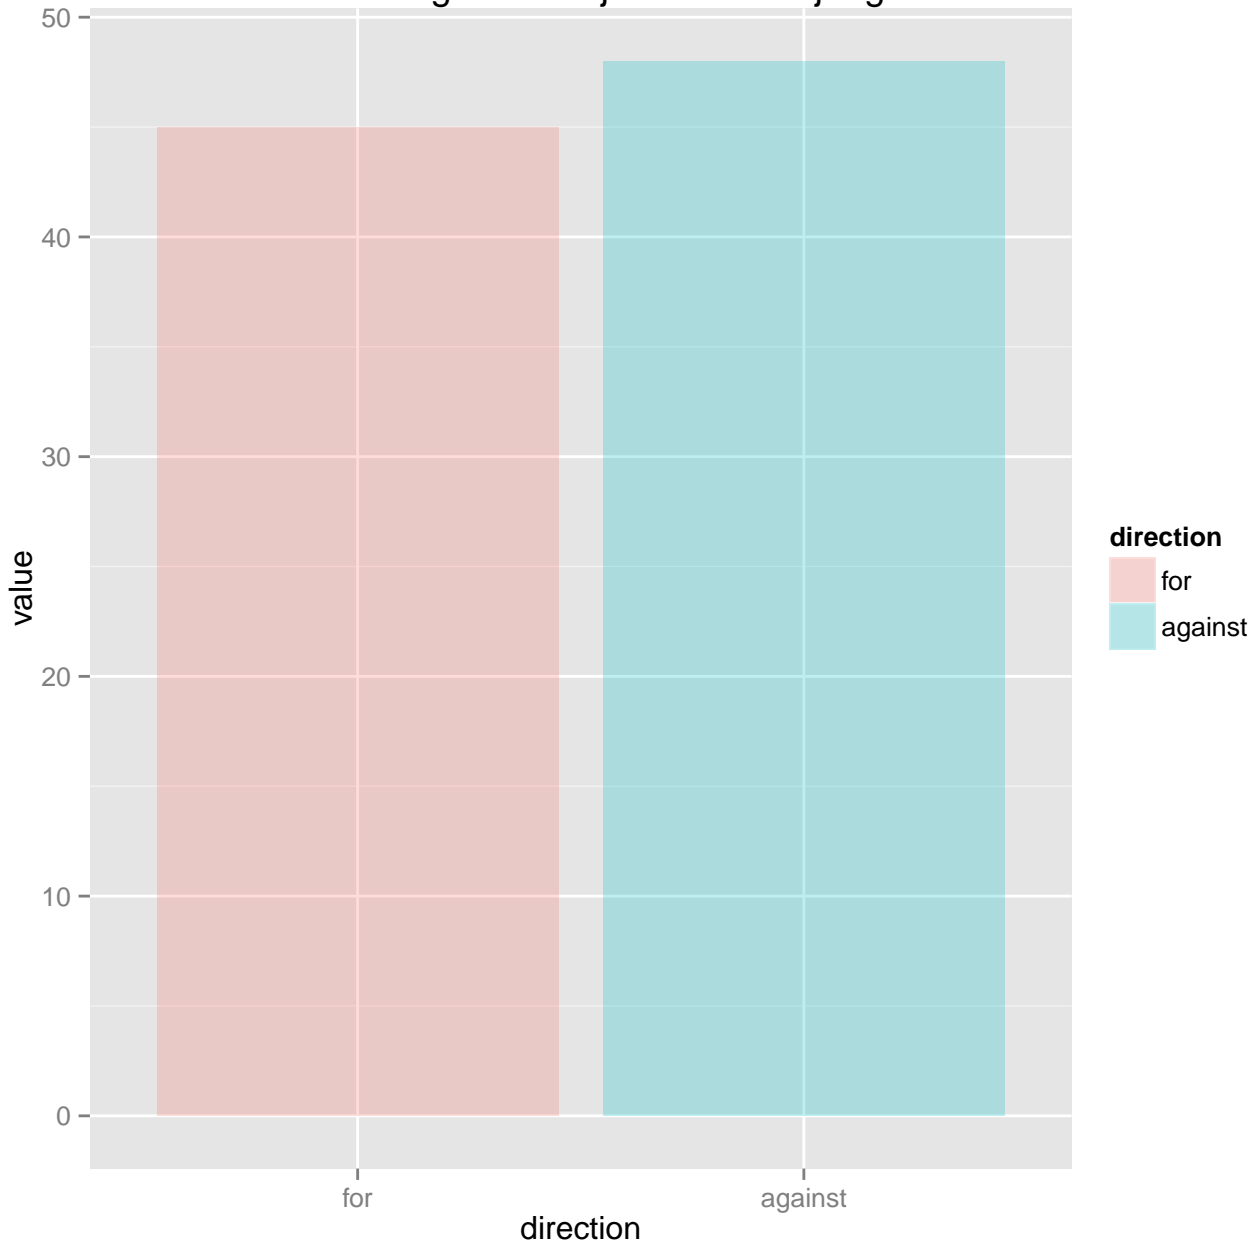

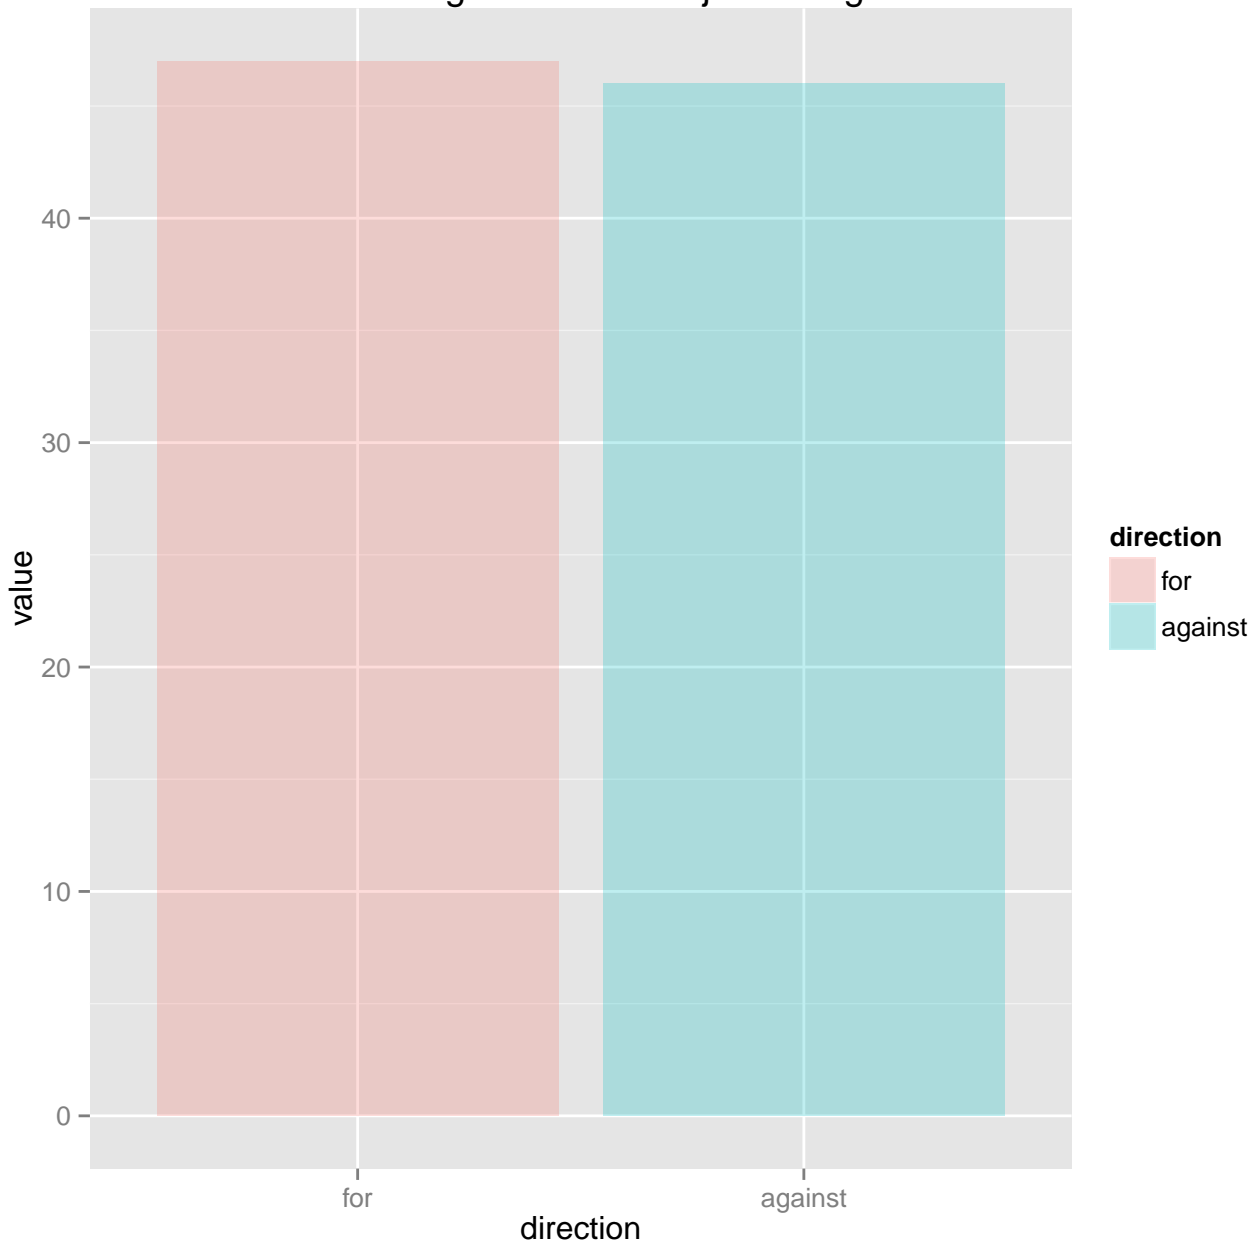

Evidence for/against attention

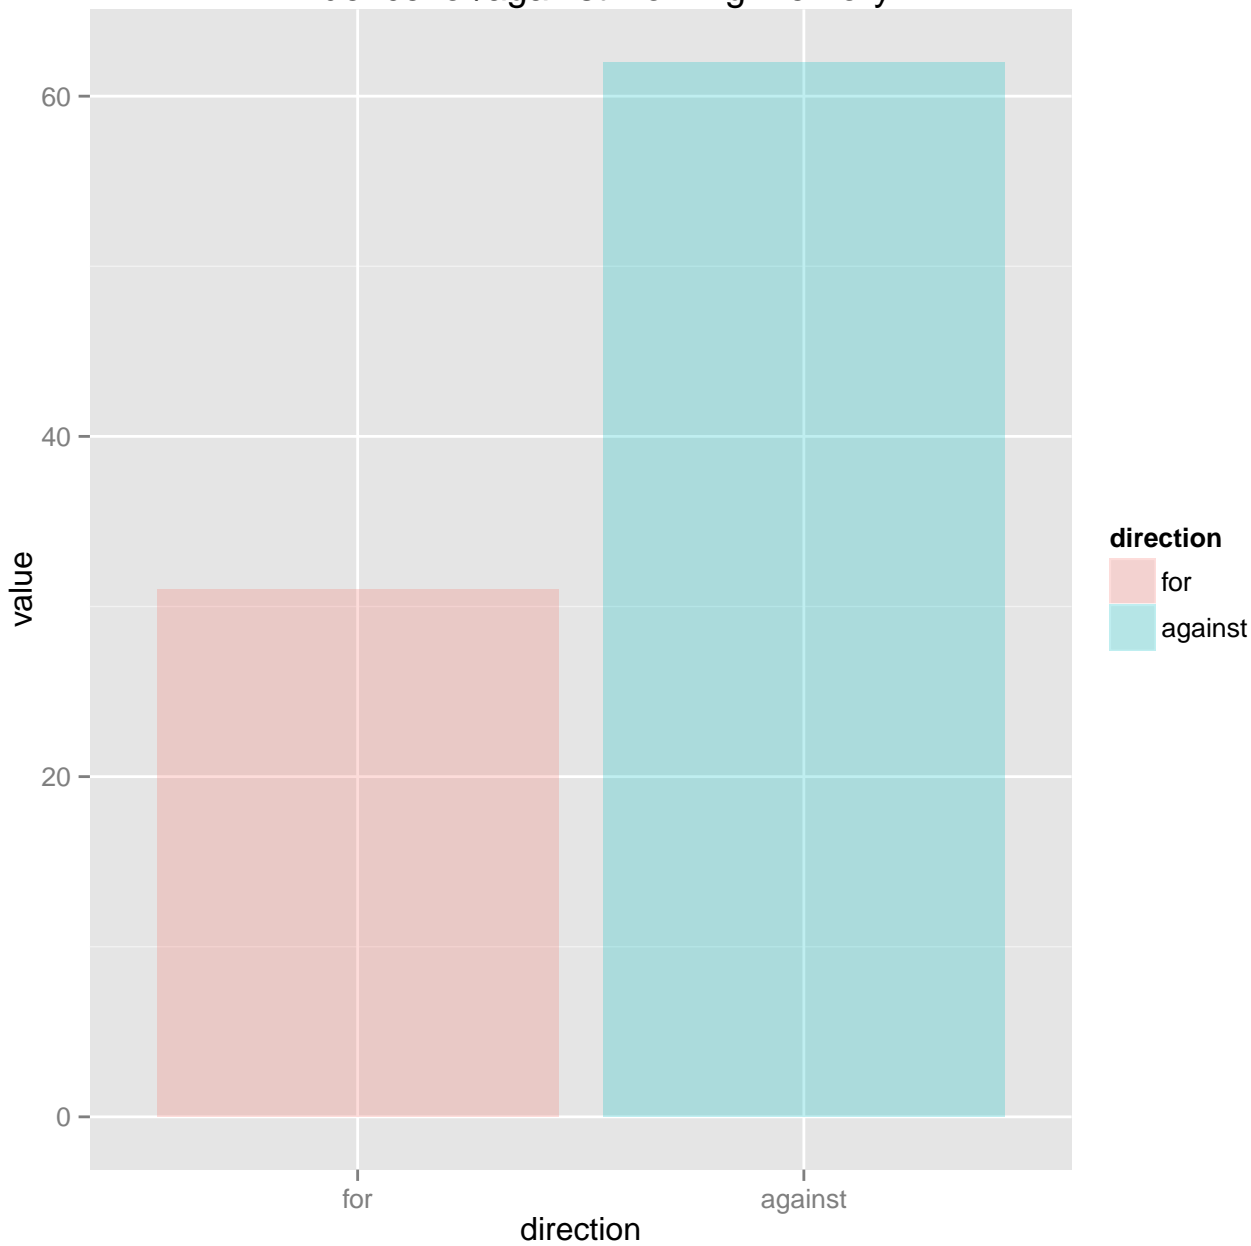

# Evidence for/against subjective value judgment

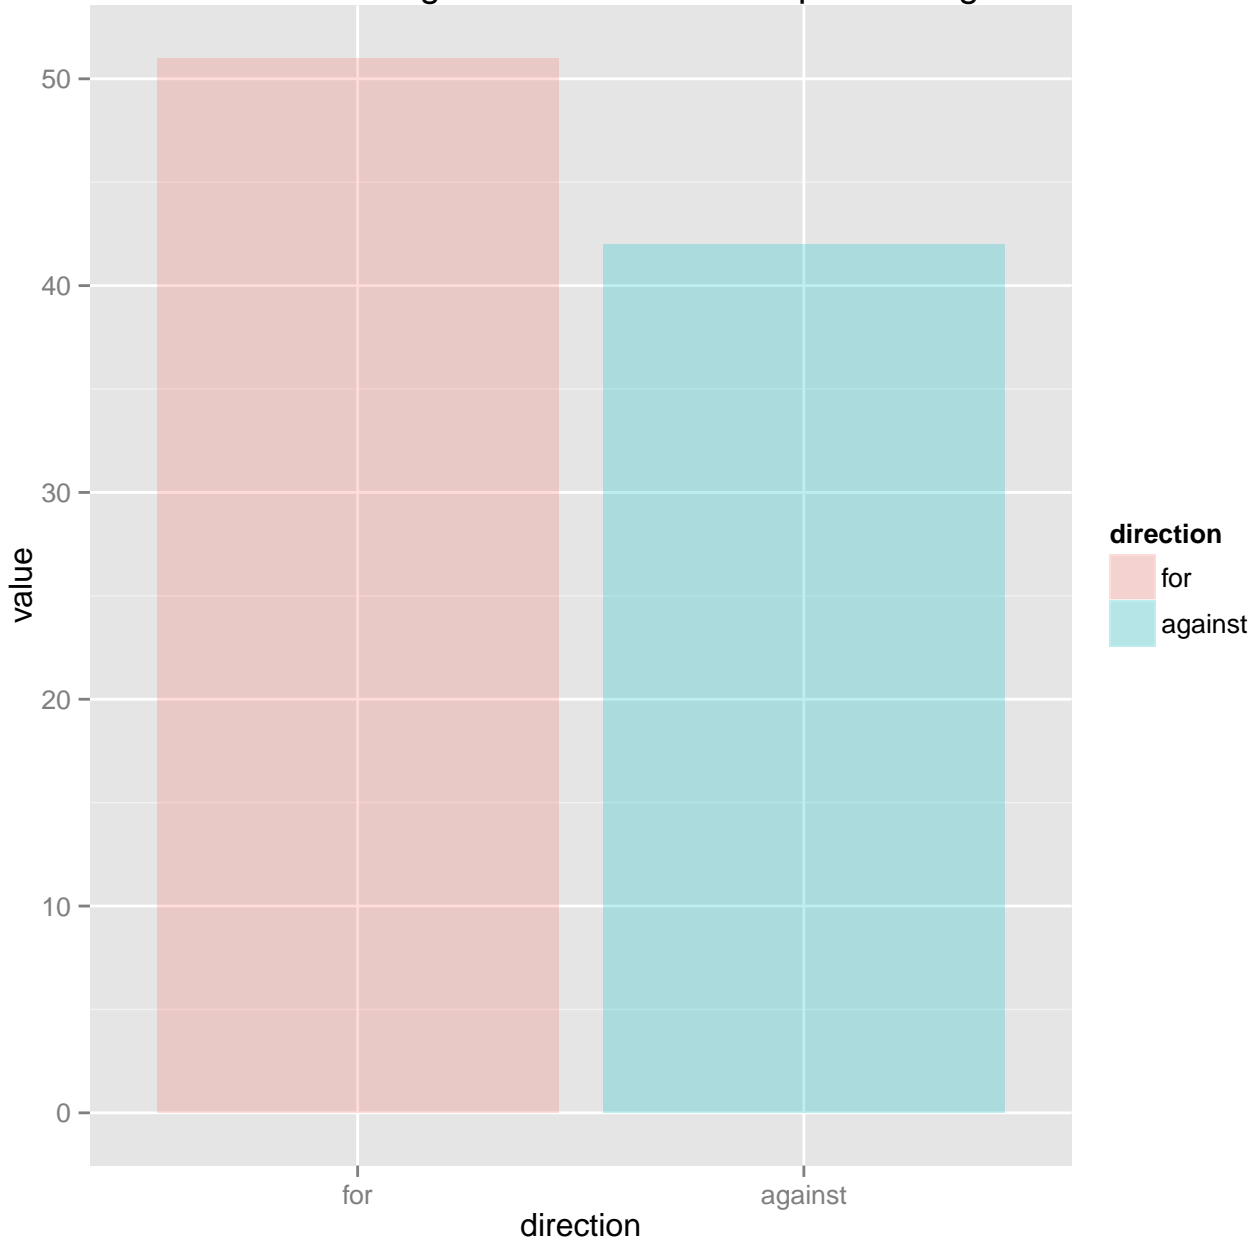

# Evidence for/against visual object recognition

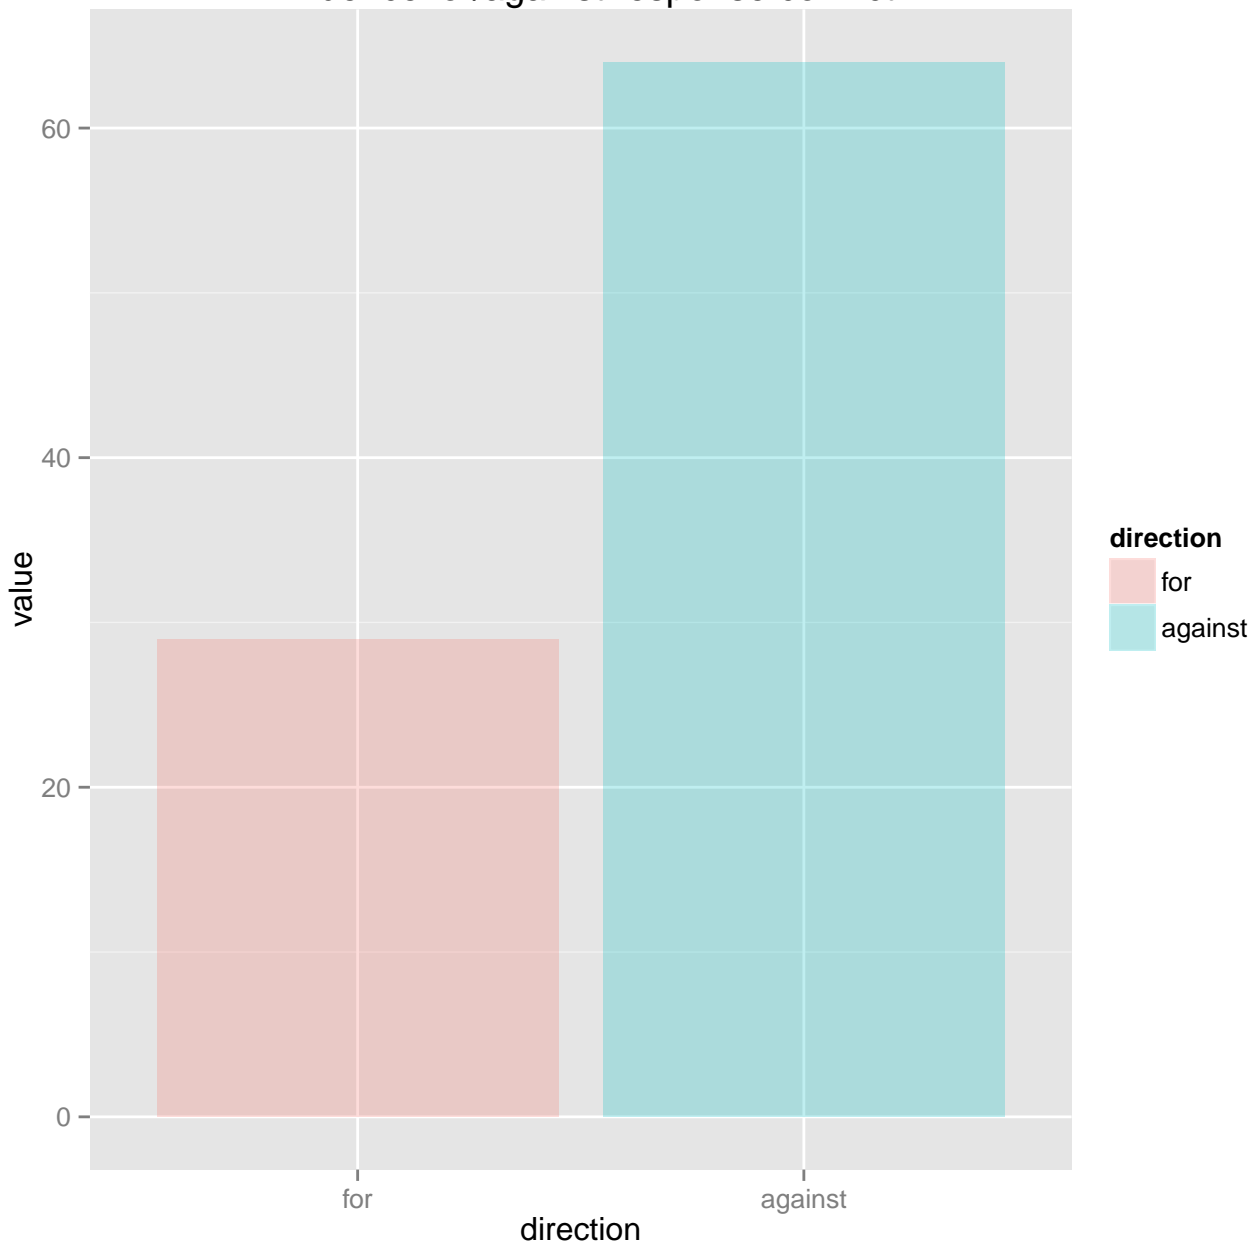

# Evidence for/against working memory

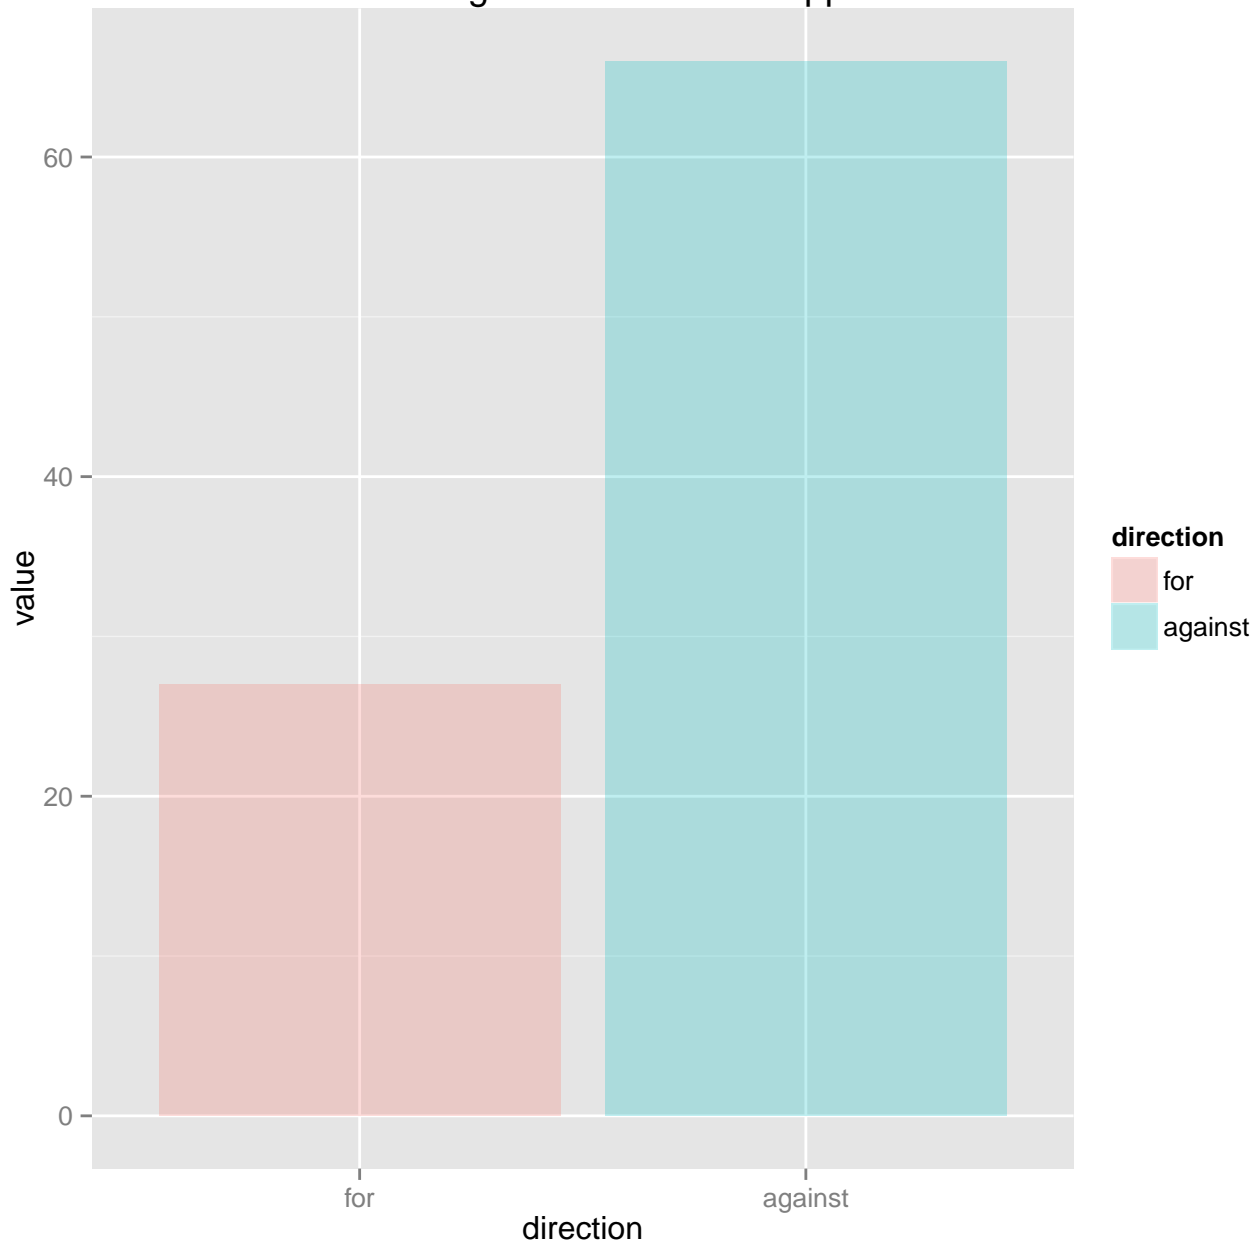

# Evidence for/against economic value processing

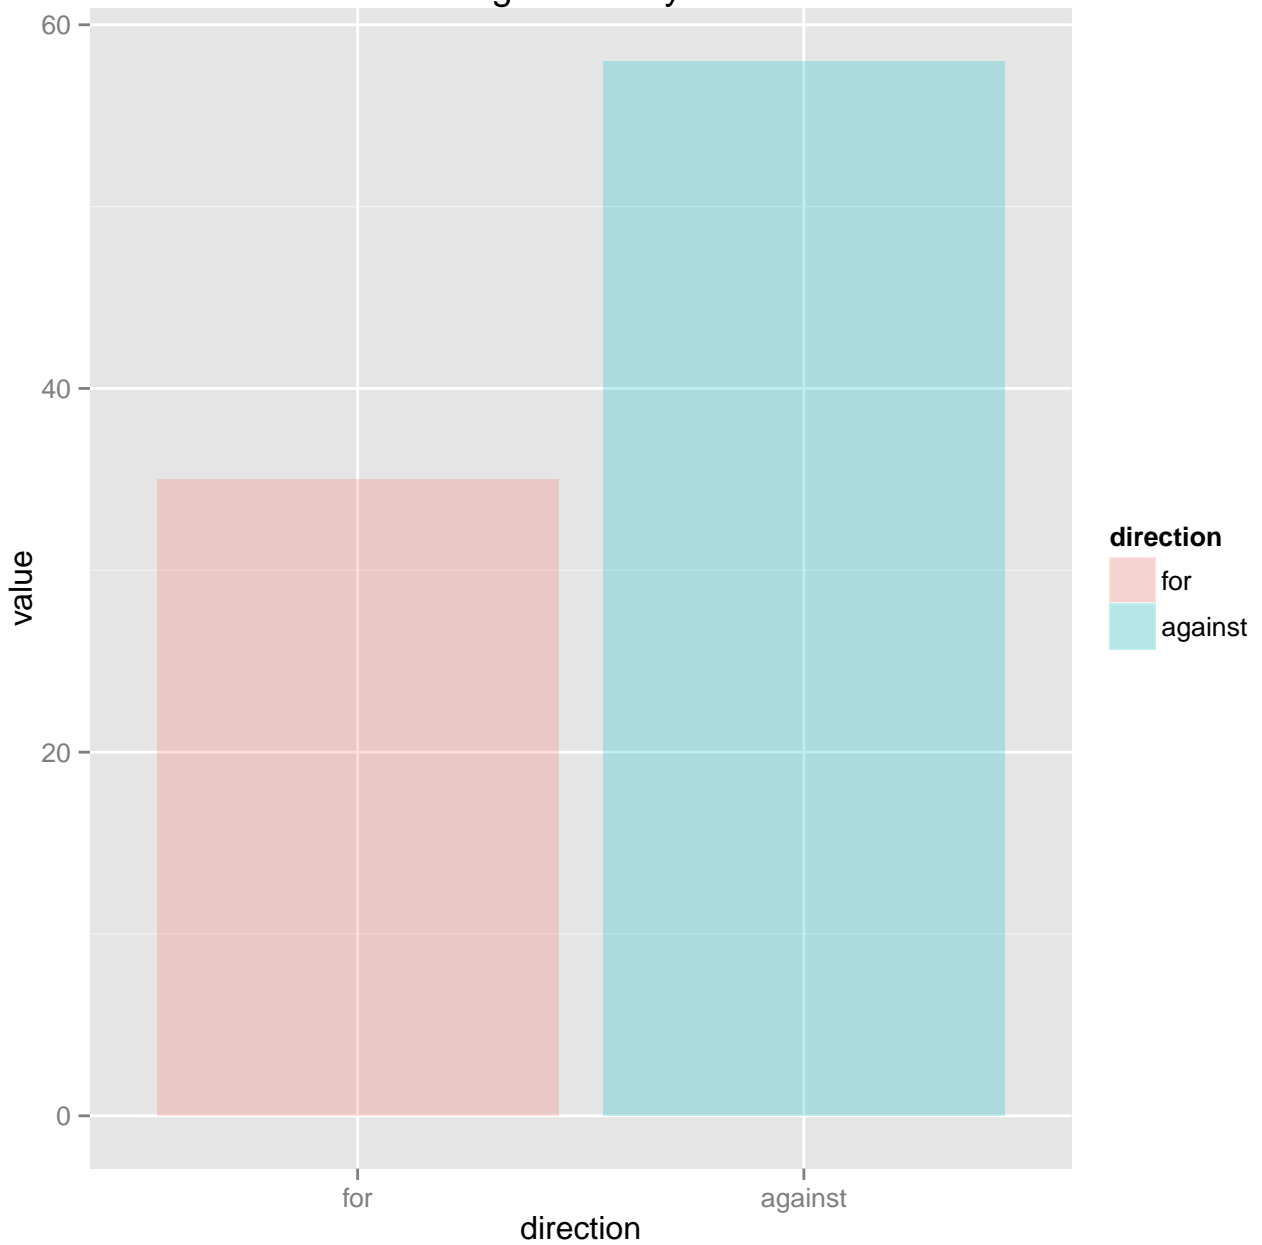

# Evidence for/against response conflict

# Evidence for/against emotional reappraisal

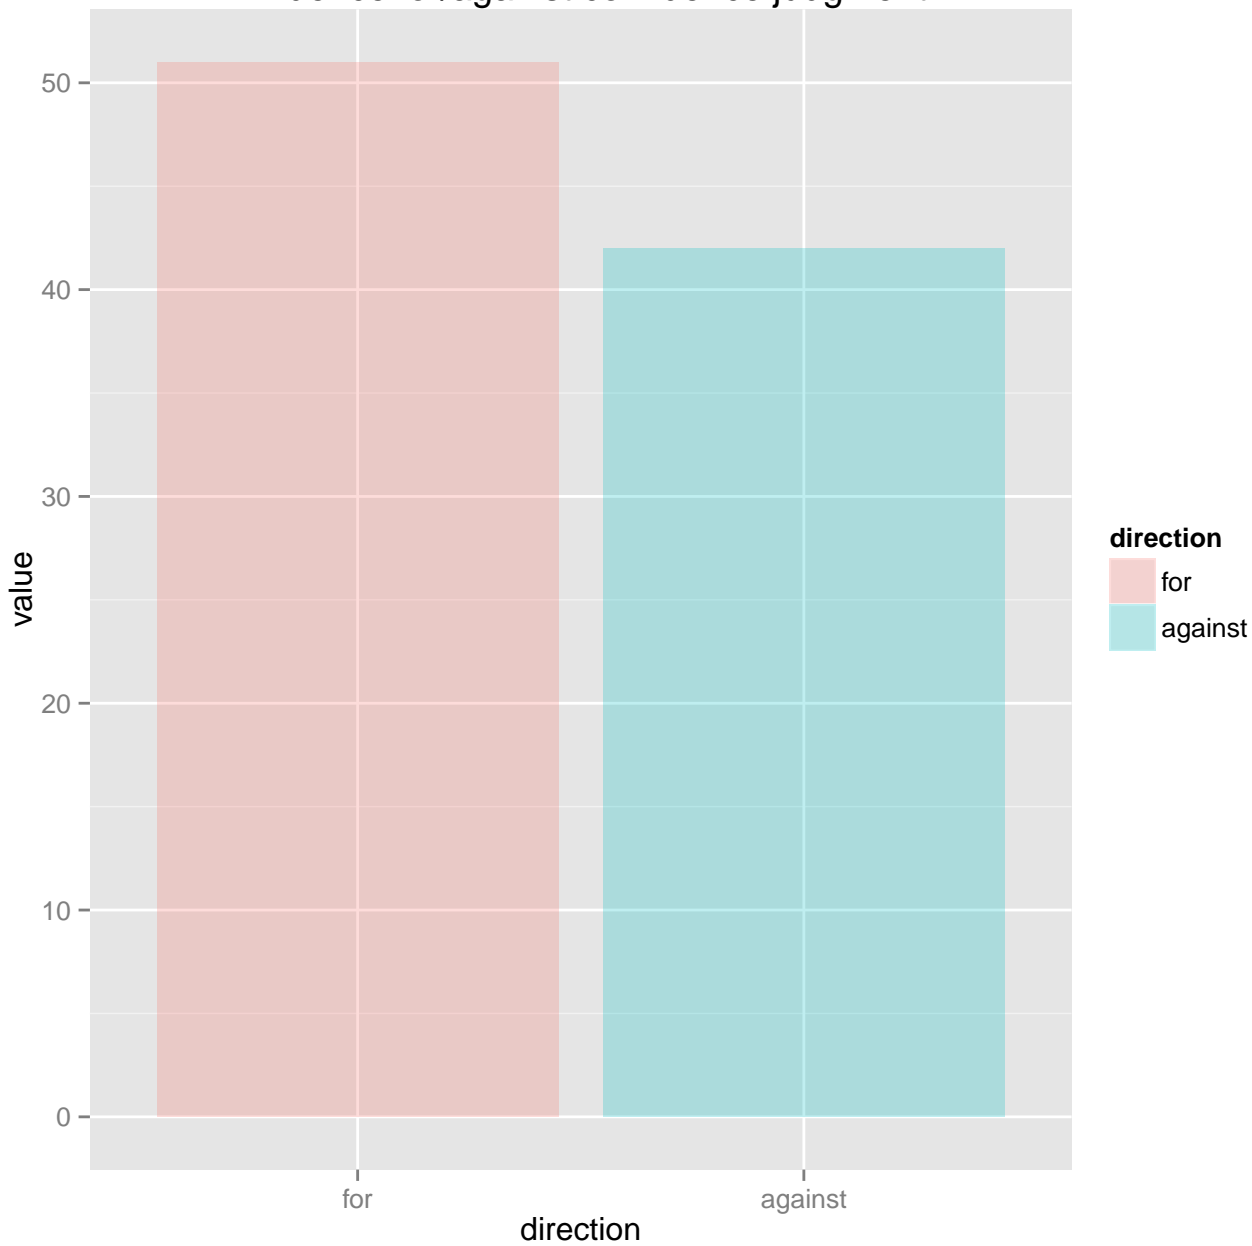

# Evidence for/against body maintenance

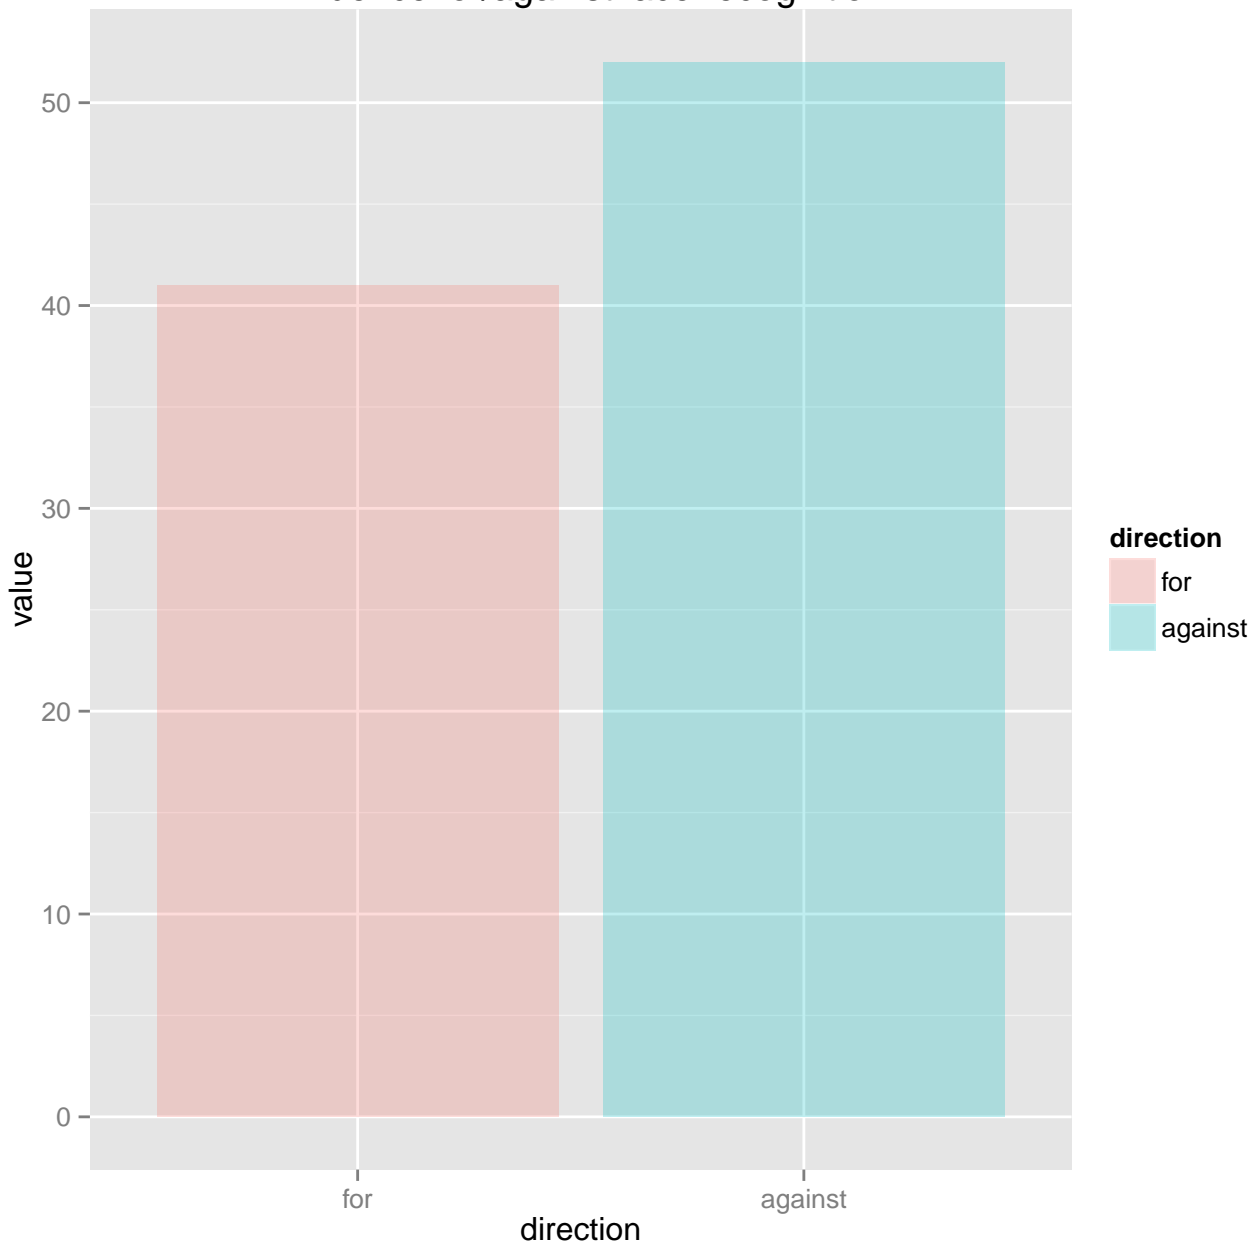

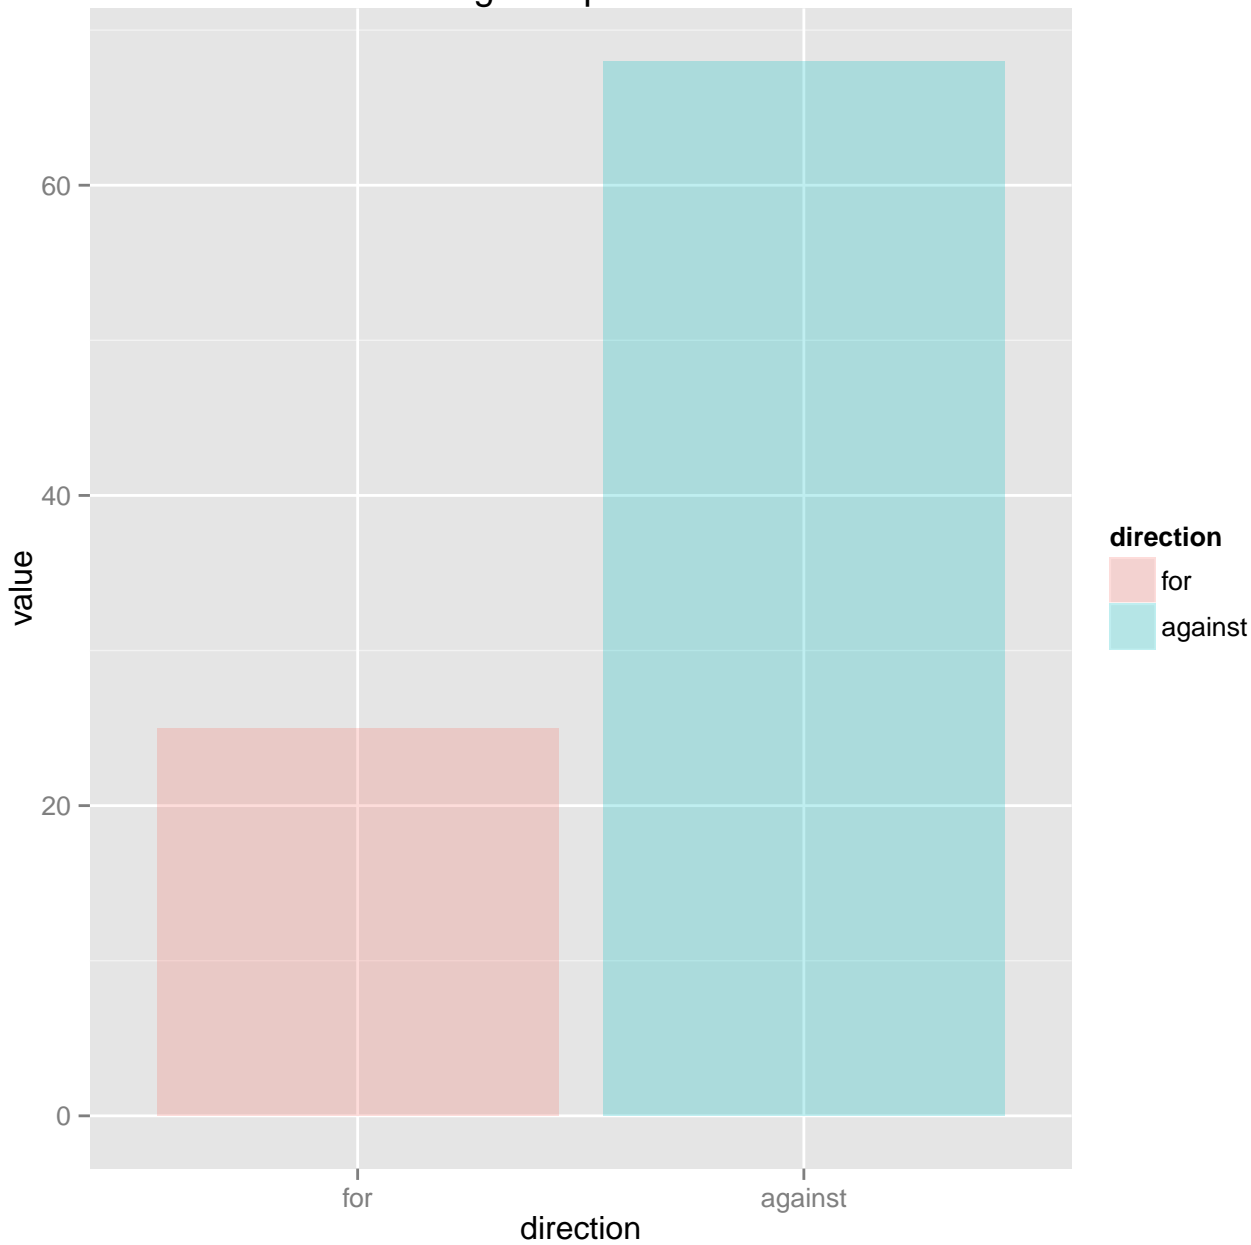

Evidence for/against confidence judgment

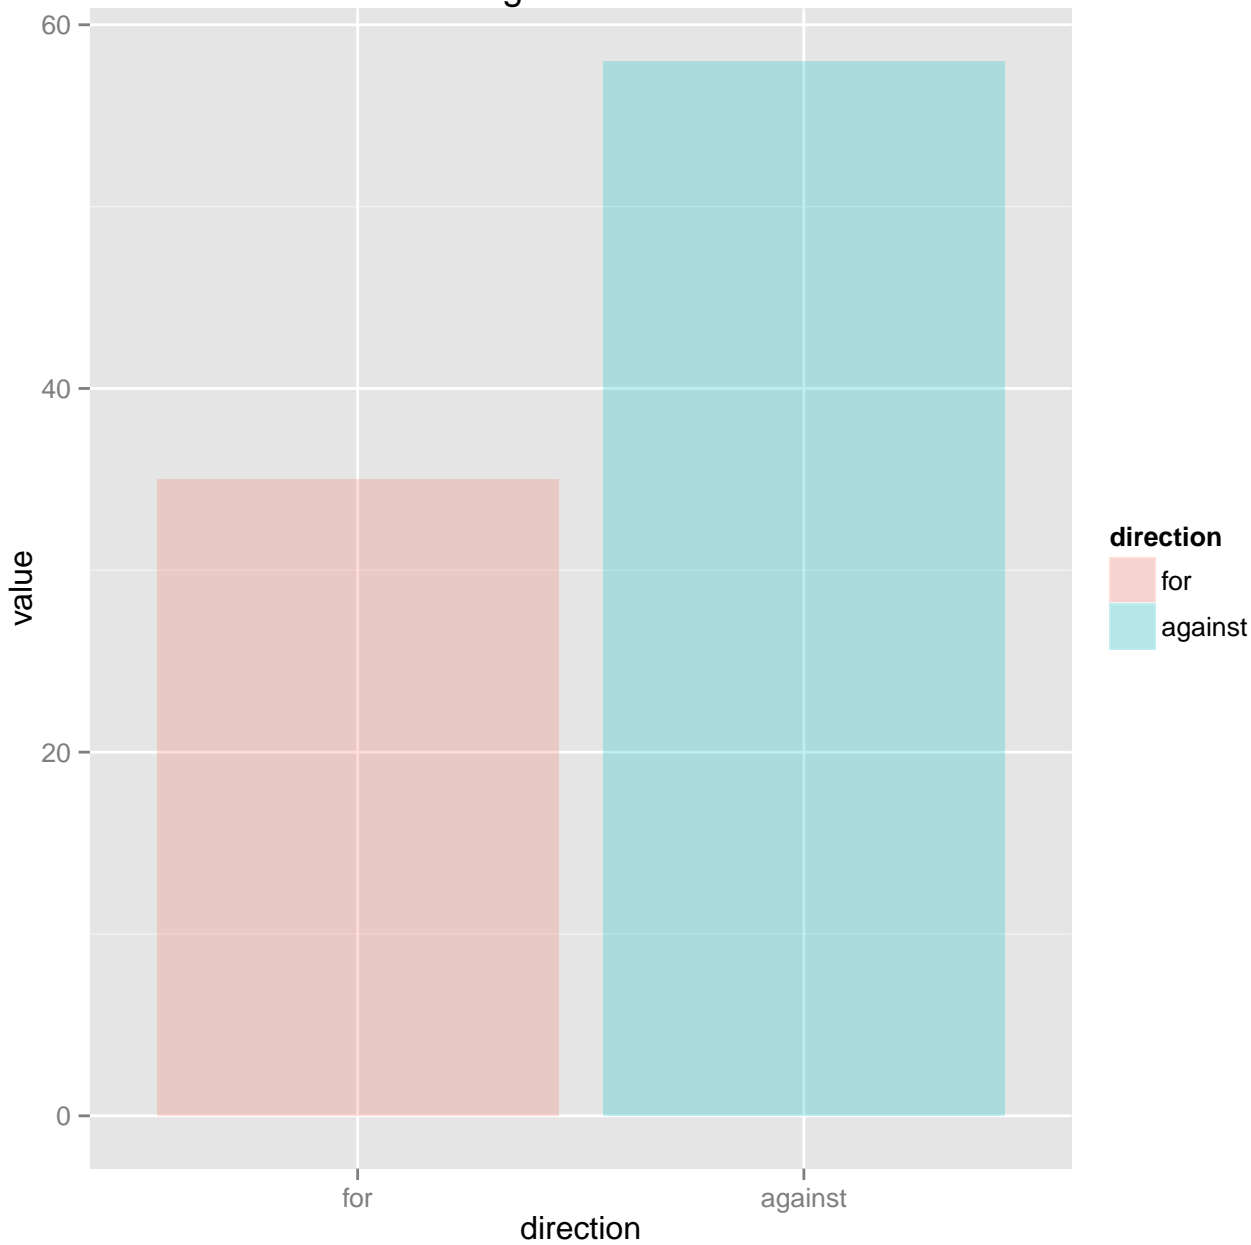

# Evidence for/against face recognition

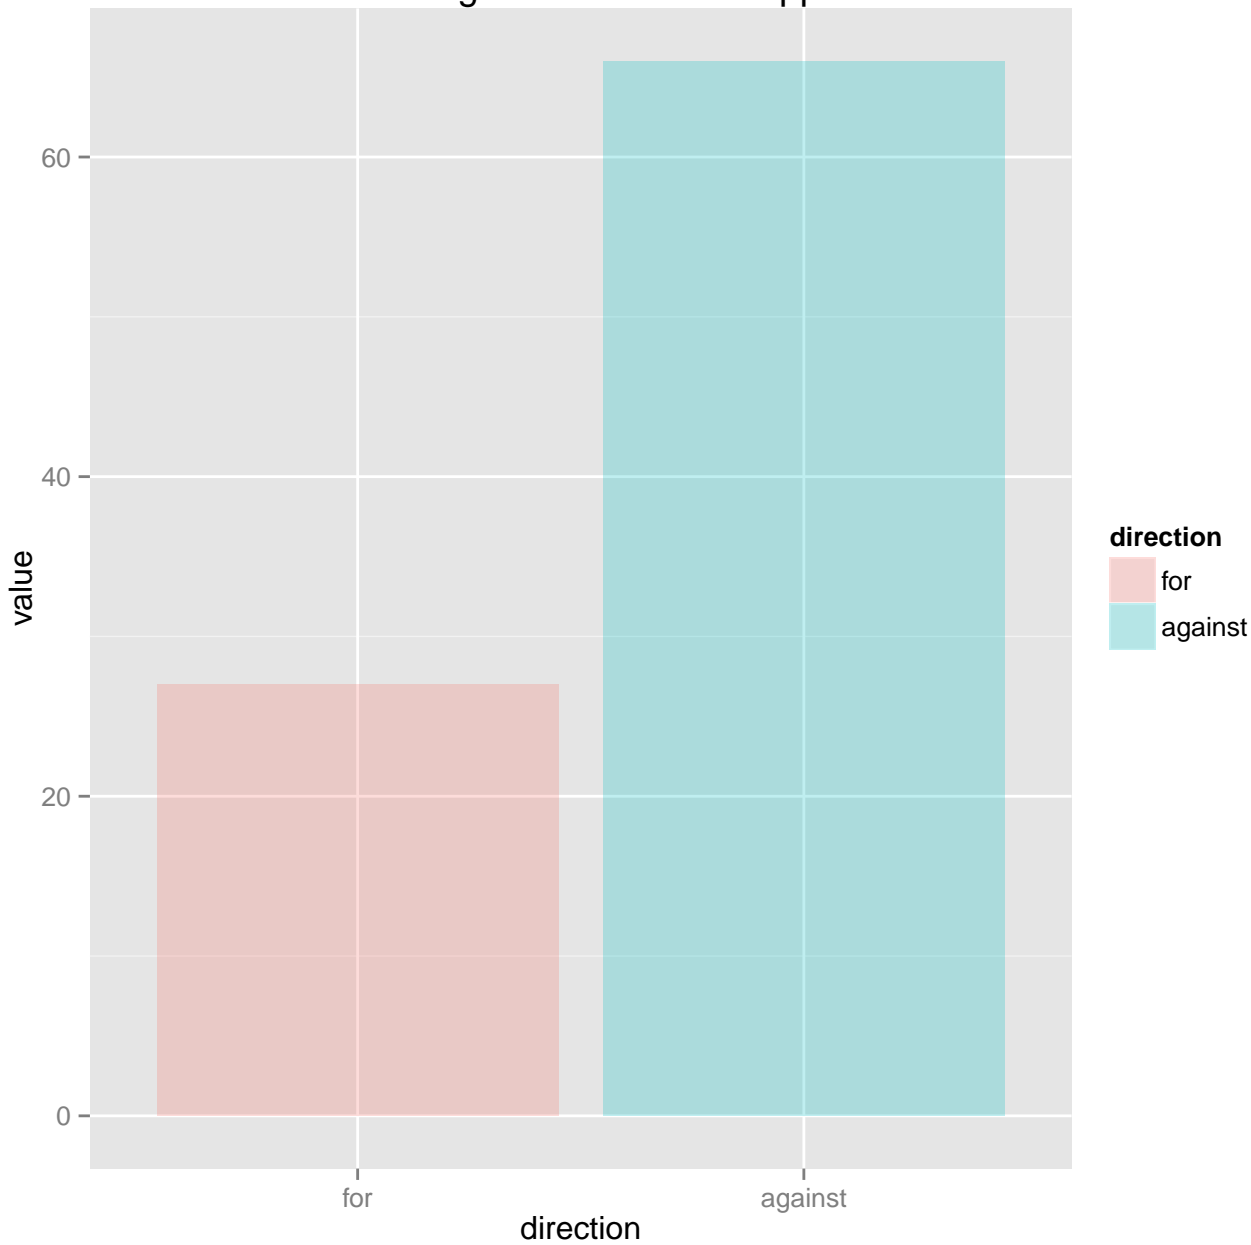

# Evidence for/against pattern maintenance

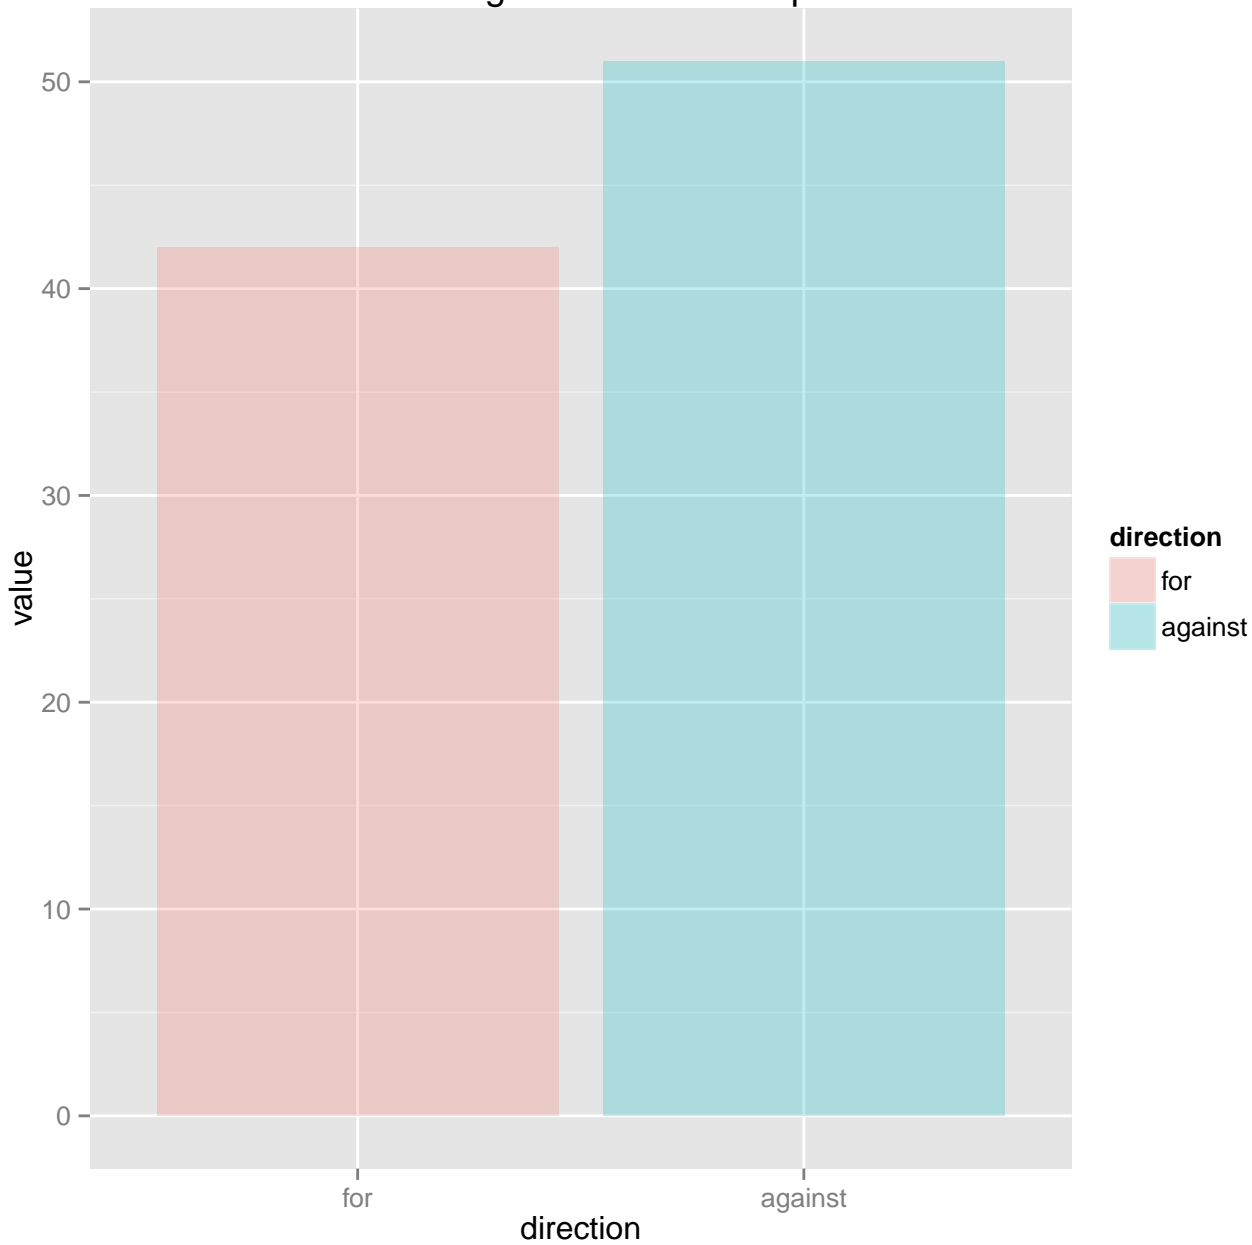

# Evidence for/against tool maintenance

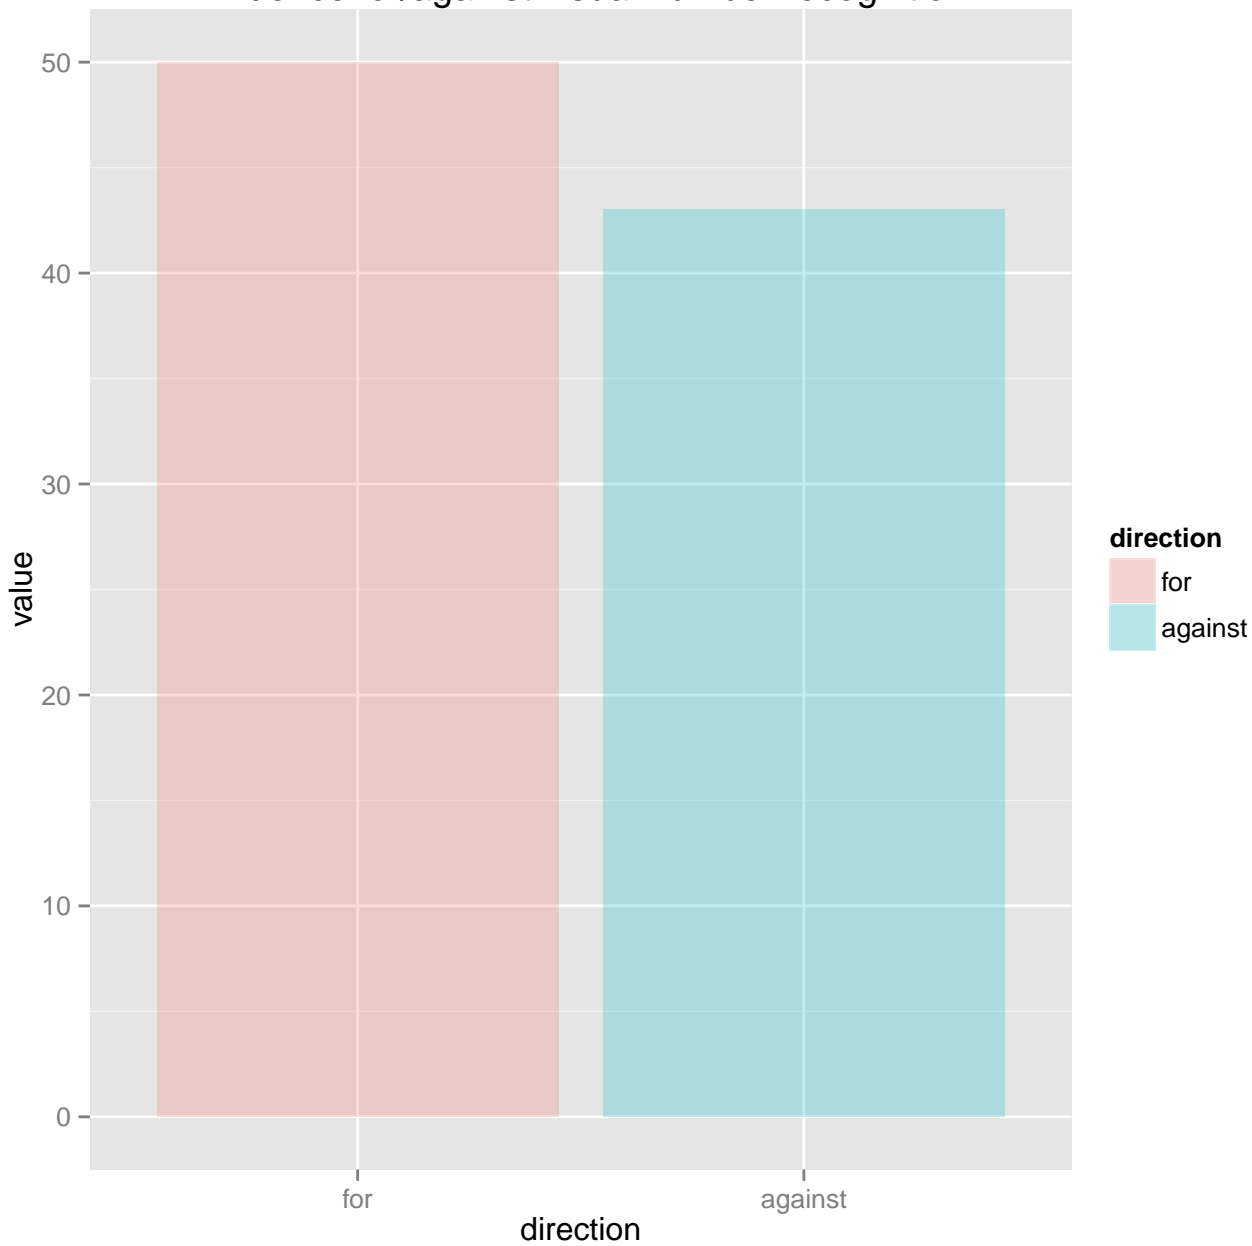

# Evidence for/against emotional suppression

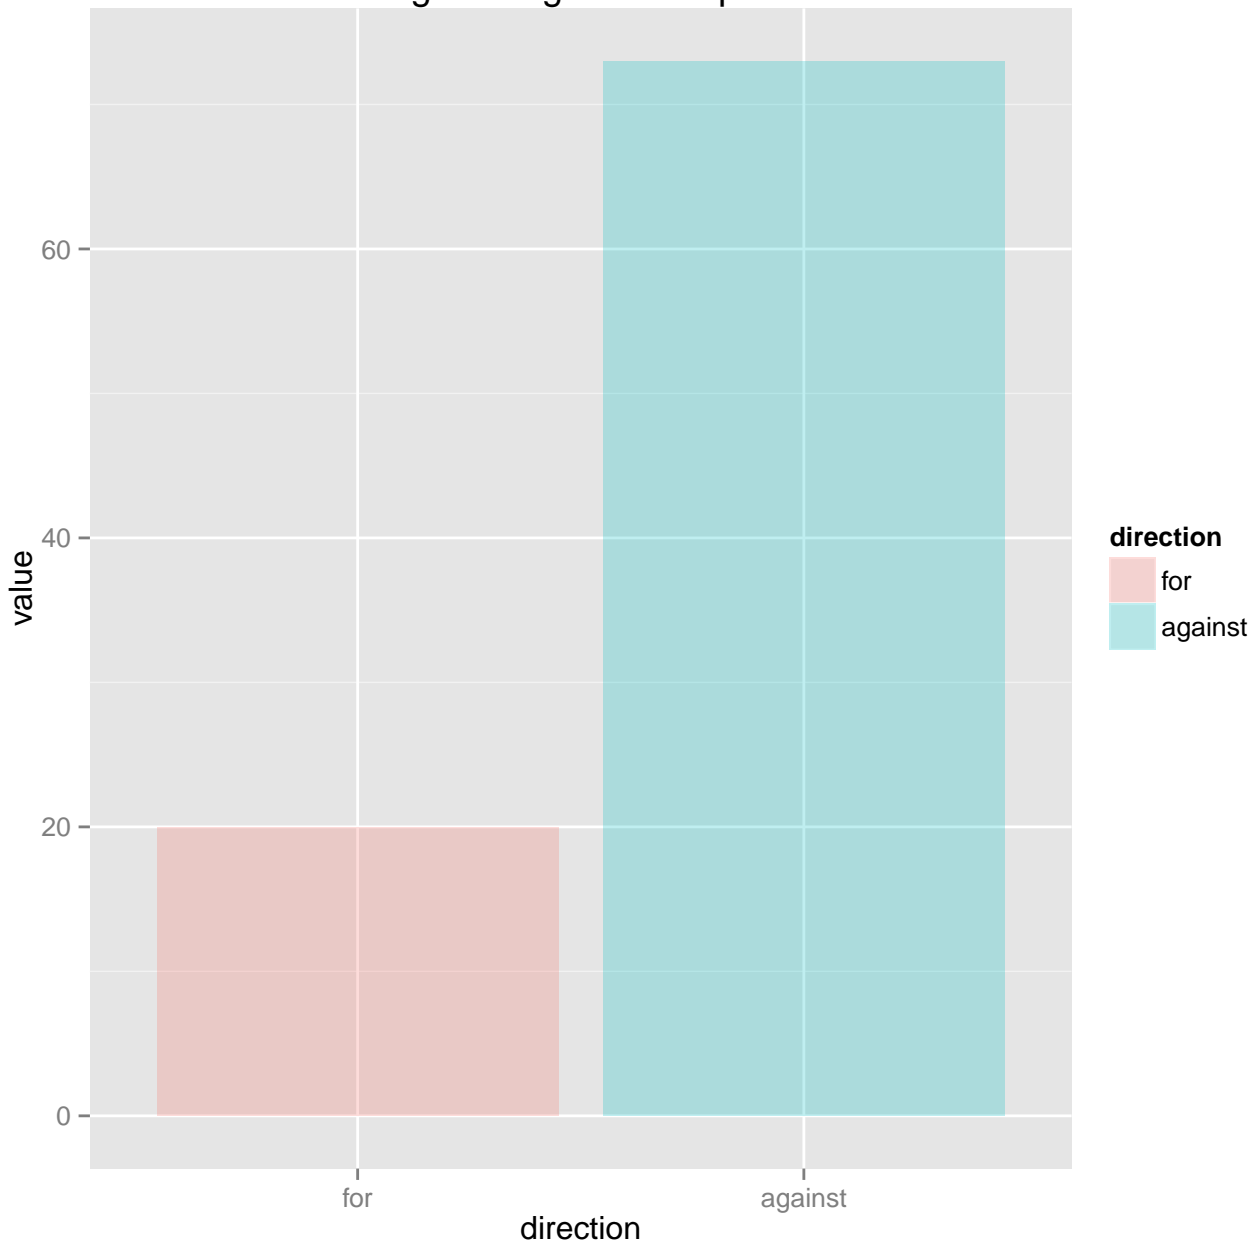

Evidence for/against feature comparison

# Evidence for/against visual number recognition

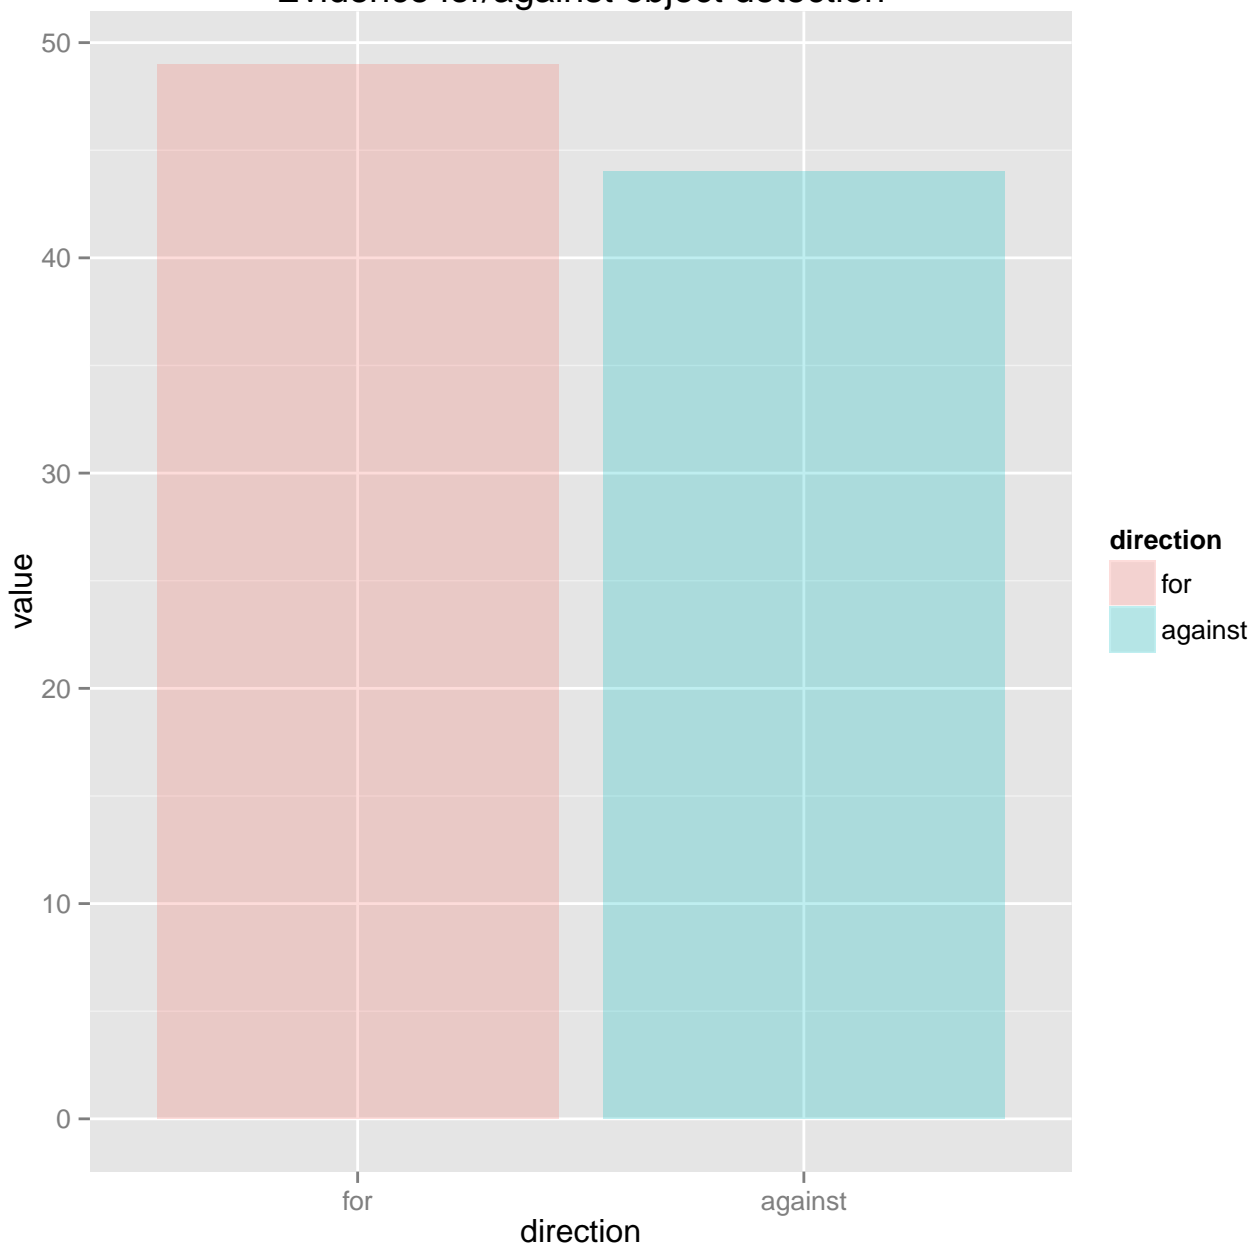

# Evidence for/against right toe response execution

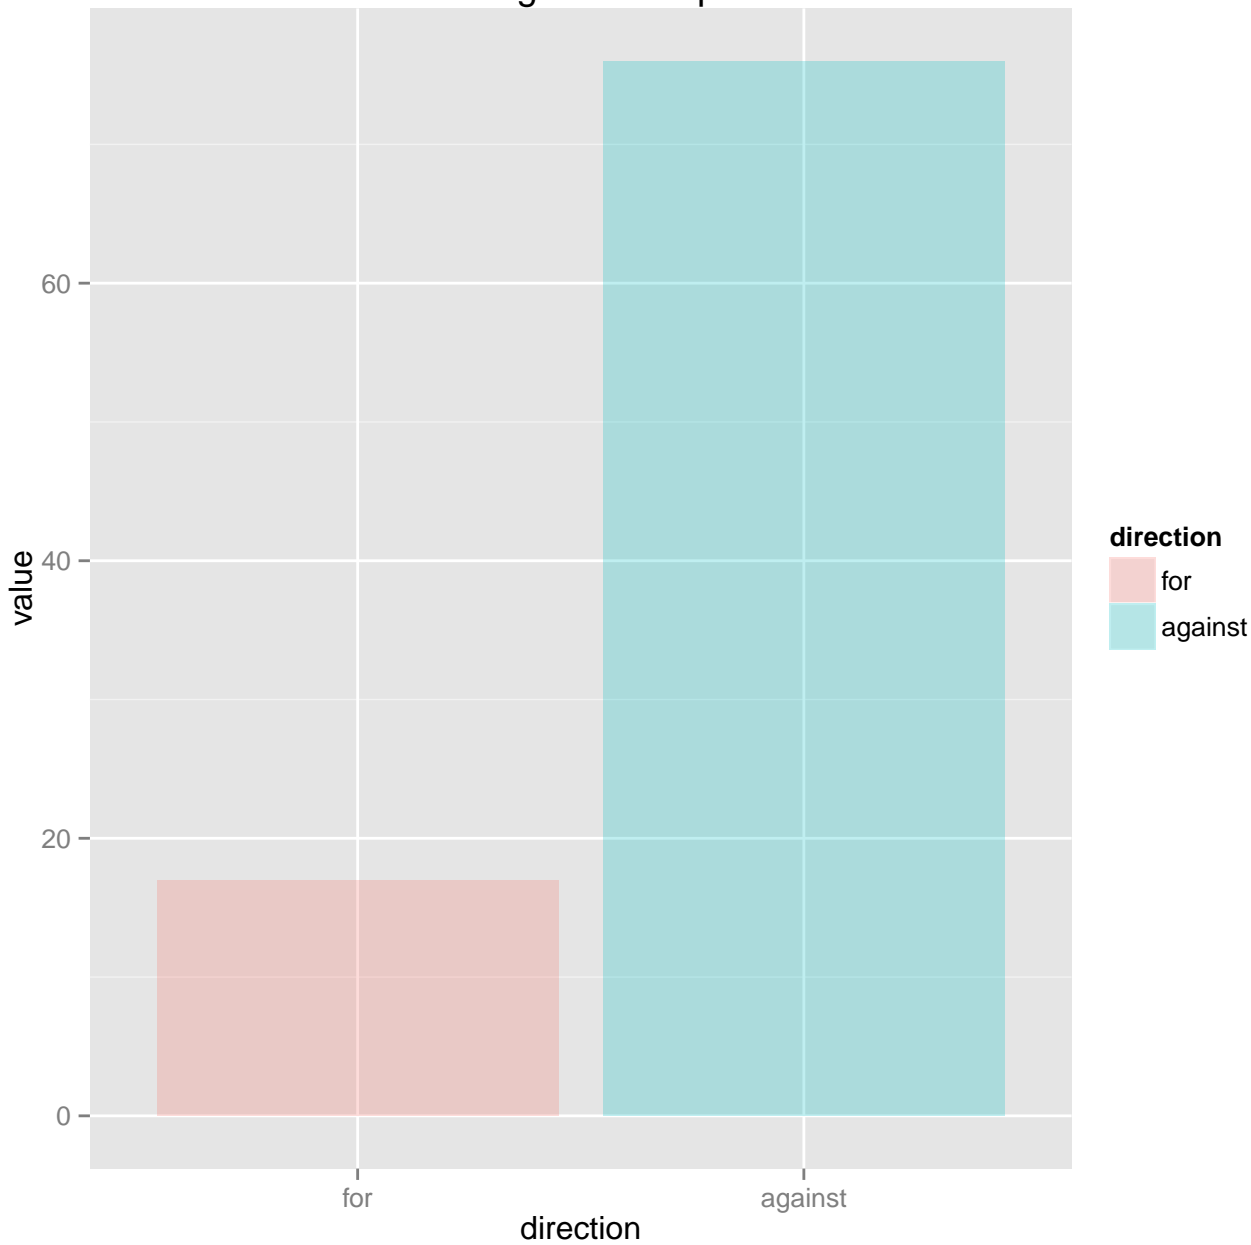

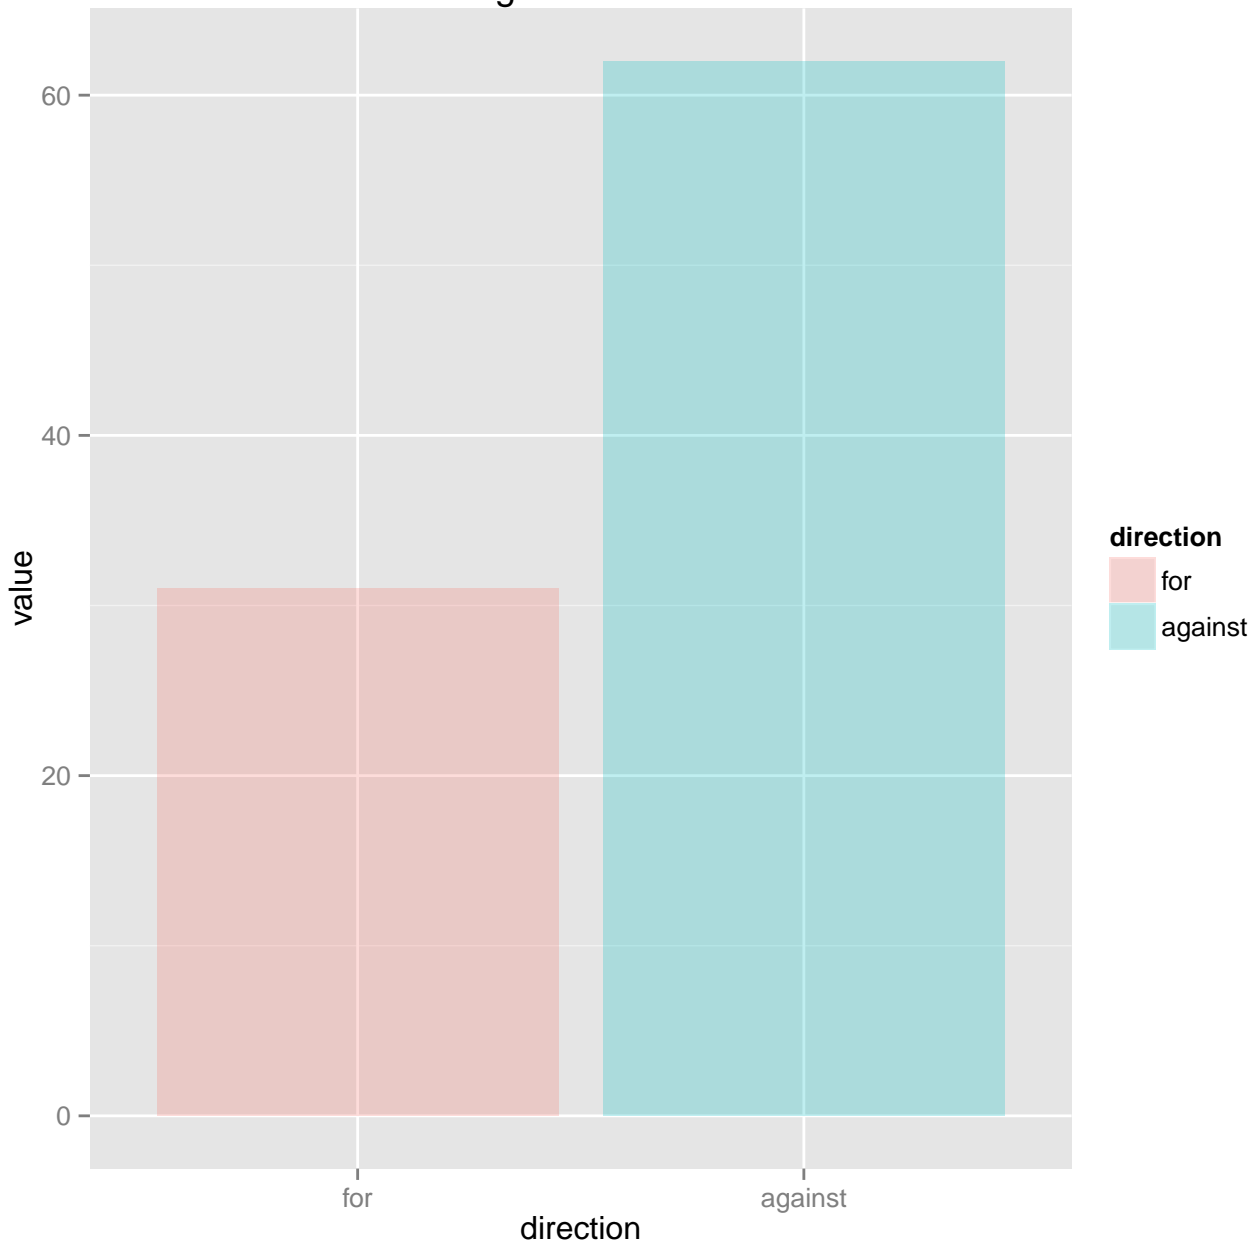

Evidence for/against object detection

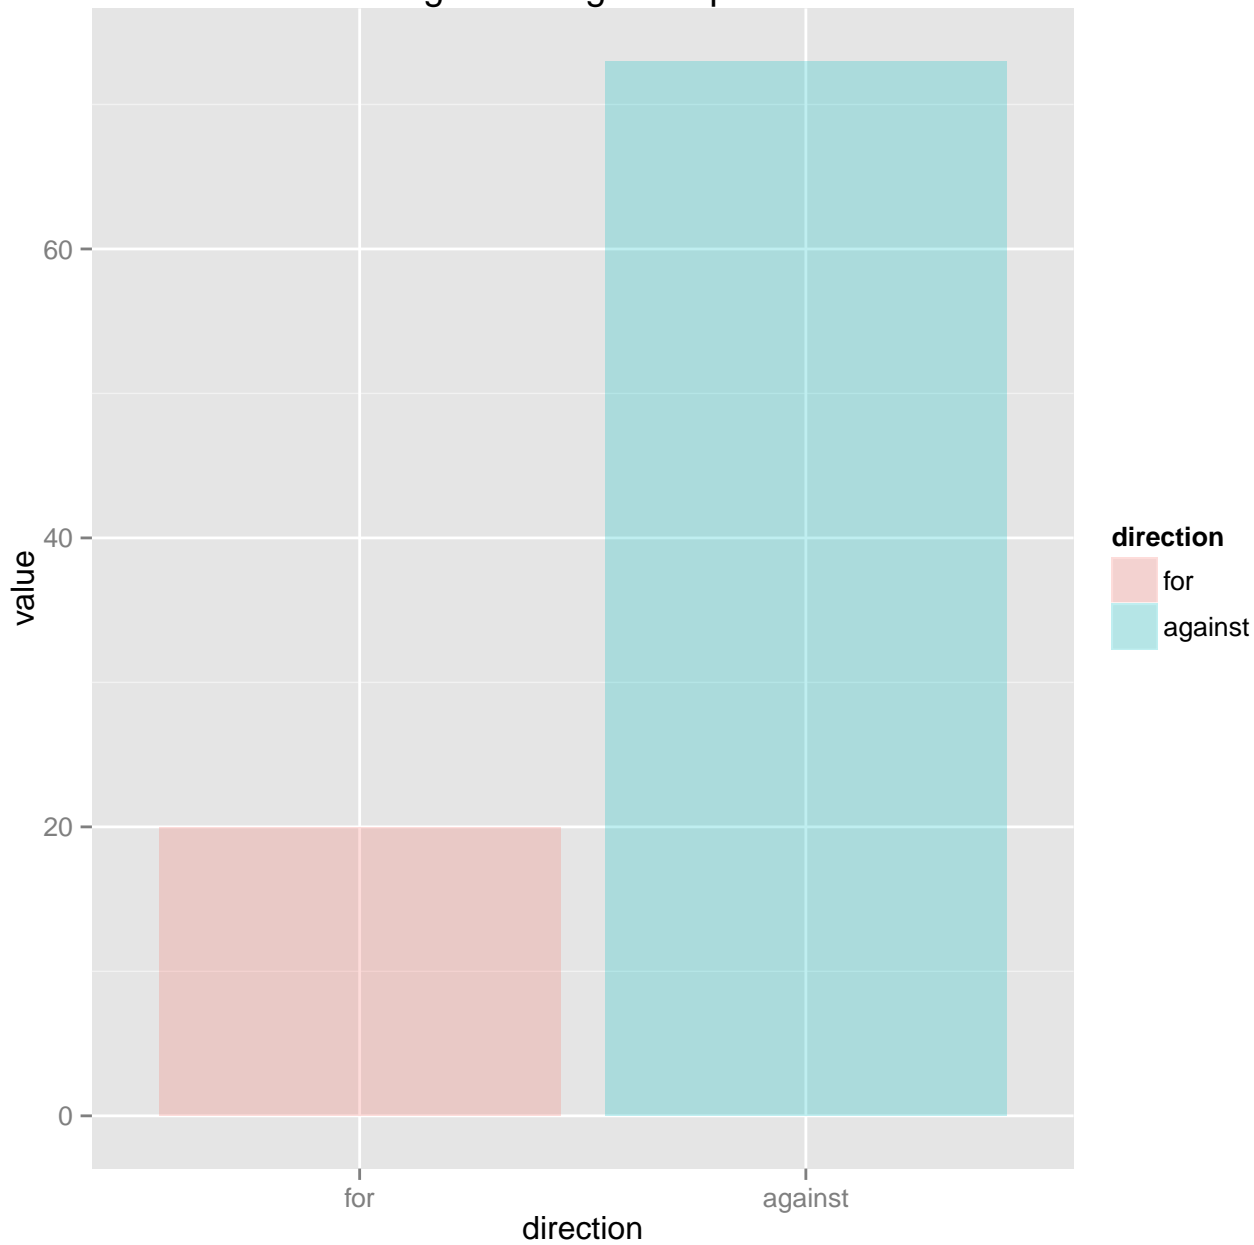

# Evidence for/against comprehension

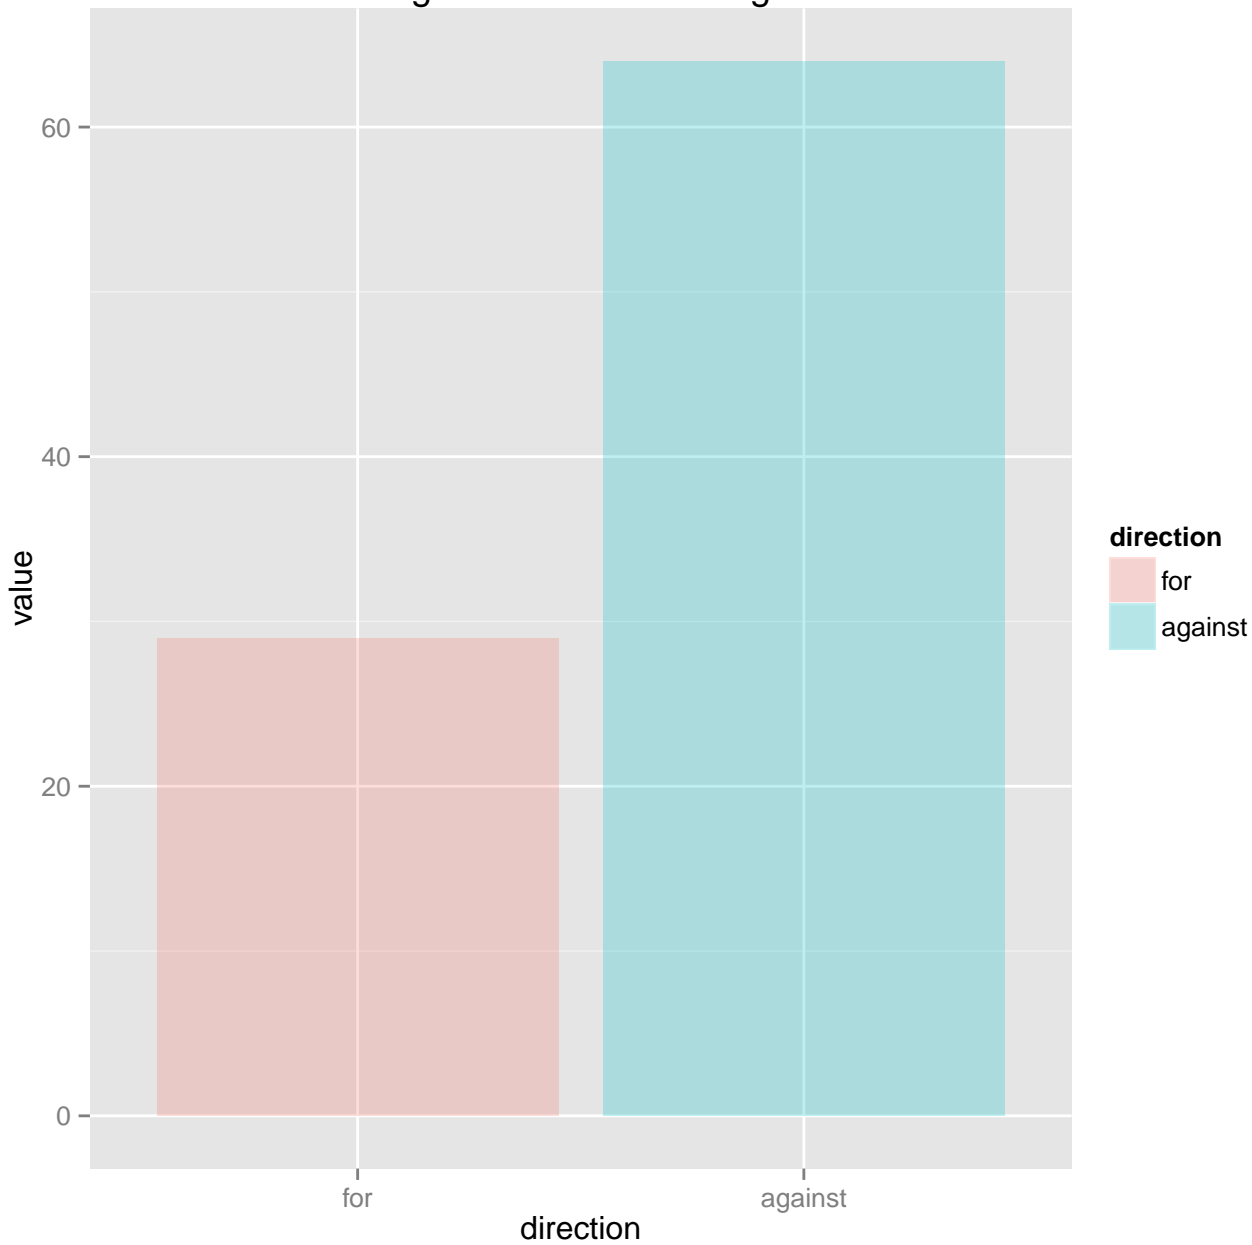

# Evidence for/against stimulus detection

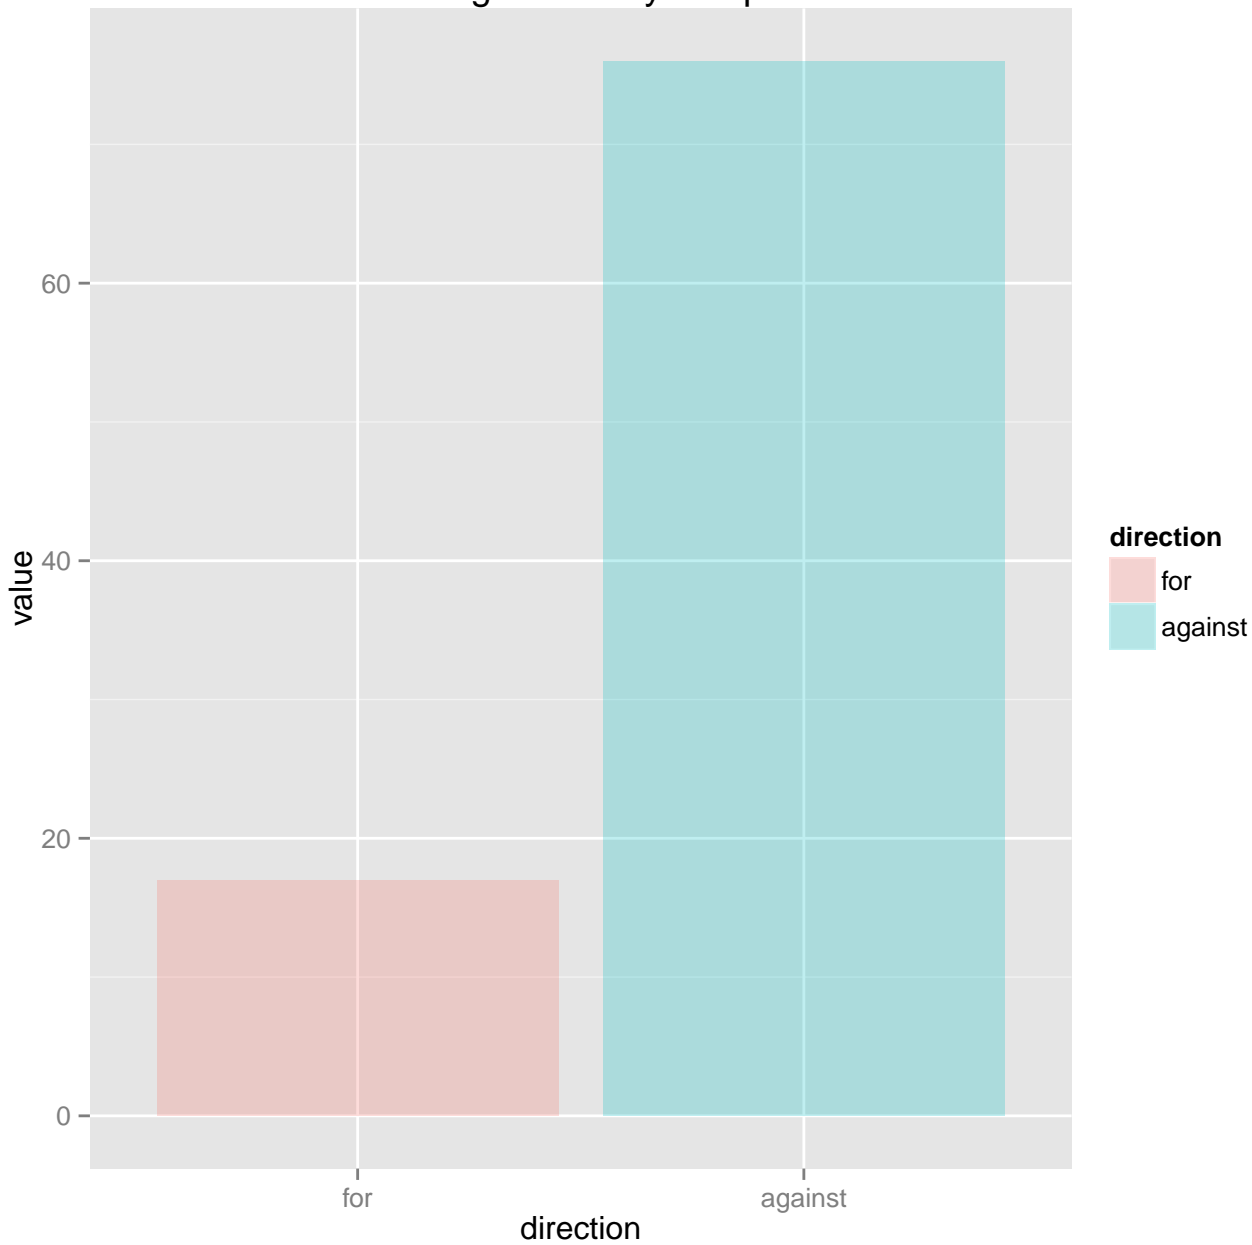

# Evidence for/against tongue response execution

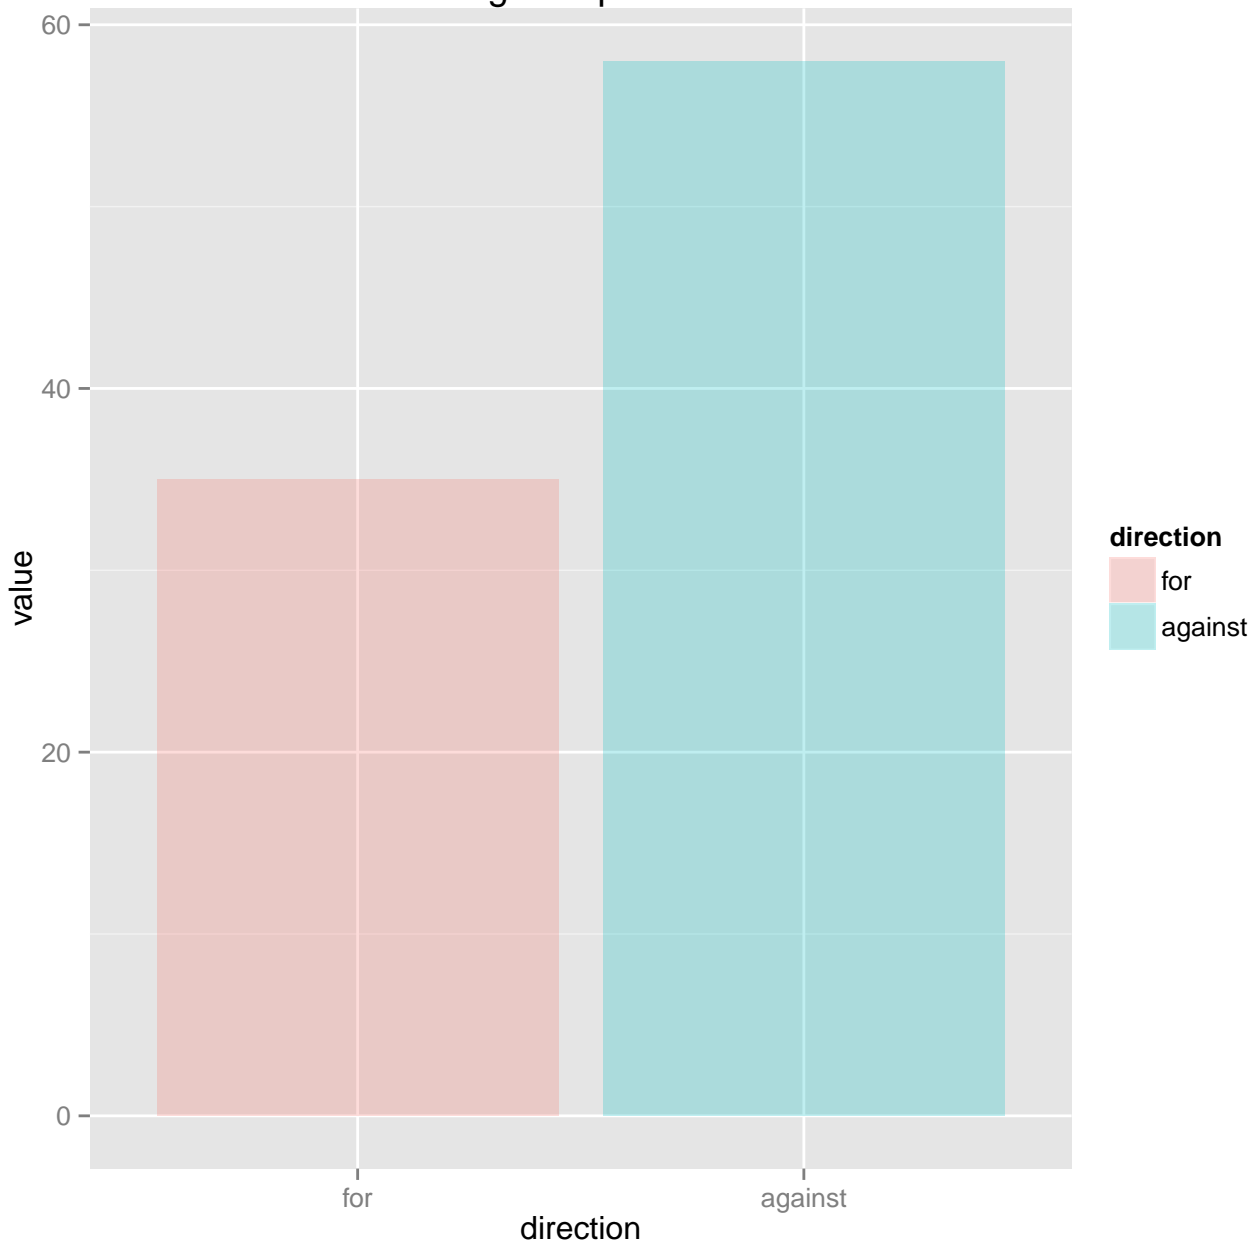

# Evidence for/against Executive–Cognitive Control

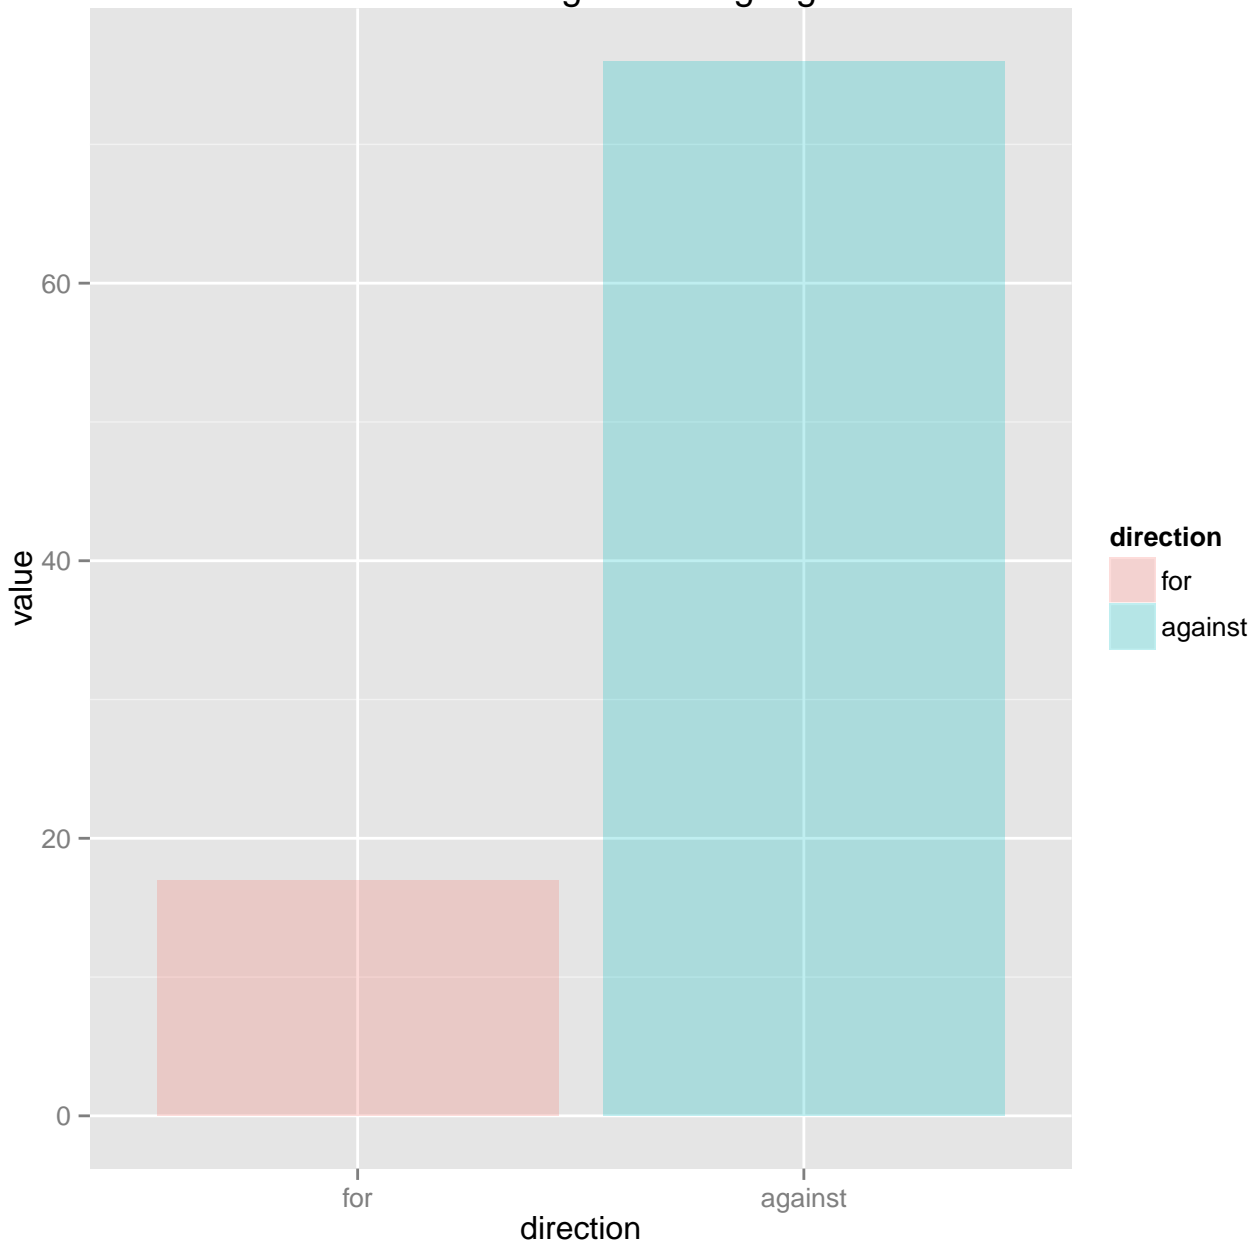

# Evidence for/against story comprehension

# Evidence for/against place maintenance

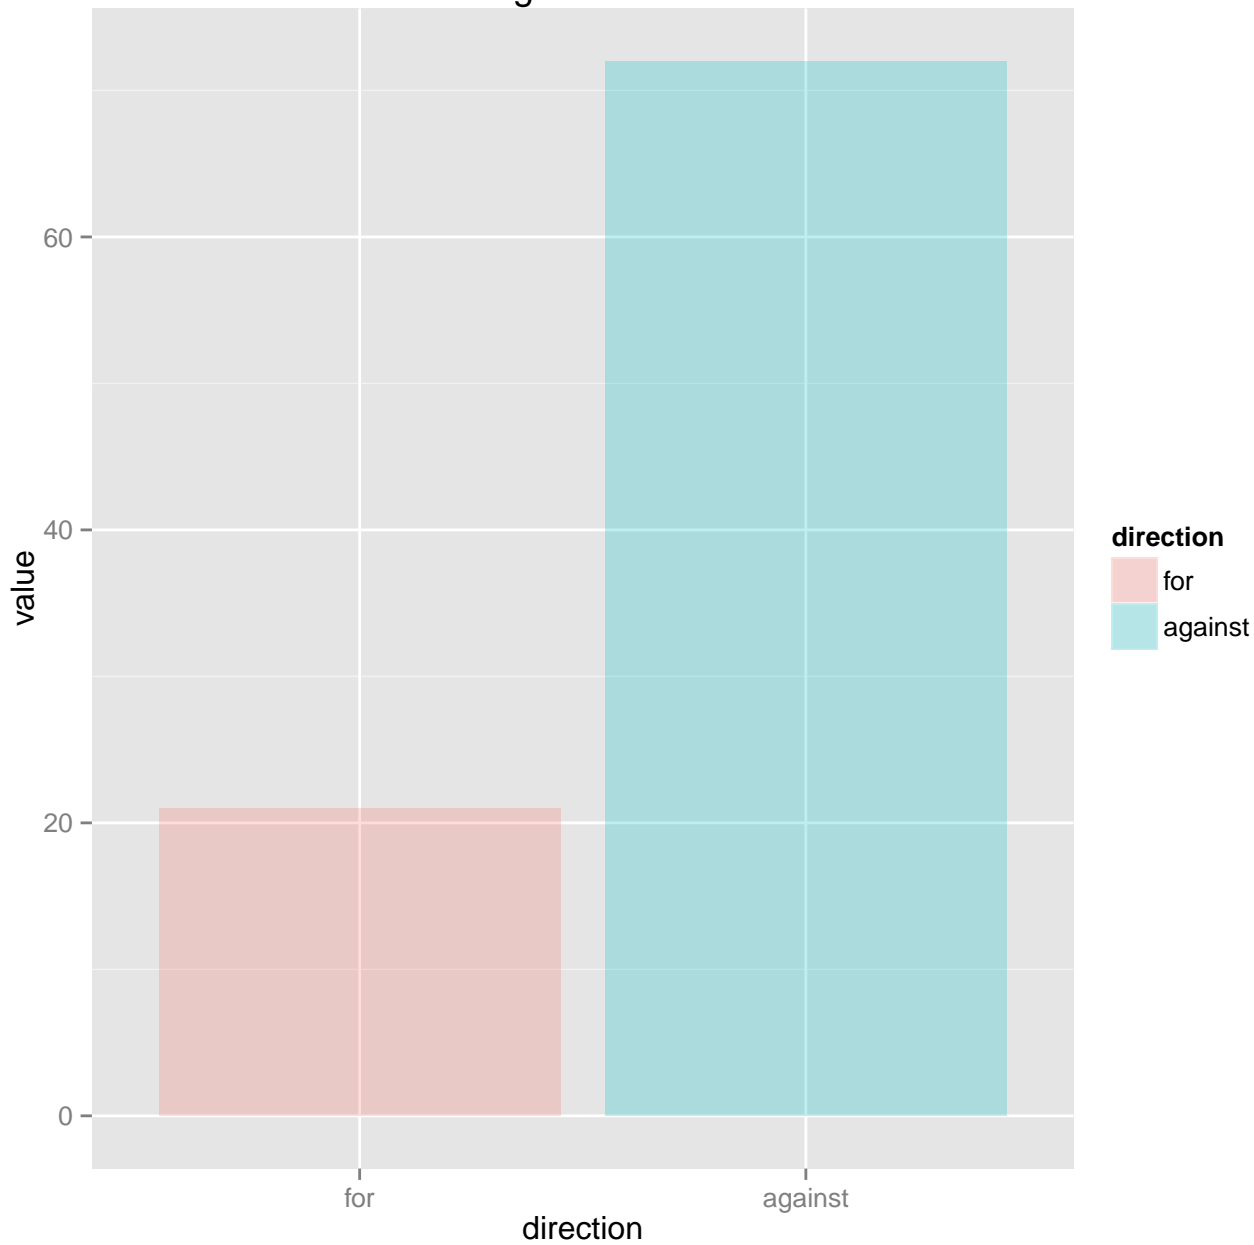

# Evidence for/against Language

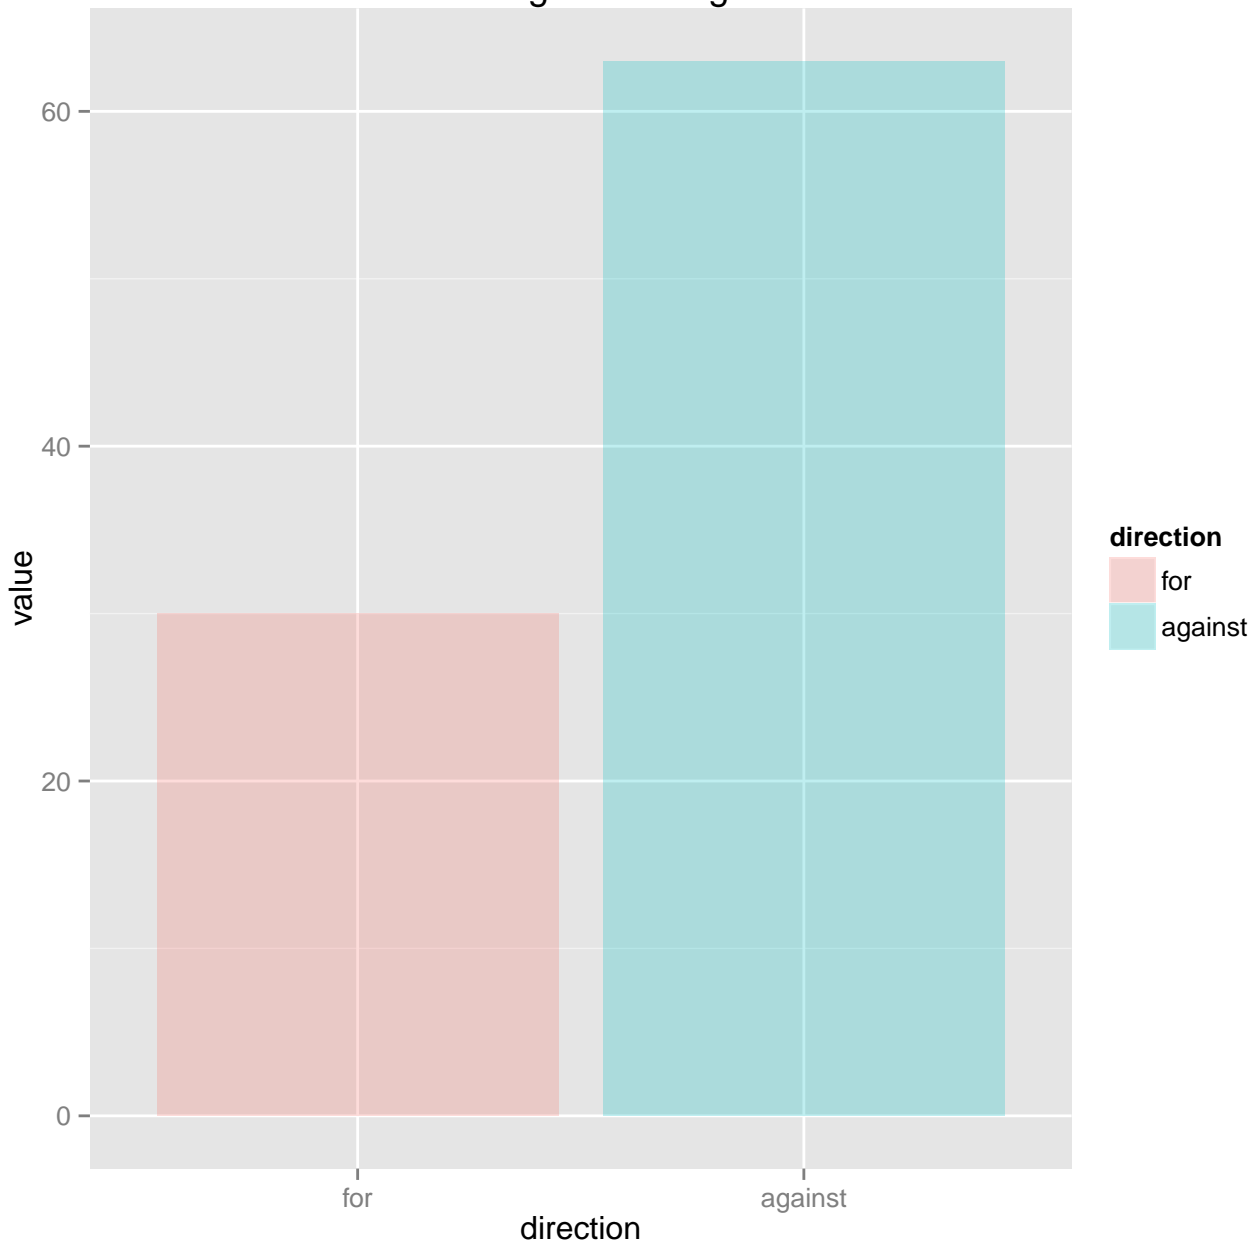

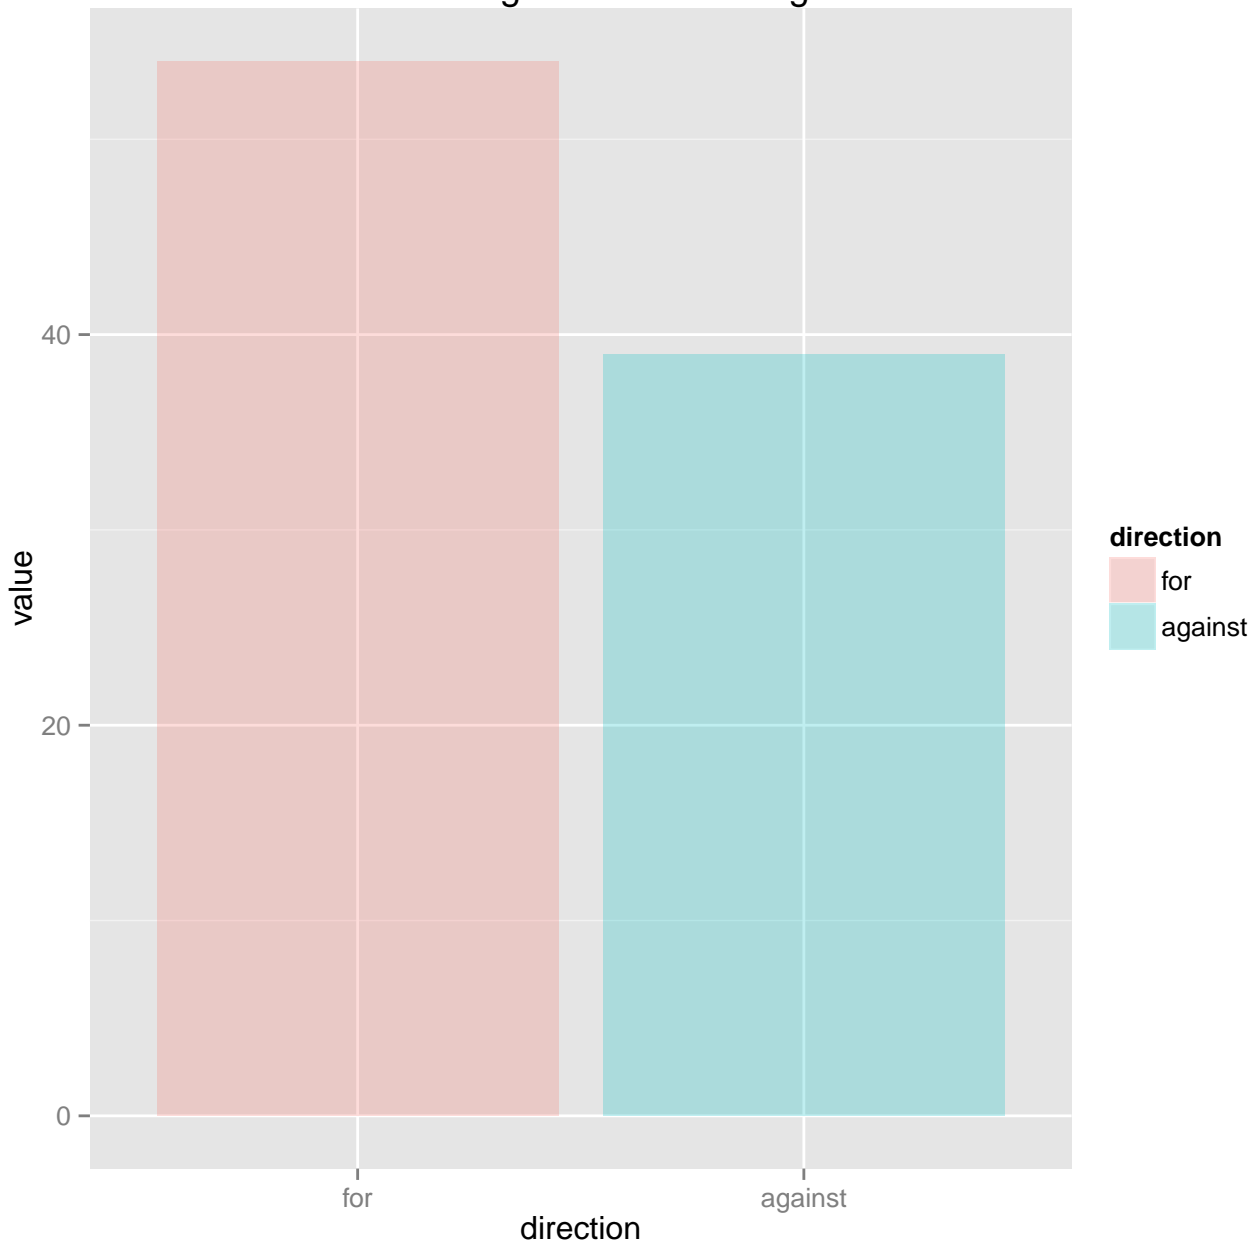

# Evidence for/against selective control

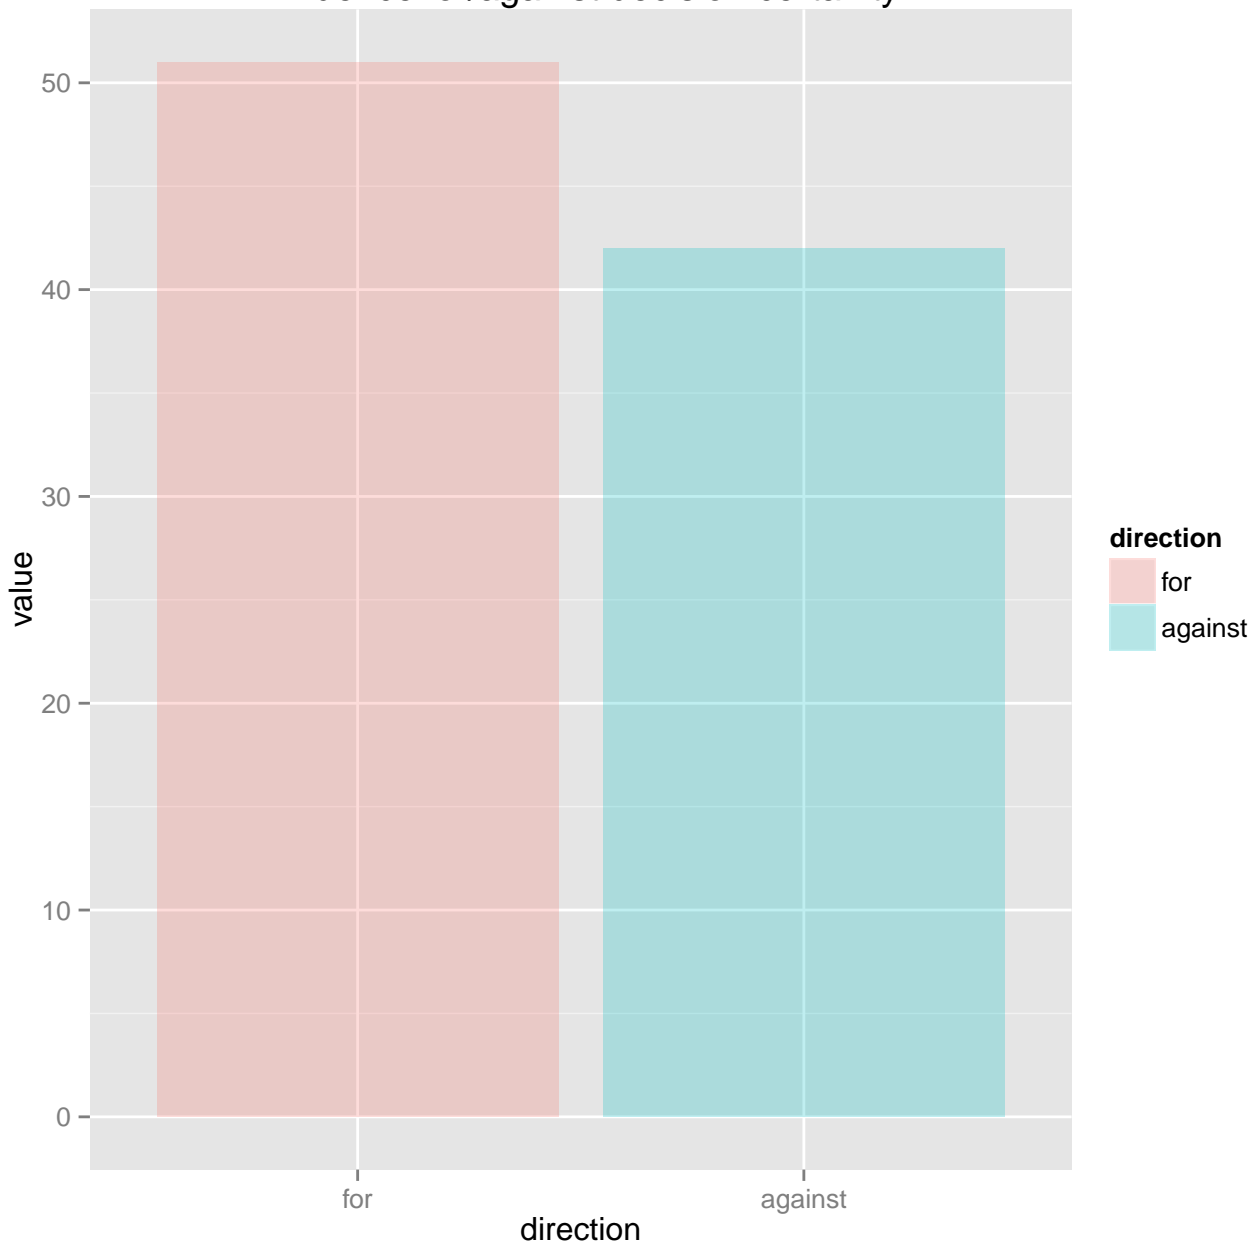

# Evidence for/against categorization

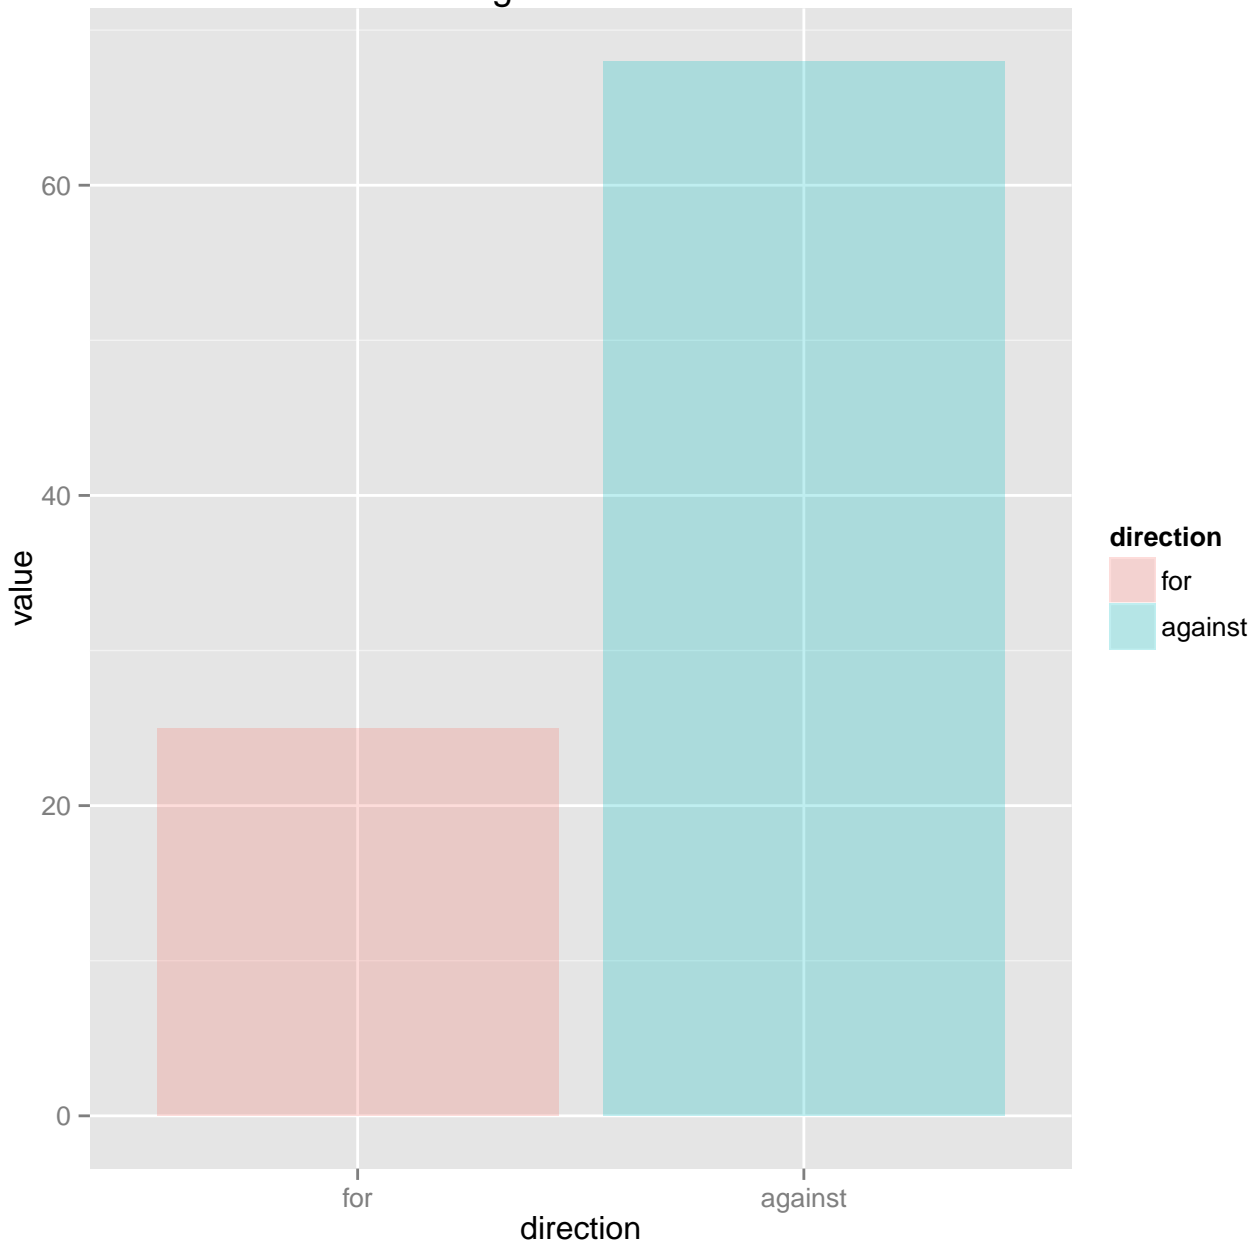

# Evidence for/against visual recognition

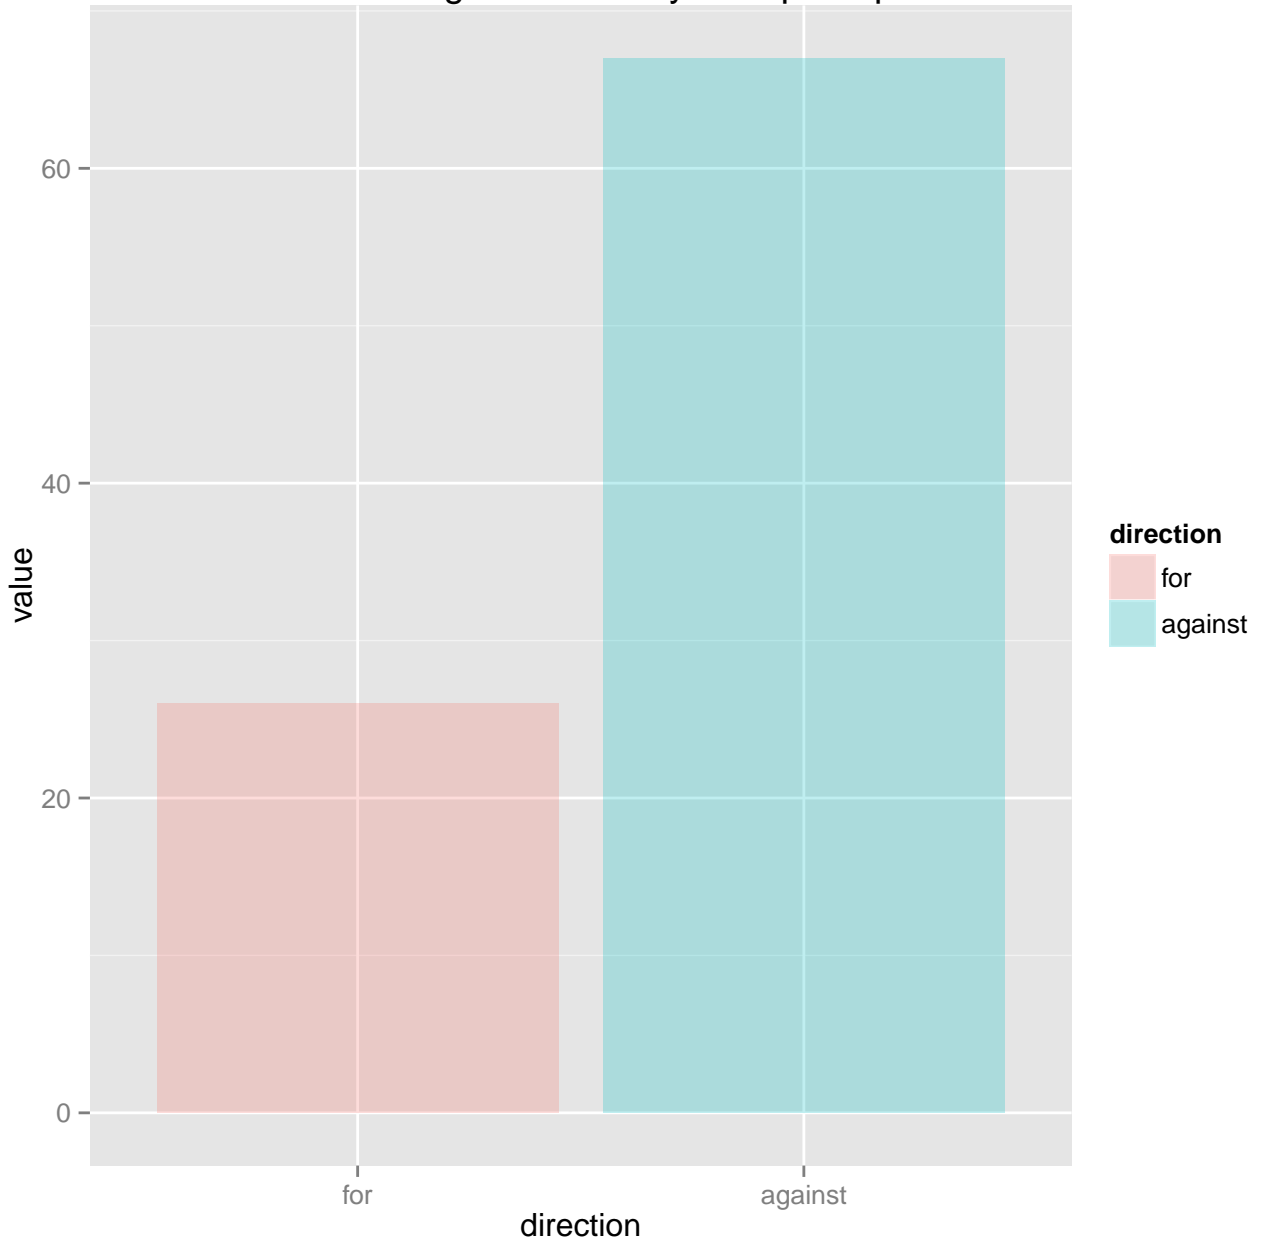

Evidence for/against decision certainty

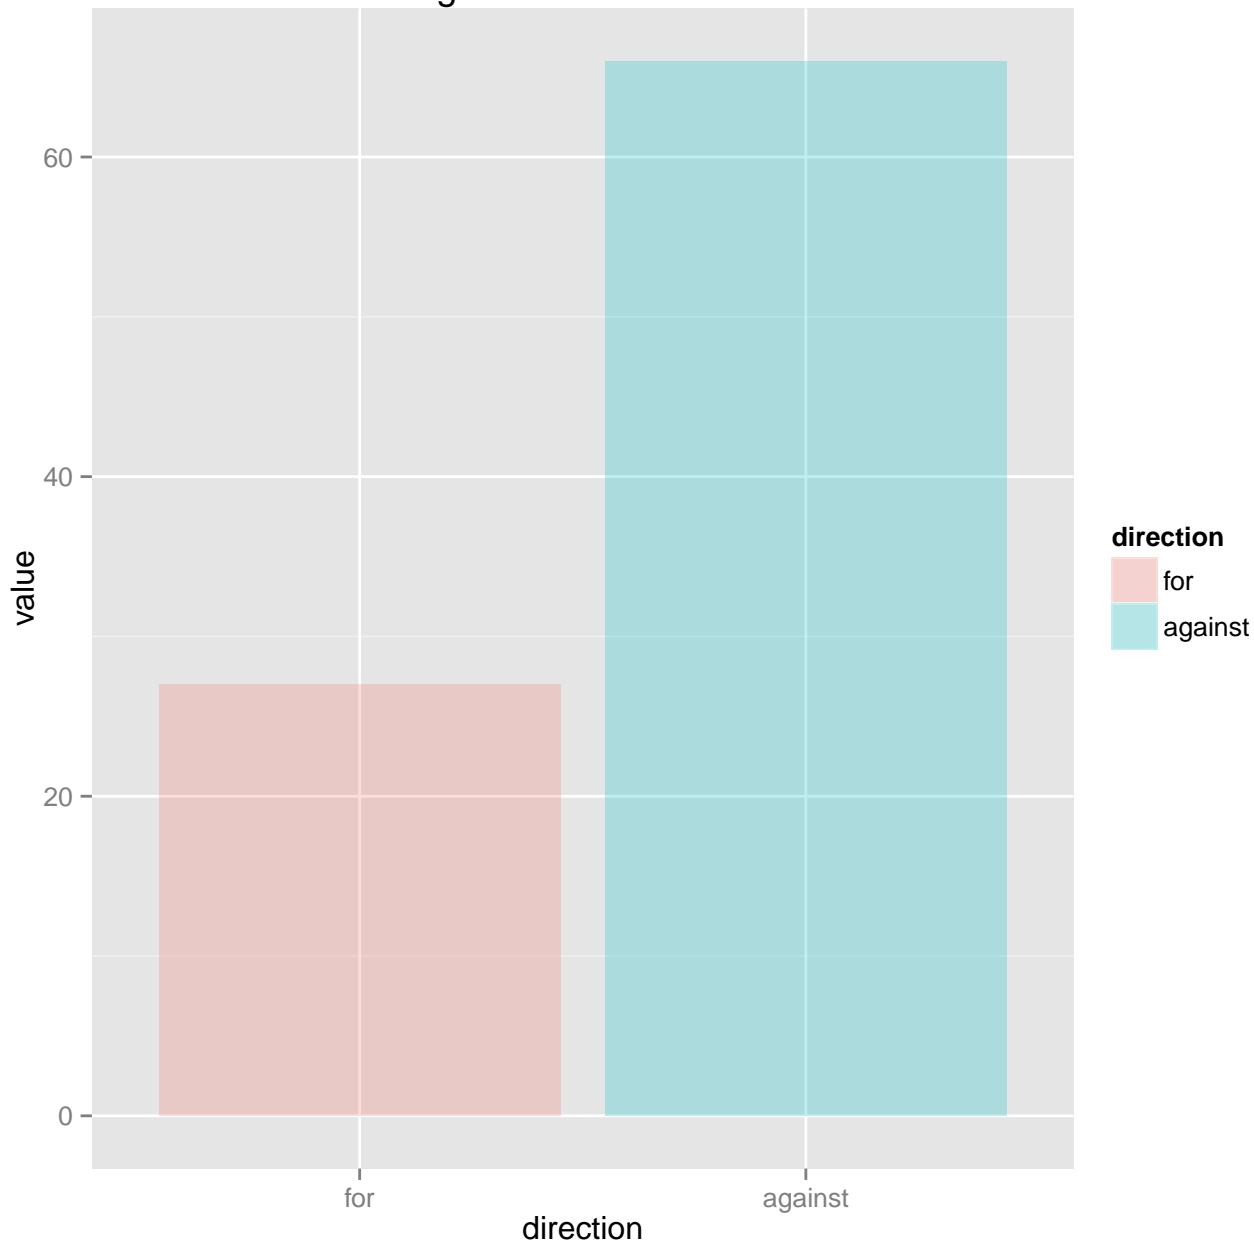

# Evidence for/against word maintenance

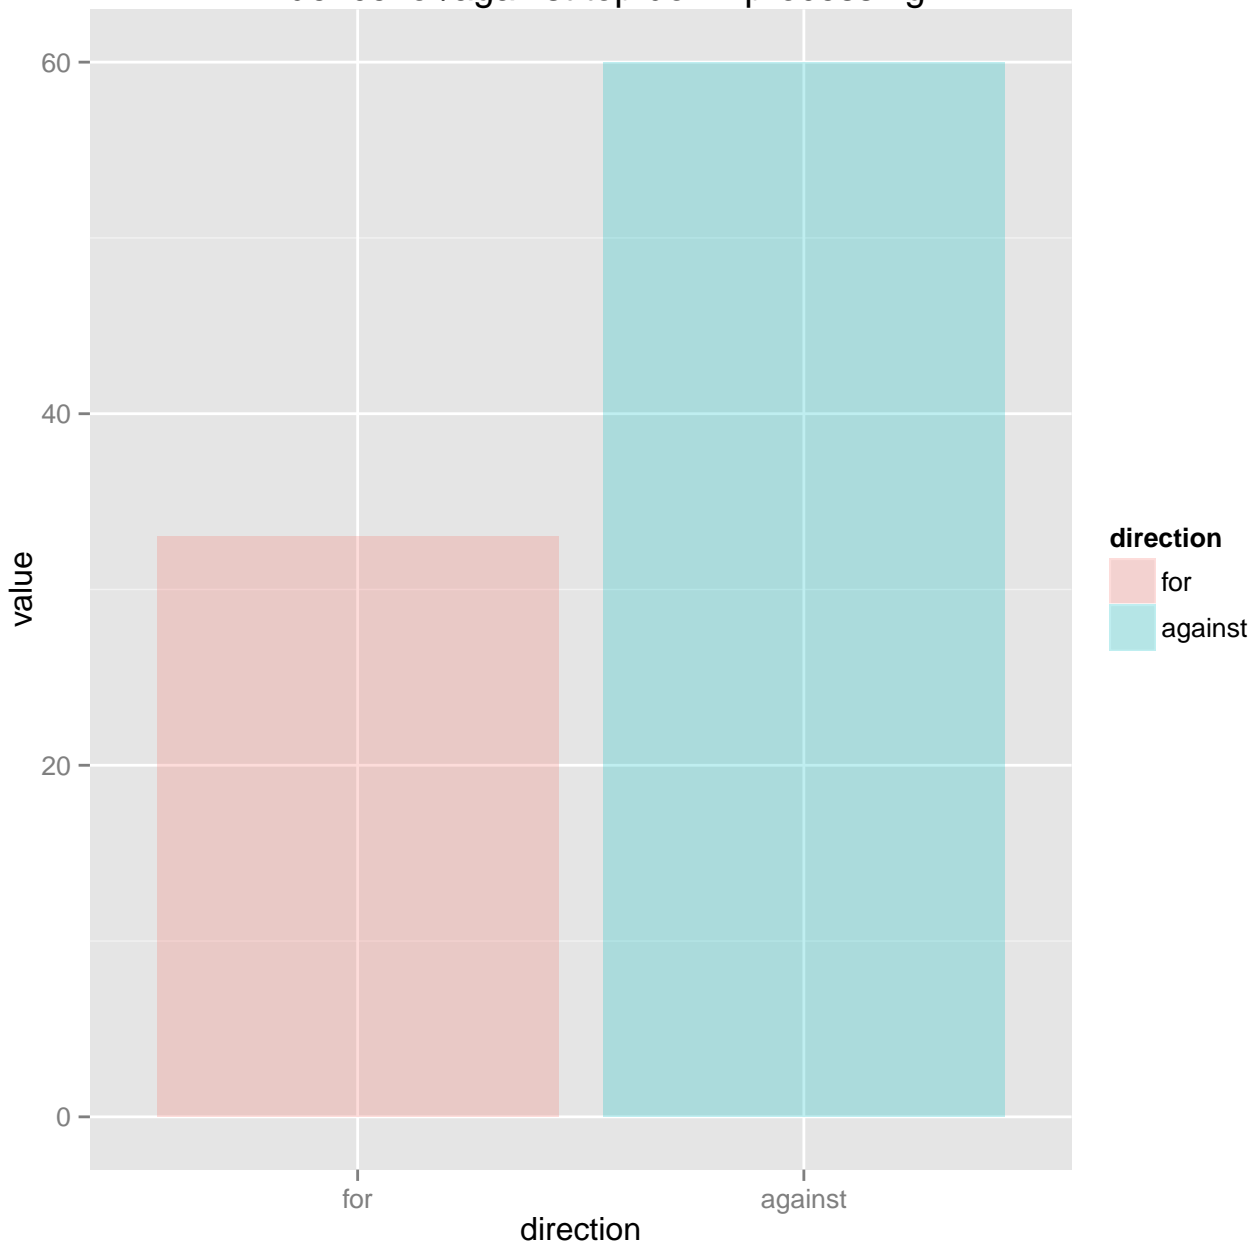

# Evidence for/against auditory tone perception

# Evidence for/against emotional self-evaluation

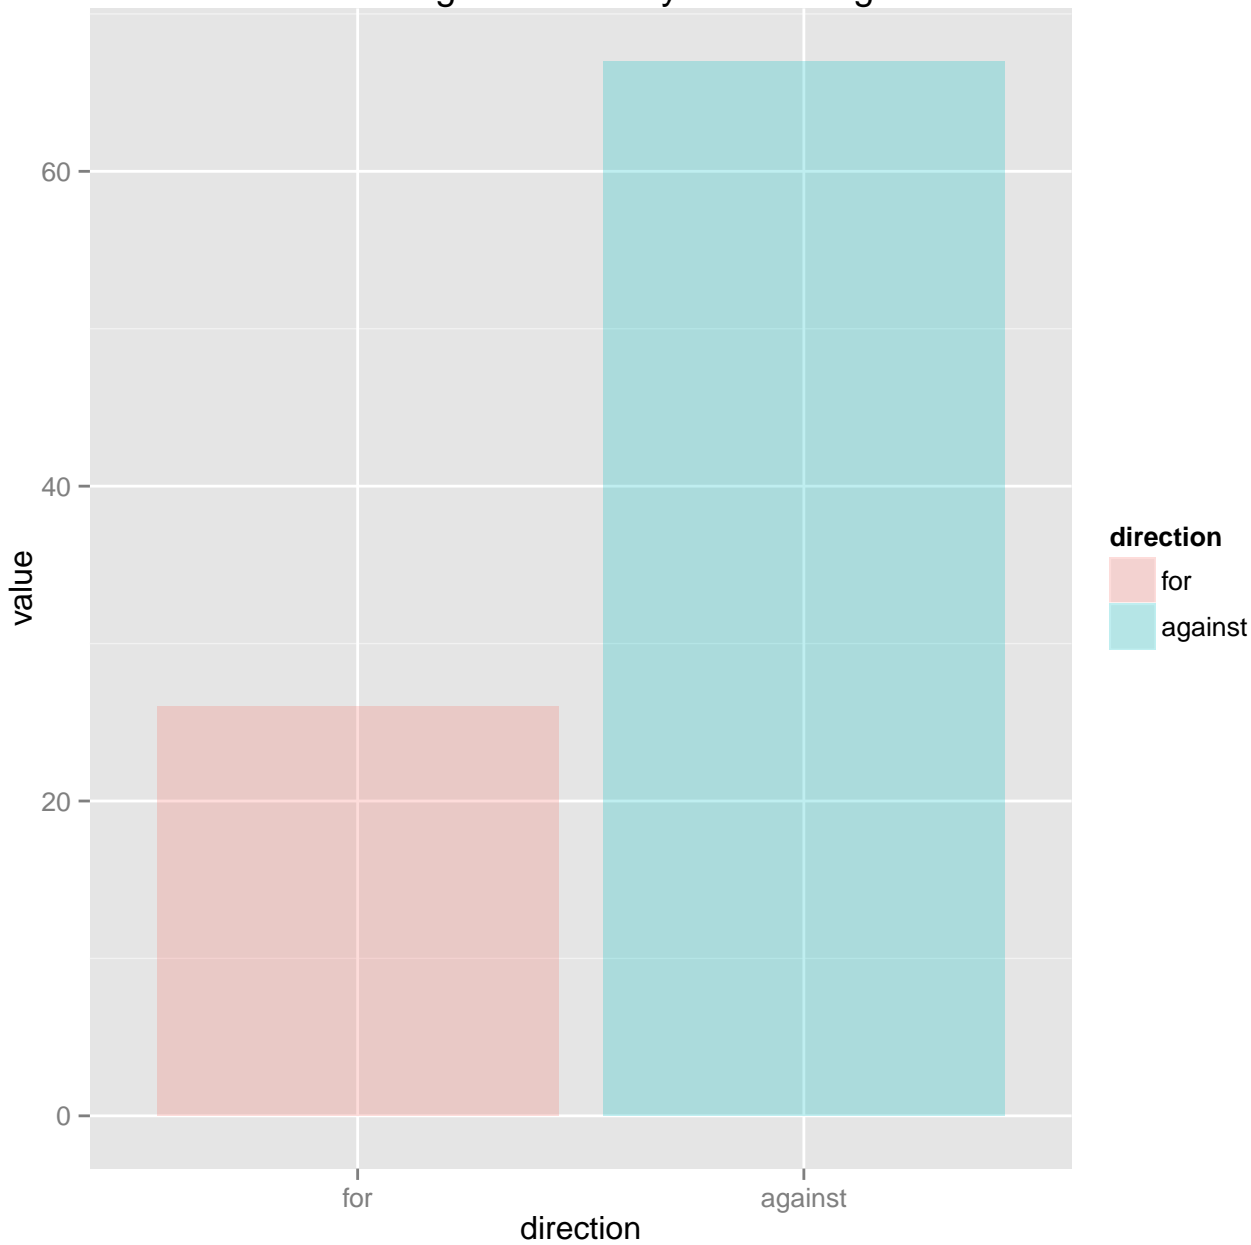

# Evidence for/against top down processing

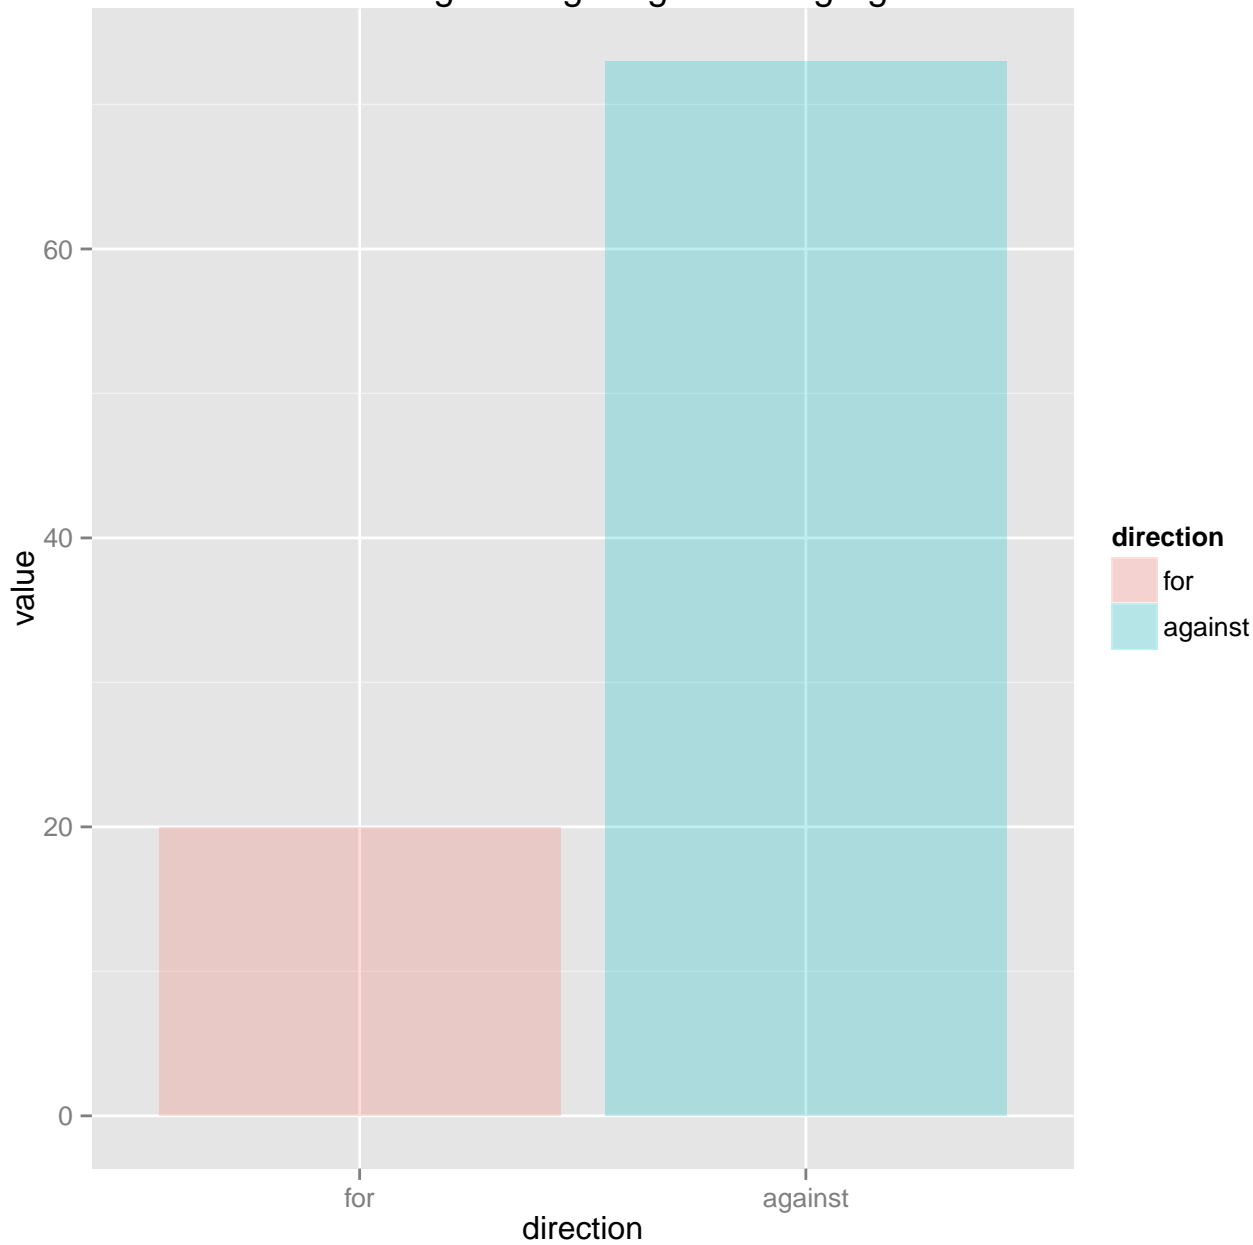

# Evidence for/against auditory word recognition

# Evidence for/against figure ground segregation

# Evidence for/against visual word recognition
